

Continued

Long may it Wave!

We have lots of sports
and plenty of music
we have two Violins
and a Banjo

and good players too on both
Violin and Banjo I am at
work in the stable and we
have to Drill about 4 hours in
a day If our boys can get
a Furlough to come home
we shall so as to attend the
Convention but I have got so
I do not care much whether
I ever get back there or not
I heard from Osk the other
Evening and he says he
thinks that he can go through
H-l and not get finged and
that is talking rather rough

I think that if he undertook
it he would get
warm by the time
that he got through
I am getting pretty
tough but not as
tough as to stand

fire especially when made of
Brimstone. We have first-rate
sleighing here the snow is about
2 foot deep I was down to the
City last sabbath eve to melting
there was about 300 soldiers
went under our Captain. our
Company holds the right wing
of the Regt and if nothing
happens we shall be company
A. I do not know as I have
much more to write It is
comfortably cold here this evening
where I am sitting and writing
it is the Company Mess Room

and the wind has almost
thawed my Cuddle out, so I
will dry up for this time by
sending my love to you and
all enquiring friends if there
be any and remember
me to Grandmother tell her I
have not forgotten her yet
for it is often that I think of her
write soon as convenient Abba
