Feel free to use the photo of 30 Mary Street. It was made 1885-1900.

J. D. Murphy probably built the house in 1884. His ad came out early 1885.

City directories show him in occupancy starting in 1886. I have not located a directory for 1885.

His family occupied the house until 1902-3.

I am attaching a photo of John Dilihuntte Murphy (Jr.). You can put this in the 30 Mary File.

If you would like additional data on John D. Murphy, I have a detailed time line on him I will be glad to send.

John Bell

Yes, that's also what I figured, based on the advertisement.

Thank you for the photo! Do you know the approximate date? And, may I add it to our photo collection so any researchers of 30 Mary may refer to it?

Good luck with the "treasure hunt"!!

Karen

Karen - it looks to me that J. D. Murphy used his own home at 30 Mary Street in his advertisement.

See the attached photo.

Again thanks for your email today about other locations for property files.

Hello again,

Here's the attachment I meant to send in the first email.
