J. B. CRALLE,
U. S. CLAIM ATTORNEY,

Rooms 29, 31, 33, and 37, Gunton Building,

P. O. Drawer 584.

WASHINGTON, D. C.

DEAR SIR:

From long and successful experience as a practitioner before the Pension Bureau, I have learned that there are thousands of Pensioners borne on the rolls who are entitled to a much higher rate of Pension than they now receive. Unquestionably many were rated too low originally, while the majority have disabilities of a progressive character, which very perceptibly increase in severity year after year.

The Pension laws are much more liberal than they formerly were (the rate ranging all the way from \$2.00 to \$72.00 per month,) and better rating can be had for many specific disabilities. I have selected your name as one whom I think entitled to an increase, and have prepared you an application for the same, which I enclose you herewith.

You will at once execute the paper before some Notary or Justice, or any officer authorized to administer oaths, who is most convenient to you, and return to me. Do not fail to fill in your age, letter of your Company, number of your Regiment, in blank spaces left for that purpose.

I WILL NOT REQUIRE YOUR PENSION CERTIFICATE, AND YOU CAN DRAW YOUR PRESENT PENSION RIGHT ALONG DURING THE PROSECUTION OF YOUR CLAIM.

REMEMBER, I ASK NO FEE UNLESS SUCCESSFUL, AND THEN ONLY \$10.00, CONSEQUENTLY IT WILL COST YOU NOTHING TO APPLY.

Under the new law, enacted July, 1884, the Attorney's fee is paid to him (ONLY UPON HIS SUCCESS) by the Government Agent for the payment of Pensions through whom Pensioners draw.

If you prefer to be examined by some surgeon or board other than your own, state the fact and the place where you desire to be examined.

If you have received an Increase several times you can apply again.

If you have applied before and been rejected, do not be discouraged, as I frequently get cases through that have been rejected several times. Let me hear from you at once.

Respectfully,

J. B. CRALLE.

—:0:—

To assure you of my success and good standing before the Departments, I give you a few testimonials; also names of a few of the many whose rates have been increased through my instrumentality:
