STAR DROP
CONTINUOUS AS THE STARS THAT SHINE AND TWINKLE ON THE MILKY WAY

February Tokyo

Dear my friends;

I'm a girl who lives in Tokyo, Japan. My name is Mayumi. I'm fifteen years old.

I was very surprised at the news about Space Shuttle on TV. In Japan, too, it was very big incident. Many people felt sad at this shocking news.

When I saw that moment on TV, my eyes were filled with tears. Your sadness must be too big for me to know. You lost very important person.

I can't do anything for you. Because there is a large oceam between Japan and America. But I hope this letter will be received across the ocean, and cheer you

up.
All the people wish to see your smile, and they think Mrs. McAuliffe was a wonderful teacher.

Cheer up!

your friend:
Mayumi Iijima
