A Message

We thank you for your visit and hope we have demonstrated to you the conveniences and comforts that may be economically embodied into a home without sacrificing either beauty or design.

The home is provided with ample closet space and a sufficient number of electric outlets conveniently located.

Throughout the entire home you find the latest red oak hardwood floors except in the kitchen and bathroom which have inlaid linoleum.

The heating equipment installed in the home automatically maintains an even and healthy atmosphere both in winter and summer at a reduced cost.

In designing the kitchen, every effort has been made to lighten the burden of the house wife. The insulated steel cabinets so conveniently located, add greatly to sanitation. With the aid of the electric fan installed in the kitchen it is possible to control the humidity in the home besides quickly disposing of cooking odors.

This is truly a home of today. If we can be of further service, it will be our pleasure.

We regret that weather conditions did not permit the completion of the exterior painting and to carry out our scheme of landscaping.

We extend our appreciation to the following for their splendid cooperation in the construction of this home:

Oscar Hollander, General Contractor
W. G. Kennedy, Cement Work
Peter J. Karl, Plumbing
Clarence Kastorff, Mason Work
MacIntyre Company, Sheet Metal & Heating

Hugo Gebhardt, Electrician
Bethke & Schroeder, Painting
Boulay Bros. Co., Material
Fond du Lac Concrete Products Co., Material
Walter Topp, Material
