

NG, SEPTEMBER 25, 1919

FOR SALE

At 351 Meeting St., handsome stairway, wood paneling, doors, sash, blinds, mantels, fireplaces, iron fence, flooring, joists, etc.

This magnificent old-time residence is being wrecked to make way for warehouses; it contains the splendid old-time materials such as the house-building public has come to realize cannot be bought in these modern times of kiln-dried lumber with the heart sapped by the turpentine hunters. I will sell the interior finishings of this residence as a whole or in part; if bought as a whole and set up on the Battery or Boulevard, preserving the present fine proportions and architecture, the builder will have a home such as no money can buy today, as these old materials are a thing of the past. Any one desiring to purchase this property can apply to
