FEB 20 1986

February 12, 1986.

Mr. Charles Foley, Principal
Concord High School
Concord, N.H., U.S.A.

Dear Mr. Principal;

No one in your school must have assumed that the year 1986 would start with such a disastrous incident of the glorious Challenger leading the dreams of schoolchildren into the space.

Tears often ran down while watching TV and reading the articles especially about Mrs. McAuliffe who was to conduct "the classes in space". She could not actually, but her feat unfinished is great, honorable and memorable. I do hope the same program will be boosted in honor of Mrs. McAuliffe, of course seven souls of Challenger to reach for the stars!

Are your students all right? I have seen some of them on TV. I should be much obliged if you would inform me of what your students are going to do to the memory of Mrs. McAuliffe, fund raising or something.

My deepest condolence to Mrs. McAuliffe's family.

Faithfully yours,

H. Goko
