The paper was folded in half and in thirds. The most discoloration is on the back along the two vertical creases. From the front the two last vertical black ink lines appear to have water damage causing them to bleed through to the back. The bottom edge in the middle is torn and folded back. There are spot stains along the bottom edge. There is a blue and brown cluster of stains in the bottom right quadrant. There is a dark brown stain just above the first line written sideways on the front.
