Dear Advisor and Members:

We, the advisors and members of the Cloverdale Junior High School, sympathize with you in the loss of your teacher, Mrs. Christa McAuliffe. She was such an outstanding and brave individual. We feel that we knew her personally.

Mrs. McAuliffe was not just a teacher, but she was an example to all students and adults. Because of this we send our earnest and sincere condolences to all of you.

In memory of Mrs. McAuliffe and the other six members of the Challenger crew, we have implemented a project called "Students' Challenge for Challenger." Each student in our school was asked to give $1.00 toward the building of a new space shuttle. We have asked all students in the Montgomery area to follow suit. Many of the schools have already accepted the challenge . We are making a concerted effort to spread this project across the nation to every school. Upon the completion of the project, we will send one check to NASA. We do hope that you will join us in this commemorative endeavor.

Very truly yours,

Brian Gary
