

Thurs 10-30 AM

Day Comes:

Would you want to
go out to work for the
summer? And how
much would you ask
by the week? Gosh! I
guess my hands are
giving out, that I would
never get thru milking
last night. I had been
shoveling gravel all day
and was tired. nearly there
have been patching our road
in the pasture - it was fierce.

Did you know E was
going ^{away} to work? I never
mistrusted untill Monday -
looking in his room I
see his cloths were all
gone. Good luck to him.

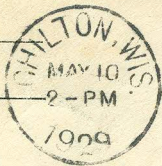

Shamus will be here tomorrow
mending tractor & spring
tooth.

If you will come and
work let me know.
