The paper was folded twice and is ripped along the creases on both pages. There are multiple oil stains on all pages that seep through and there seems to be dark rows of lines on the first page, one being over "owner" in the first sentence of the top paragraph. IT looks as if these dark lines might have bled through the paper as well because a mirror is next to the 6th and 7th names in the first column. The edges are discolored and stained as well as have tears. The top half of the last page seems to be the dirtiest and on the bottom half there are dark black stains.
