Tumba Swedish Printmaking Paper

Tumba is a superior, Pure White 100% rag printmaking paper with an antique finish which invites quality lithographs, silkscreens and etchings.

Mould-made and completely acid-free and buffered, this paper offers the strength, stability and even formation expected from any high-performance artist paper.

Who are the people at Tumba?

Tumba AB Bruk is unique among the world's paper manufacturers. Owned by the bank of Sweden, the mill was established more than 200 years ago for the purpose of producing security paper on which to print Sweden's currency.

With this responsibility, Tumba Bruk, from its inception, has maintained the strictest controls over all aspects of manufacture. A laser system, the only one of its kind in the world, monitors paper consistency and color, detects even the tiniest pinholes and verifies the position of the watermark it proudly displays on each sheet: *Tumba Grafik*.

Tumba makes only the finest papers and we have chosen two as our exclusive imports:

Goya 300 g/m²
Daumier 250 g/m²

Both sheets are 24.7″ x 37.4″ and deckle edged.

An Introductory Offer

To introduce you to Tumba, we are offering both of these papers at 20% off the one-package price. To qualify for this special discount, complete the card on the reverse side and return it with your order. We will extend credit to any institution and any established account; call our order desk, 201-935-2900, to make arrangements.
