

HALL AND HALL®

Dedicated to Land and Landowners Since 1946

October 16, 2018

To Winslow Chastie,

As a fellow land enthusiast, I know you share an interest and love for plantations and high quality properties. We recently listed three great landholdings in your neighborhood on Plantersville Road, and while working on the marketing, it became very obvious to us why these plantations on the Pee Dee and Waccamaw Rivers don't change hands very often. The natural beauty here, combined with the provenance and recreational opportunities, is magnificent.

It has been an honor to work alongside Douglas Cuttting and Mark Clement of Bluewing Properties to advise Jamie and Marcia Constance on the 1,000+/- acre Chicora Wood, as well as David and Lois Dwyer on Weymouth's 914+/- acres and their adjacent 547+/- acre Brooks Hill. Both families have a heart for conservation. Take a few minutes to enjoy the videos, produced in the voice of these passionate landowners, which pay tribute to the land and history. Photos, videos, and listing information are available at [www.HallHall.com](http://www.HallHall.com).

A good map can stop us in our tracks and while we saw a number of historic renderings from the days of the King's Grant, we set out to create our own updated plantation map of the Waccamaw Neck area. We thought you would appreciate having a copy to enjoy with your family and guests. If you see edits that should be made on the next edition, please let us know!

We hope you enjoy our gift and please reach out to us if you ever need information about the land market.

Kind regards,

Elliott Davenport, Jr.
