Jan. 30. 1986

Dear Student Body,

I can really understand that you all loved or liked Christa. and when she was chosen I am pretty sure you were very excited. My Teacher said that you were very involved in the space research program it must have been a very confussing and sad day That day of the accident. I'am very sorry about what happened. I was very much so looking forward To the first lesson in space, as I'm sure you were Too. I b I could feel the sorrow you were feeling right now I'm am sure I would be crying She must have been a great Teacher. I give you my greatest sympathy and unbeatable sorrow. I have been watching the news and keeping in Touch. Theyre finding debris, and I do hope that they do continue space research. Christas death left a great impact on my life. as ob you.

your friend.

Students of Concord High

I thought if we wrote and told you how we felt it might comfort you. We are very touched about what happened.

Our school isn't very big. We have only five kids in Junior High and High school total.

We have been watching everything on T.V. I'm sure the T.V. doesn't explain the fellings you are going through.

I hope you still believe in the space program. Everyone including Crista McAuliffe all had a dream That's how I understand it.

Dear ASB,

I am writing from Hobart Bay, Alaska. I feel ~~the~~ terrible about what happened on the morning of January 28. As well as you I share the loss of a loved one, Christa McAuliffe. Even though I never met her I really admired what she had to say and the things that she was striving for. She proved alot of things not only to you but the rest of the U.S. also. Even though she's gone we should all continue on just as she would have wanted us to. You should feel very proud of her and never forget her or what she had to say. I know that I wont.

Sincerely,
Mike Scott

Dear students,

I'm sorry to hear about Christa Mc Auliffe. I've been watching the news her in Alaska and I understand how you feel. Christa left an impact on me to. She encouraged me to understand how she felt. Our school has been watching all the news and the tradgedy. I'm sorry and I hope this letter will comfort you.

Sincerely Yours

Harold Meske
