

and thank you
a piece of my heart

Colby Wis Feb 24 1901.

Dear Aunt Louise:

I think it is time
I answered your letter. I was
very glad to hear from you
again and I hope this will
find you well and happy. Ma
is not feeling very well now.
days she has so much trouble
with pain in her side. Bert
got hurt quite badly about 3
weeks ago he was helping
load logs on to the cars and
they were just putting up the
last log and he was way up on
the load when one end of a
log got away from them and
swung around and struck

They were awfully disappointed, wanted a girl so bad. but I guess they would not trade him now for a girl. He came Jan 9.

Jim & Rowland were up. Last Sunday I asked Rowland how the baby was, "Oh" he says "he getting so fat and nice and he hit me an awful crack right in the eye the other day", he talked so busy and then he did not tell us all he wanted to. I guess I cannot write any more now so

goodbye
Hattie

Love to all

him in the back just as he started. To jump well of course he went right along and when he struck he went down with considerable force and sprained both feet so he has not been able to work since, just got so he can wear a shoe. As for me I am always well I walk my 3 miles a day and get fat, but last week was a fright The blows like fury and my face gets so cold walking against the wind. Clap folks are all well I guess, have not seen them lately she "got up on her Irish" and she has not left them here for the last dance ~~or two~~ or two she leaves them at home alone. Jim + Lydia have another boy (Raymond & Lucy)
