PUEBLO HIGH SCHOOL

3500 SOUTH 12TH AVENUE

TUCSON, ARIZONA

85713-5997

2/7/86

February 3, 1986

To the students of Mrs. Christa McAuliffe,

We the 5th period American History class of Pueblo High School in Tucson, Arizona would like to send our deepest felt sympathies in the loss of your teacher, Mrs. Christa McAuliffe. This terrible tragedy has touched our hearts as much as it has yours. Seeing the shuttle go up and then explode has been very heartbreaking . Although we may not have known Mrs. McAuliffe, we know what it feels like to lose someone we were very close to. She may be gone but you have to remember her the way she was and not how she is now. Its just a shame to see her life end this way.

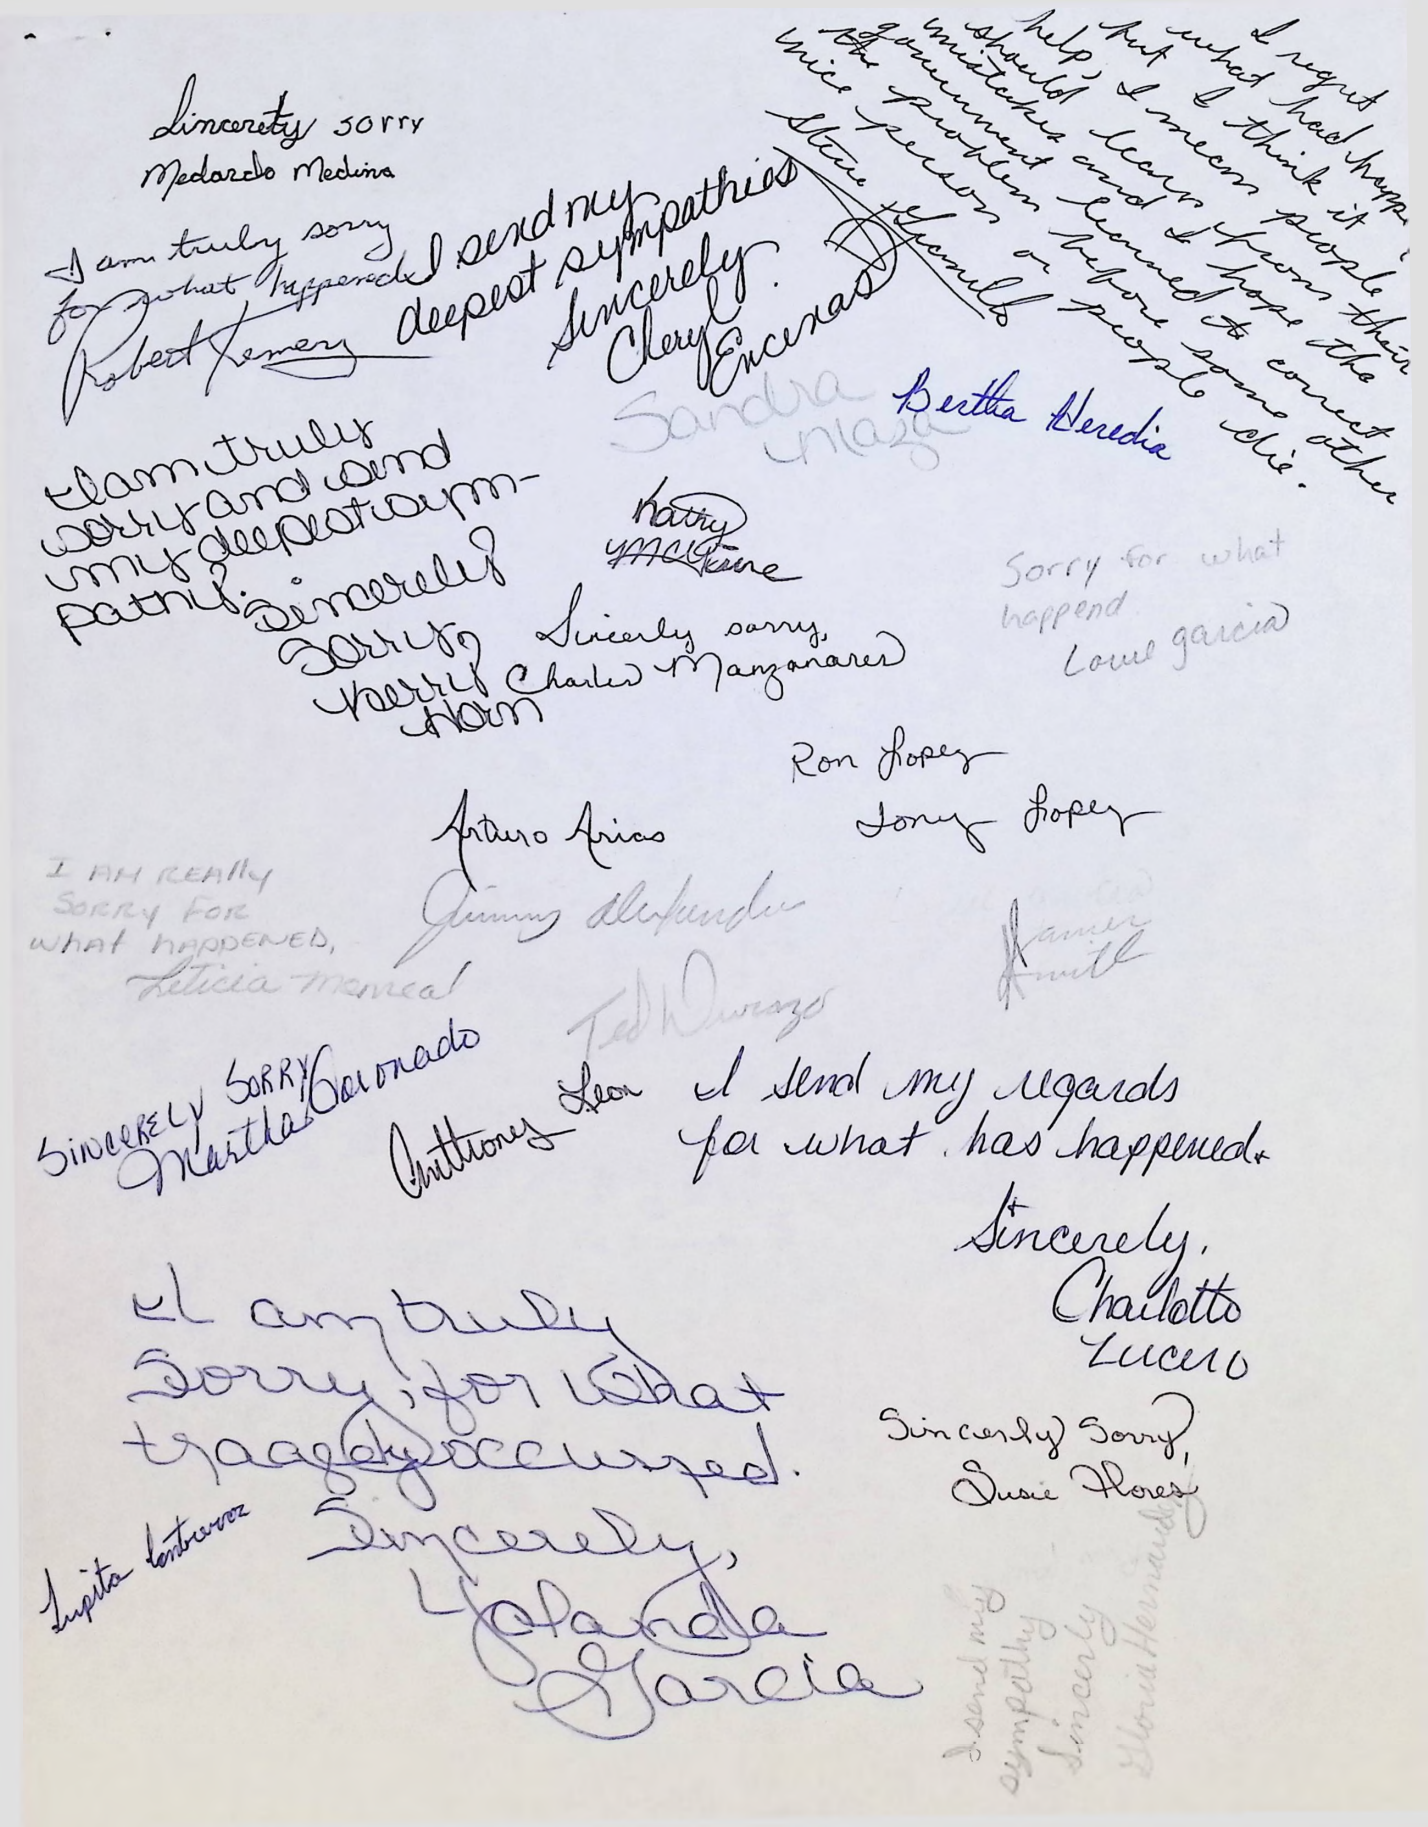
You must have been proud of Mrs. McAuliffe; not only was she selected to be the first teacher in space but she was also selected over thousands of other teachers as well.

We are very sorry and hope you realize she died doing something she wanted to do for the schools, teachers, and especially herself. We know that words will not make up for what has happened, but to let you all know that we feel sad and hurt but not only us; the teachers, staff and the rest of the students as well. We would like to share your sorrows and show you we are sorry not only for Mrs. McAuliffe but also for you the students of Concord High School.

Sincerly sorry,

The students of Pueblo High
5th period American History.

I regret what had happ[illegible] but I think it [illegible] help, I mean people should learn from their mistakes and I hope the government learned to correct the problem before some other nice person or people die.
Steve Granillo



Sincerely sorry
