---

Your welcome. This wreck happened 1 mile outside of Moncks Corner towards Charleston. That is definitely towards Mulberry.

If I had some photos I could ID... when you get a chance. ☺

Hmmm. So close but maybe too far... I just checked the index to each film canister that came with the footage when HCF originally got it. The index indicates a canister labeled 1930 contained the footage of the train wreck. There's no way to verify that but I have to trust that it's true. Plus, I only guessed that the wreck was in or near Moncks Corner, figuring that the MC station would've been the closest depot to Mulberry. I'll definitely hang on to the two articles you found (THANK YOU!!!) but one of these days I'll look for accounts of a 1930 wreck.

Thank you so much for ALL your help. The info about the photo is invaluable!!! Since you offered (and I hope you won't regret it), I'd like to add you to my team of "ace identifiers."

With gratitude and appreciation for all your time and attention,  
Karen

Here are two News and Courier articles on the accident. First article is of the incident that occurred Christmas Day 1925. The second is of the coroner's inquest held in January 1926.
