

of a Musk nose Johnson  
around there yet

Colby, Wis., Dec 28<sup>th</sup> 1900.

My dear Aunt:

I am sure that I do not owe you a letter but I will write you a few lines to let you know that we are all alive yet. but we are having frightful weather last night it rained real hard now it has turned to snow. My school closed Friday for two weeks. Ma and myself are going to Marshfield this week to <sup>see</sup> Jim's folks he's having awful bad luck, in October he cut two fingers on the right hand and could not work for two months then Rowland fell down and cracked the bone

in his arm and Lydia had  
a real bad spell so he has had  
hard luck. Day folks are all well  
as usual, Babe was here to day and  
helped "Aunt Hallie" do the work  
she shook the rugs for me, she  
is all "dolly and buggy" now I do <sup>not</sup>  
know what she will do if she dont get  
them for Christmas, she says when she  
gets them she will let Grandma  
play with them but <sup>not</sup> Bert because  
he always bothers her. Here are some  
pictures, one for you one for Uncle  
Willis and one for Grandma Johnson  
Well I must close with Merry Christmas  
and a very happy New Year to all from  
Hallie
