En route

Feb. 9/19.

Dear Mr. Dick: No doubt you think it is a long time since you heard from me, & I agree with you - but it's also a long time since I heard from you. Lou & Doll say they haven't heard from you & wondered if you were at home, or were visiting somewhere. You see I am nearer home than I was during the summer. Weather has been quite cold for this part of the country. How are you managing to pass in the winter? Hope you are not alone, but have some one with you. Of course Science teaches us we are never

alone - & that is surely a great truth.
Have been quite busy studying & rehearsing new
parts - & it takes a great deal of time.
Do you still have the store? It seems to me
it would be much pleasanter to have people
coming in to buy occasionally. How are all
the neighbors? Do you ever get to Chilton or
Pond du Lac? Can't write much as it's near
supper time. Hope you read S. & H. & get the
lessons daily. Write when you can.
Yours with love - Wile (Henr.)
