---

Many years ago, I got some good aerial shots from the Citadel archives. But, I always knew that I have not made copies of all of them that were relevant to the nearby neighborhood. So, last week, I went back. The new archivist was very helpful. He had already scanned all of the photos, so he just let me pick the ones I wanted.

Most of them were not very good quality or just showed the actual campus. But, there were a few that captured the nearby areas. They are too large to send in one email, but here is the first one. This first one was taken in 1926. It is a closer version on an image that I already had from many years ago. Since it is a slightly different position in the sky, it does show a few different details, but not many.
