For the Kids of Concord High;

All of you don't know me, and most probably, none of you will ever know me. But I feel somehow "related to you, because I too attend Concord High School. Not in New Hamphire U.S.A, but in Sydney Australia.

When I saw the early morning news on Wednesday, (which happened to be my first day back at school) I just couldn't believe what I saw. How can 7 people and millions worth of technology, simply cease to exist? I refused to believe that they were gone, and hoped for some type of miracle. But by Thursday, I knew that all hope was gone, and the worst space disaster ever, was a reality.

I know I cannot ease your grief - for only time can accomplish

that, but I wanted to tell you how I feel, in that maybe it might help you understand the pain you must feel.

I admire Christa McAuliffe - a woman I only know through her picture and newsprint - but her courage and dedication touched me I know you must love her very much, and this love will last longer than the life of any one of us. Keep Christa in your heart, and continue on for her sake.

For no other reason, except for humanity and the uniting of all peoples everywhere, I sign this as a kindred spirit.

With Love,

Karen Dombrowski

Year 12 student at Concord High. (1543)

AIR MAIL.
