265 1999 Ann Taylor *women's clothing* 1970 thru 1990 Scottie Stores *drug store* 1960 Allen's Shoe Store 1930 thru 1950 W.T. Grant Co. *department store (see 372 King)* 1920 Dr. E. H. Kerrison 1910 S.P. Schiadaressi *This well know fruit store Schiadaressi's not only furnished local housewives with fresh fruits and vegetables daily, but carried parrots as well. One Old Codger who lived on Wentworth Street purchased one and the parrot became a perfect mimic of the voices of members of the household. When Lily Cason was a young girl, visiting her aunt for a summer in the three-story Wentworth Street house, she soon learned to dislike the parrot intensely. Just as Lily was ready to go out the front door, she would hear her aunt calling from the third floor, "Lily, Lily." She would run all the way up to the third floor and there sat the parrot laughing and cackling for making Lily climb the stairs.* 1900 M. Furchgott & Co. *dry goods*

266 1950 Allen's Cut Rate Shoe Store 1940 Eleanor Shop *women's clothing* 1930 The Gross Millinery Co. 1920 S. Girsh & Sons 1910 W.P. Cart Co. *(see 237 King)* 1900 The Parlor Market

267 1999 Ann Taylor 1990 Amy *clothing* 1960 thru 1980 Warner's *clothing* 1940 W.T. Grant Co. *(see 372 King)* 1930 Vacant 1920 Miss J. M. Jervey 1910 Vacant 1900 M.H. Lazarus *(see 254 King)*

268 1980 thru 1990 The Stockpot *cooking utensils* 1900 thru 1970 McIntosh Seed House *The oldest seed house in the city, even into the twentieth century McIntosh Seed House retained it's quaint, country look and unmatched service. Handed down from father to sons, Herbert McIntosh was the owner when the business closed in 1976. The owner himself was usually behind the long wooden counter to help customers with both flower seeds and vegetables and well remembered by many as a gentleman of classic courtesy and manners. Many out-island farmers swore by McIntosh seeds and plants and would have no others. The original old pull-out type seed bins remained in front of the counter and seeds of various types were scooped out and weighed and bagged in the desired quantity. The store also sold plants, long before the prevalence of so many nurseries around the city. It also advertised that it carried canary birds, gold fish, cages and baskets in 1910. It also stocked incubators, brooders and a complete line of poultry foods, remedies and supplies.*

King Street looking north at the turn of the century showing the Commercial House at 264 in lower right corner...note the variety of transportation, the Belgium block paving and the Gibson girl fashions.

AWARDS

from Page 1-E

26 Charleston buildings win Carolopolis Awards

By DAVE MUNDAY
Of The Post and Courier staff

Downtown Charleston is a gallery of history. But the shrouds of time have been peeled back only through countless hours of human labor.

Each year, a few more historic buildings are brought back from neglect and decay, mostly through individual efforts and private resources. Houses that looked ready for the wrecking ball emerge as national treasures.

Many of these architectural artworks bear a black and yellow seal called a Carolopolis Award. The awards are presented each year by the Preservation Society of Charleston, funded by a contribution from J.C. Bradford and Co.

Preservation

Here are this year's winners:

Preservation is sustaining the existing form, integrity and materials of a historic property. Work involves maintenance and repair rather than extensive replacement and new construction.

■ 95 Church St. — The Munsterlyn House was built about 1904 as one of four Victorian wood-frame houses on

the site of an old cotton press. In 1992, Mr. and Mrs. Ernest E. Pava refurbished it and built an addition to the rear.

■ 17 Coming St. — This Greek Revival single house was built about 1840. It was proposed for demolition after Hurricane Hugo in 1989. In 1993, 17 Coming Street Associates bought it and turned it into three apartments. The roof uses slate salvaged from St. Michael's Episcopal Church.

■ 70 Cunningham Ave. — The Magnolia Cemetery Gate House was built about 1849. The roof and interior were destroyed by Hugo. Repairs were paid for by a grant from the S.C. Department of Archives and History.

■ 86 Jonathan Lucas St. — The building that houses the Hollings Cancer Center was built about 1914 as headquarters for the Medical College of the State of South Carolina. The building's principal facade was preserved during the construction of the cancer center in 1992 and 1993.

■ 15 Prioleau St. — This large masonry building was built about 1840 as a warehouse. It had been vacant for many years before being renovated in the 1980s. It was further preserved in 1993 by Mr. and Mrs. Andrew Savage and houses four law offices.

■ 46 Pinckney St. — The Keenan House was built in the Greek Revival style about 1850 and had been unoccupied since Hugo. Mr. and Mrs. Michael Malony restored it in 1993.

■ 19 Short St. — This Greek Revival single house was built around 1875 and has been refurbished twice since 1970, under the former owner, Jimmie Cobbs. It's owned by Peter Hartzell and Beth Harrison.

■ 146 Church St. — St. Philip's Protestant Episcopal Church was built between 1835 and 1838. It was extensively damaged by Hugo and was restored from 1991 to 1994.

■ 171 Ashley Ave. — St. Luke's Chapel at the Medical University of South Carolina was built as a military shed between 1825 and 1832, and MUSC began using it as a chapel in the 1960s. After it was destroyed by Hugo, MUSC raised the money to rebuild it.

■ 28 Warren St. — This modified single house was built about 1890, and asphalt shingles were added in the 1950s. Richard Cone Jr. removed the shingles, restored the exterior woodwork and siding, and built an addition in the rear.

■ 7 Savage St. — This modified single house was built in 1992. Candice Morgan and Philip H. land. The design was inspired by the existing neighborhood streetcape and the unusual triangular lot.

■ 171 East Bay St. — The Blumson Cafe was built in 1993, replacing a suburban-style insurance office built in the mid-1960s. The design is based on a traditional warehouse. The cafe is owned and operated by Tom Parsell.

■ 7 Savage St. — This modified single house was built in 1992. Candice Morgan and Philip H. land. The design was inspired by the existing neighborhood streetcape and the unusual triangular lot.

■ 171 East Bay St. — The Blumson Cafe was built in 1993, replacing a suburban-style insurance office built in the mid-1960s. The design is based on a traditional warehouse. The cafe is owned and operated by Tom Parsell.

■ 7 Savage St. — This modified single house was built in 1992. Candice Morgan and Philip H. land. The design was inspired by the existing neighborhood streetcape and the unusual triangular lot.

■ 171 East Bay St. — The Blumson Cafe was built in 1993, replacing a suburban-style insurance office built in the mid-1960s. The design is based on a traditional warehouse. The cafe is owned and operated by Tom Parsell.

■ 7 Savage St. — This modified single house was built in 1992. Candice Morgan and Philip H. land. The design was inspired by the existing neighborhood streetcape and the unusual triangular lot.

■ 7 Savage St. — This modified single house was built in 1992. Candice Morgan and Philip H. land. The design was inspired by the existing neighborhood streetcape and the unusual triangular lot.

■ 171 East Bay St. — The Blumson Cafe was built in 1993, replacing a suburban-style insurance office built in the mid-1960s. The design is based on a traditional warehouse. The cafe is owned and operated by Tom Parsell.

■ 7 Savage St. — This modified single house was built in 1992. Candice Morgan and Philip H. land. The design was inspired by the existing neighborhood streetcape and the unusual triangular lot.

Restoration

Restoration is removing features that have been added and rebuilding missing features.

■ 71 Anson St. — The Thomas Doughty House was built about 1806. Mr. and Mrs. Warwick Jones restored the roof and masonry.

■ 146 Church St. — St. Philip's Protestant Episcopal Church was built between 1835 and 1838. It was extensively damaged by Hugo and was restored from 1991 to 1994.

Rehabilitation

Rehabilitation is making possible a compatible use of a property through repair, alterations and ad-

ditions while preserving those features that convey its historical, cultural or architectural values.

■ 201 Ashley Ave. — The Ashley Inn was built about 1833 as a single house and was converted into three apartments in the early 1980s. Mr. and Mrs. Bud Allen rehabilitated it for a seven-room inn after Hugo.

■ 14 Jasper St. — This was built about 1860 as a four-room cottage and was used for many years as a funeral home. It was vacant for 12 years before rehabilitation in 1992 by Ian Walker.

■ 509 King St. — The S.A. Pannopoulou Building was built about 1895 for businesses. Christine Homer rehabilitated it after Hugo, including rebuilding the parapet and roof.

■ 542 King St. — The Gidiere Building was built from 1810 to 1817 as a single house and dry-goods store. In 1993, the storefront was made historically appropriate, windows restored, exterior masonry and stucco stabilized, and roof replaced.

■ 17 Lockwood Drive — The West Point Rice Mill Building was built around 1860. It was used as offices by the Charleston Trident Chamber of Commerce until Hugo. It was extensively rehabilitated in 1993.

■ 29 Percy St. — This single house was built in the mid-1800s and was abandoned after Hugo. Mr. and Mrs. Kenneth McDow performed extensive repairs and built an addition in the rear.

■ 207 Rutledge Ave. — This modified single house was built about 1862. It fell into disrepair over the years and was extensively damaged during Hugo. Robert Graves rehabilitated it in 1993. The ground floor houses Tom's Restaurant.

■ 28 Warren St. — This modified single house was built about 1890, and asphalt shingles were added in the 1950s. Richard Cone Jr. removed the shingles, restored the exterior woodwork and siding, and built an addition in the rear.

New construction

New construction must be an asset to a historic neighborhood.

New neighborhoods, gardening tips, decor and more in the Homes section

■ 171 East Bay St. — The Blumson Cafe was built in 1993, replacing a suburban-style insurance office built in the mid-1960s. The design is based on a traditional warehouse. The cafe is owned and operated by Tom Parsell.

■ 7 Savage St. — This modified single house was built in 1992. Candice Morgan and Philip H. land. The design was inspired by the existing neighborhood streetcape and the unusual triangular lot.
