Karen,

I can have a higher res scan done to meet your specs. Talk soon.

Cheers,

Herb

At this point I was planning on using the digital copy that was sent to me from the FB post, although it's not ideal due to its relative small size. While I wouldn't dream of asking for the original photo (unless it was offered), a higher resolution (300-600 dpi) TIF file would be ideal.

The catalog record would credit both you as "donor" and your father as the likely photographer. Also, while the intent of the photograph is for research purposes, should anyone ask about publishing it, I would defer to you.

Karen

Karen,

Yes, you can use the picture. I don't know who took it and I don't know the exact year. I suspect it was taken by my father, Benjamin Frazier, who passed away in Dec. 21012. I certain he took it because daddy too several pictures of the family and during his travels with the U.S. Navy, and I think I have the camera that he might have used.

Are you proposing to archive the original or the digital copy?

Cheers,

Herb

Dear Mr. Frazier,

Hello. I'm the Archivist/Librarian at Historic Charleston Foundation and one of my coworkers had copied and sent to me a photograph of Emanuel A.M.E. Church from the 1950s that you had posted on your Facebook page. The view would be of interest to HCF's researchers, not only because of the Church but also the two houses to its left on Calhoun Street. I was wondering if you'd allow me to catalog the photograph so that it could be made available to researchers (reference use only). Also, if you would allow it to be included in our Online Catalog, it would be watermarked to prevent others from copying it (the way my coworker did from Facebook ☺).

If so, can you provide me with any details about the photo such as the date (1950s?) and the photographer?

Thank you for your consideration.

Best regards,
Karen Emmons

Hi Winslow,

Do you have an email address for Mr. Frazier at Magnolia? Holland grabbed a photo that he posted on his FB page and I'd like to get his permission to catalog and make it available to researchers.

Thanks,
K
