

May 1st -

if Willis
thinks of coming the sooner he gets
the more sure he will be to get
a good job. So would never ~~would~~ write for
^{any one} to come up here for wages were always
so low he used to say they would be
dissatisfied and blame him but he
used to wish some one would come and
try their luck he liked the place and
the people first rate.elay says it
seems to him that small wages are
better than nothing if it ever happens
so that you can come you need not be
afraid if you have to come alone for
if you come by Fond du Lac

you will not have to change cars but
if you come by Chelton you would have
to change once if you let us know when
to expect you we would meet you at the
depot - but any one here would tell you
where to find us it might do your mother
good to come up here in the spring I
suppose she would be homesick for
awhile but I do not think you would
be homesome long it is so easy to
get acquainted here we do not live nice
nor dress nice but I guess we live as well
as most poor folks do there is lots of
poor folks here and a good many that is
well off Eliza does not want to move
away from here nor George either if they
can ~~manage~~ manage to take care of us I
will try to be content - but it does not
seem as if I ever will feel like my old
self again
please write soon and tell us what Willie
thinks
2010.022.031 So Good Bye J Johnson
