Message: I believe the old Sunday school building referenced in the B & W of 47 Wentworth Street is still, for the most part, standing. It appears the "clock/bell tower was removed and windows on each level, including the attic, have been added. Additionally, soffit and fascia has been added but the roof pitch appears the same. I have constructed a composite of two photos if you will tell me where to send this. Thank you and thank you for your interest in history!
