We Dedicate This Yearbook to "Uncle Tom" Whitley

The 1972 Conch yearbook staff feels that is appropriate that this year's annual is dedicated to a man who himself dedicated twenty-one years of his life to teaching students at Key West High School.

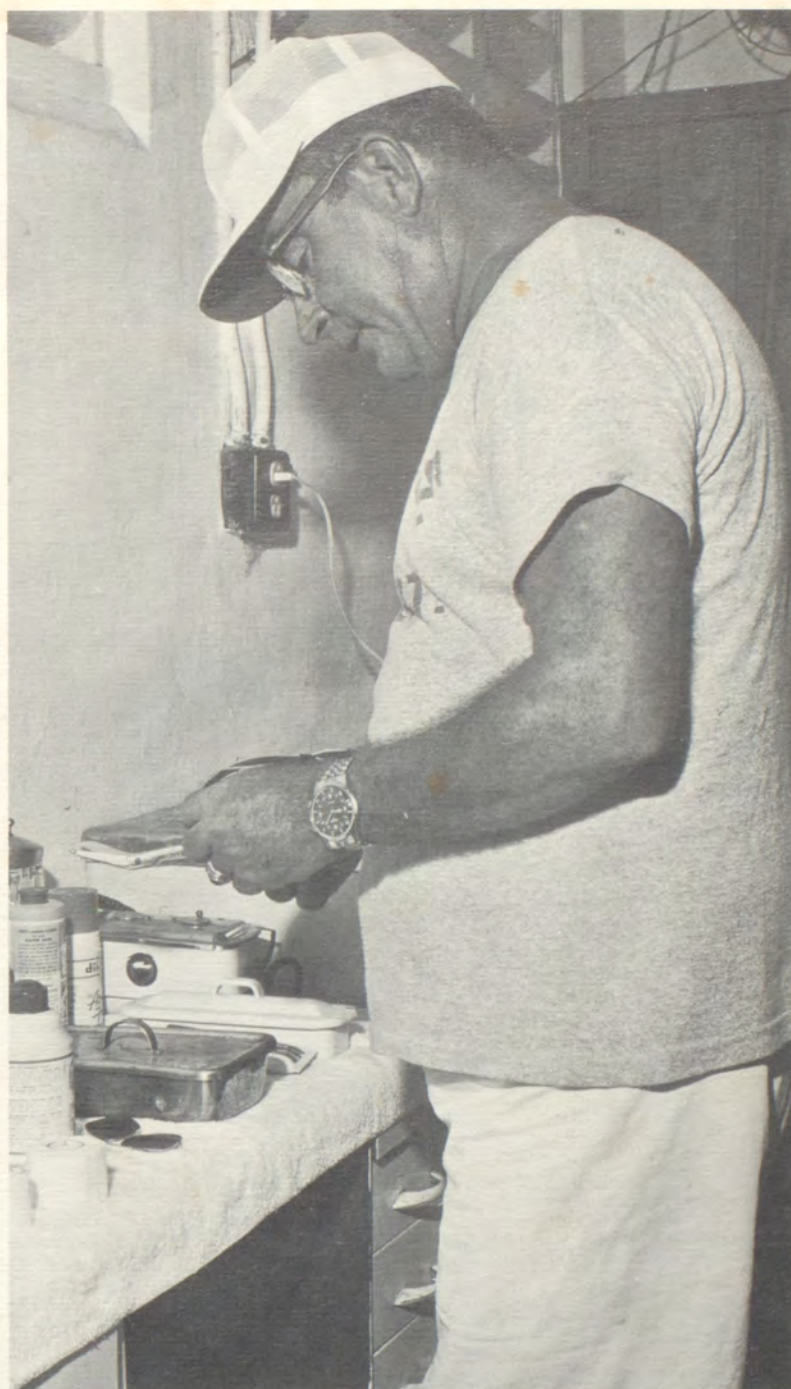

From September 1949 until June of 1971, Mr. Tom Whitley labored long and hard as Choral Director at Key West High. During that period he continually improved the quality of the school's vocal music program and developed the Chorus into one of the outstanding performing groups in the community. He is an outstanding musician, as his choral directing and his playing ability with the clarinet, saxophone and flute will attest.

However, the many students who came in contact with Mr. Whitley probably remember him best as a warm, kind-hearted, dedicated man who was interested in them not just as a musician but as a person. His concern, advice and helping hand earned him the respect and admiration of his students and the affectionate nickname of "Uncle Tom".

Mr. Whitley's service to Key West High went beyond his vocal music education duties. For twenty years he served as the volunteer trainer of the Conch football team, wrapping countless ankles and tending to a multitude of cuts, bruises, and sprains suffered by Conch football players. He displayed the same dedication at this task as he applied to his music education duties.

Mr. Whitley, a native of Ohio but an adopted Conch, retired from teaching at the end of the 1970-71 school year. We will miss the talents, dedication and presence of this 62 year old gentleman at Key West High School.

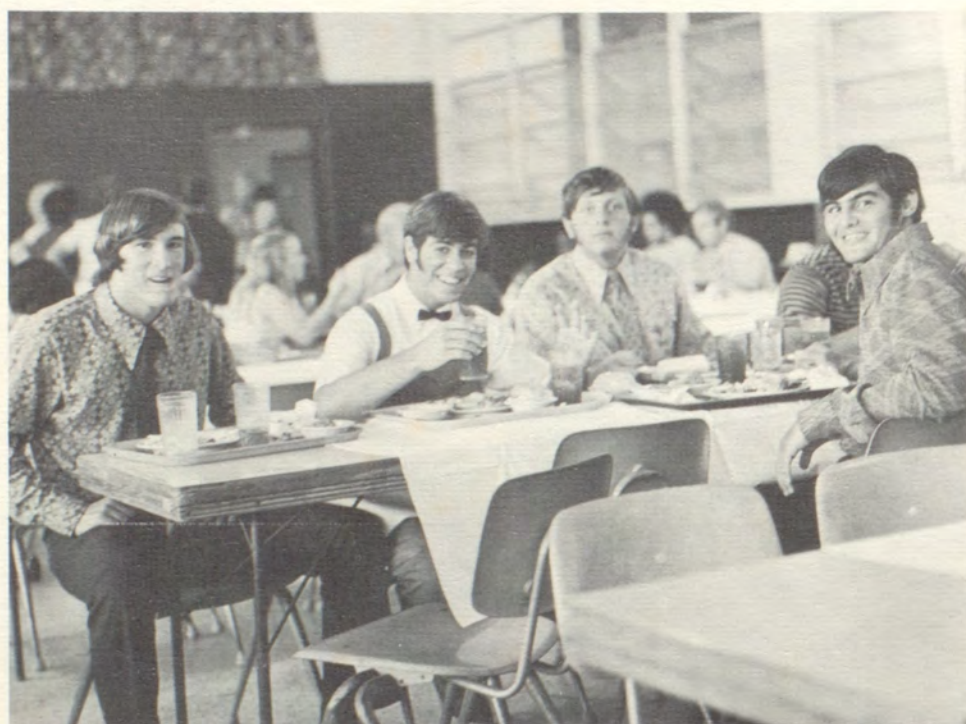

The 1972 Conch staff, through its dedication of this yearbook, says "thank you" to Mr. Tom Whitley who will always be around in spirit and will be remembered everytime the band plays the Key West High School Fight song, which he composed for the school back in 1951.

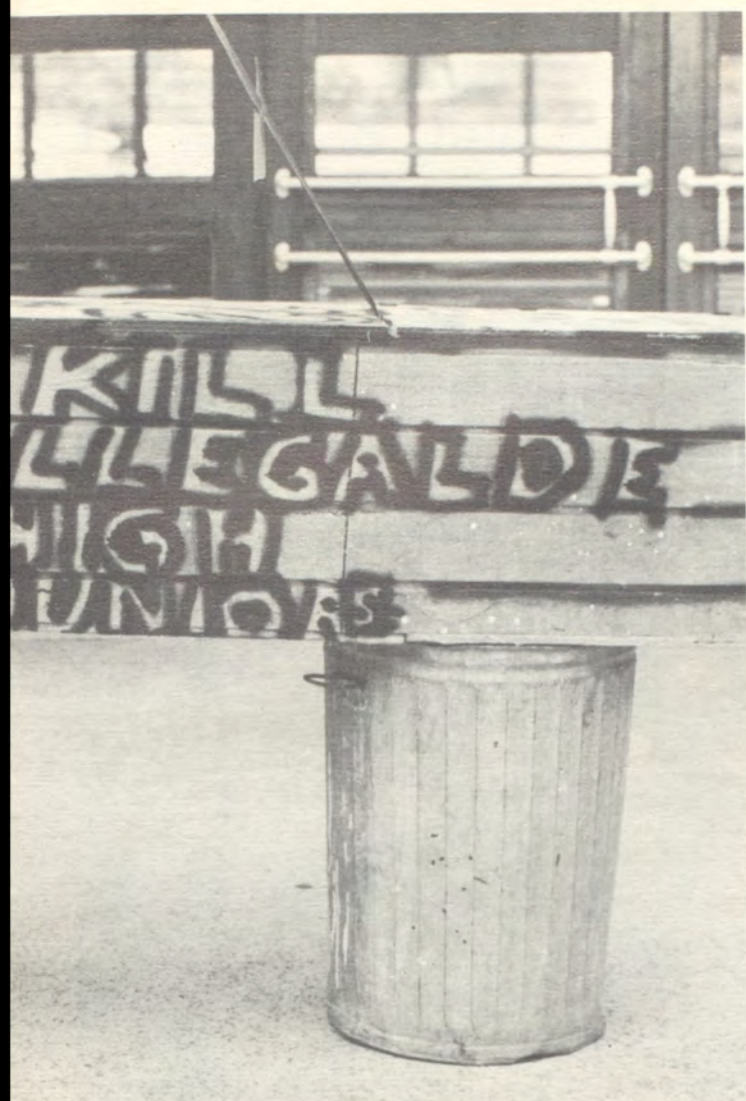

GO PLACIDLY AMID THE NOISE & HASTE, & REMEMBER WHAT PEACE THERE MAY BE IN SILENCE. AS FAR AS POSSIBLE WITHOUT surrender be on good terms with all persons. Speak your truth quietly & clearly; and listen to others, even the dull & ignorant; they too have their story. ☛ Avoid loud & aggressive persons, they are vexations to the spirit. If you compare yourself with others, you may become vain & bitter; for always there will be greater & lesser persons than yourself. Enjoy your achievements as well as your plans. ☛ Keep interested in your own career, however humble; it is a real possession in the changing fortunes of time. Exercise caution in your business affairs; for the world is full of trickery. But let this not blind you to what virtue there is; many persons strive for high ideals; and everywhere life is full of heroism. ☛ Be yourself. Especially, do not feign affection. Neither be cynical about love; for in the face of all aridity & disenchantment it is perennial as the grass. ☛ Take kindly the counsel of the years, gracefully surrendering the things of youth. Nurture strength of spirit to shield you in sudden misfortune. But do not distress yourself with imaginings. Many fears are born of fatigue & loneliness. Beyond a wholesome discipline, be gentle with yourself. ☛ You are a child of the universe, no less than the trees & the stars; you have a right to be here. And whether or not it is clear to you, no doubt the universe is unfolding as it should. ☛ Therefore be at peace with God, whatever you conceive Him to be, and whatever your labors & aspirations, in the noisy confusion of life keep peace with your soul. ☛ With all its sham, drudgery & broken dreams, it is still a beautiful world. Be careful. Strive to be happy. ☛ ☛

Coffin Happenings
Kicked Off
Football Season

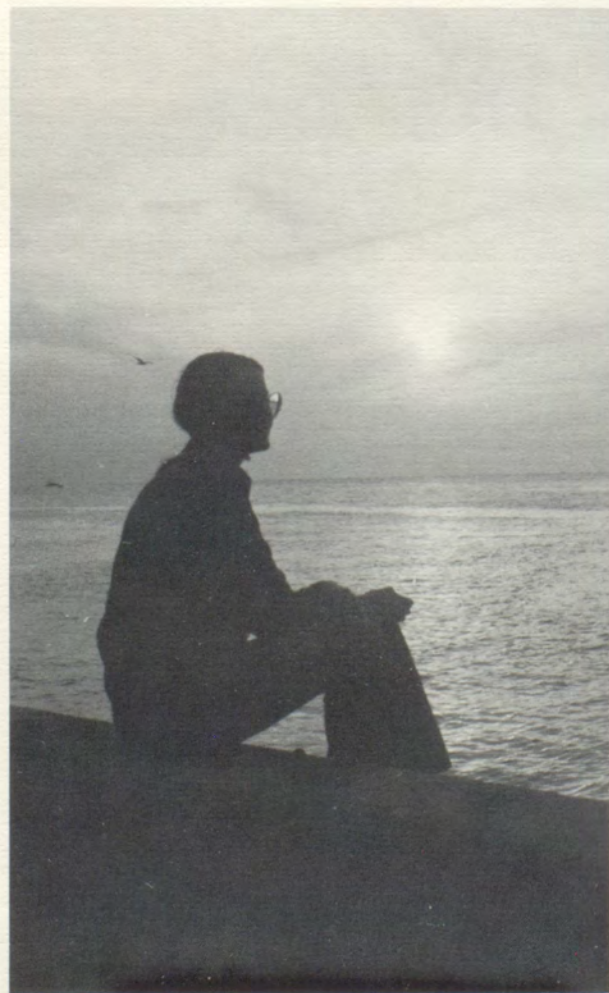

1. The football players started the season with the football banquet while . . .
2. The students started the season with the coffin.
3. The cheerleaders helped to create spirit.

Raija, Our Guest From Finland

Raija Savolainen is from Pori, Finland. She is in Key West as a foreign exchange student and is attending Key West High as a senior this year. The school she attends when in Finland has only 450 students. Raija likes a small student body because she feels that better contacts are made with the students; however, Key West High gives her the opportunity to meet more people, which she enjoys. What she does not like about Key West High is something most of us agree with — the importance of bells and clocks. What Raija likes most is writing and art. Art is the biggest thing in her life; "It is my love and it will be my life." We all hope she is successful and wish her luck. We're glad to have had you at Key West High this year, Raija.

PRINCIPAL

Mr. Glynn R. Archer, Jr.

Mr. Glynn R. Archer, Jr. has many connections with Key West High School. A native Conch, he graduated from high school here in 1954, although then the high school was located on White Street. He received his Master of Education Degree from the University of Florida in 1960 and came back to Key West to teach in the English Department. Of course, we all know that he has served as principal for the last eight years.

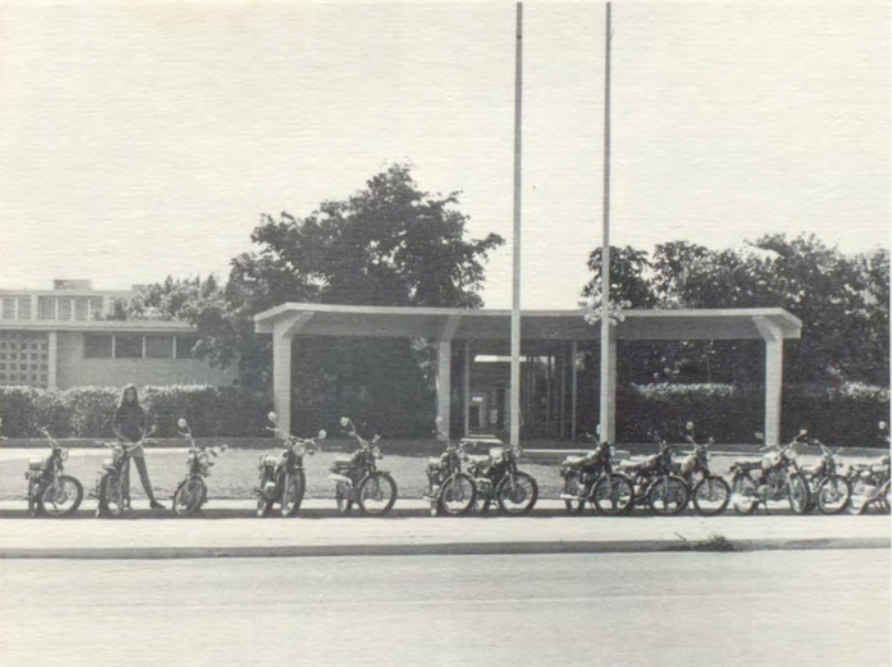

Despite the fact that his work at Key West High and within the school system takes up so much of his time he still has enough time for his family and his various hobbies.

He has a wife, Sandy, and three children, Amber Lynn, Glynn III, and Wesley, ranging from ages six to ten. His hobbies are golf, sportscasting, basketball, and watching the Conch teams and organizations perform.

We feel that we are very fortunate to have such a versatile and effective principal and we hope that he will be with us for many more years.

Courses Mold The Student

"The problem in any curriculum is to find a way to reach all students; a program not geared to the average or academic student or the student planning to work right after graduation, but one that can fill the needs of each individual." (Shelley)

Business Education aids the student who plans a career in accounting or secretarial work.

English, a very important part of every life, helps refine one's speech and literary habits.

Foreign Languages encourage an intimate knowledge of another culture.

Home Economics helps prepare girls for their future married and home lives.

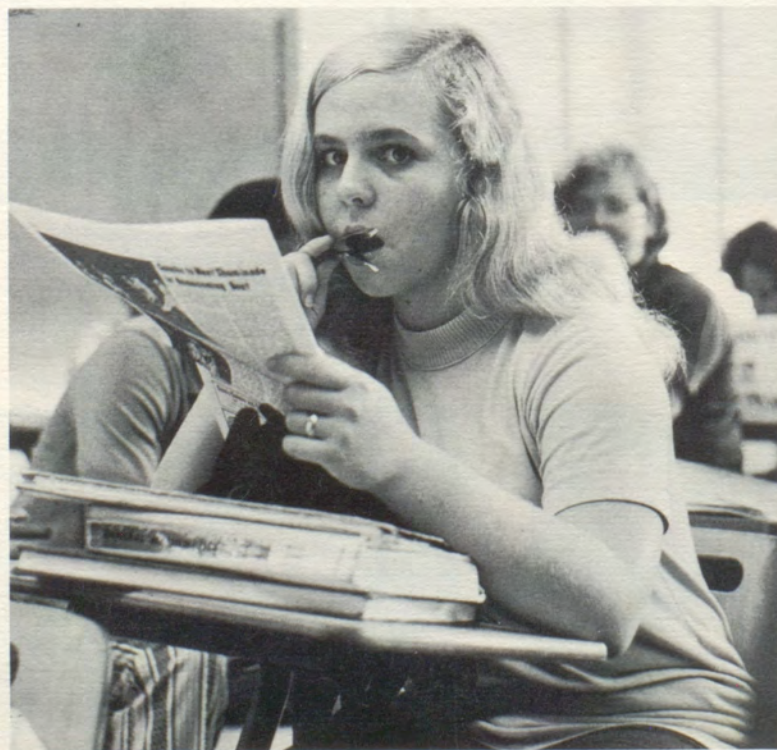

Mathematics develops logical thinking and practical skills.

Physical Education builds muscles and conditions one's body to keep one in good shape and, therefore, in good health.

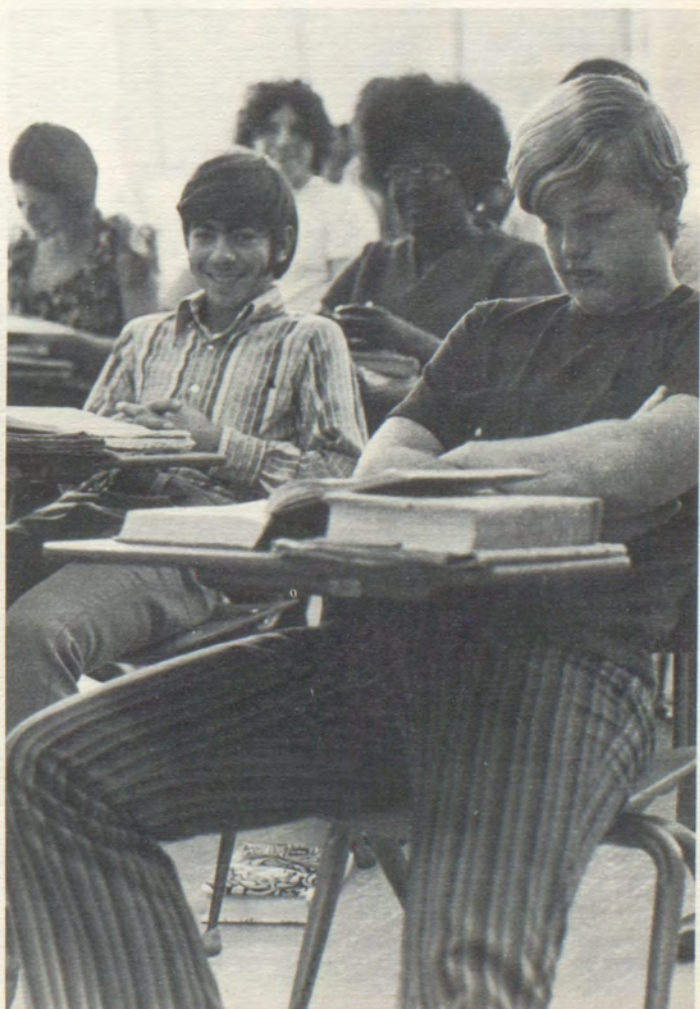

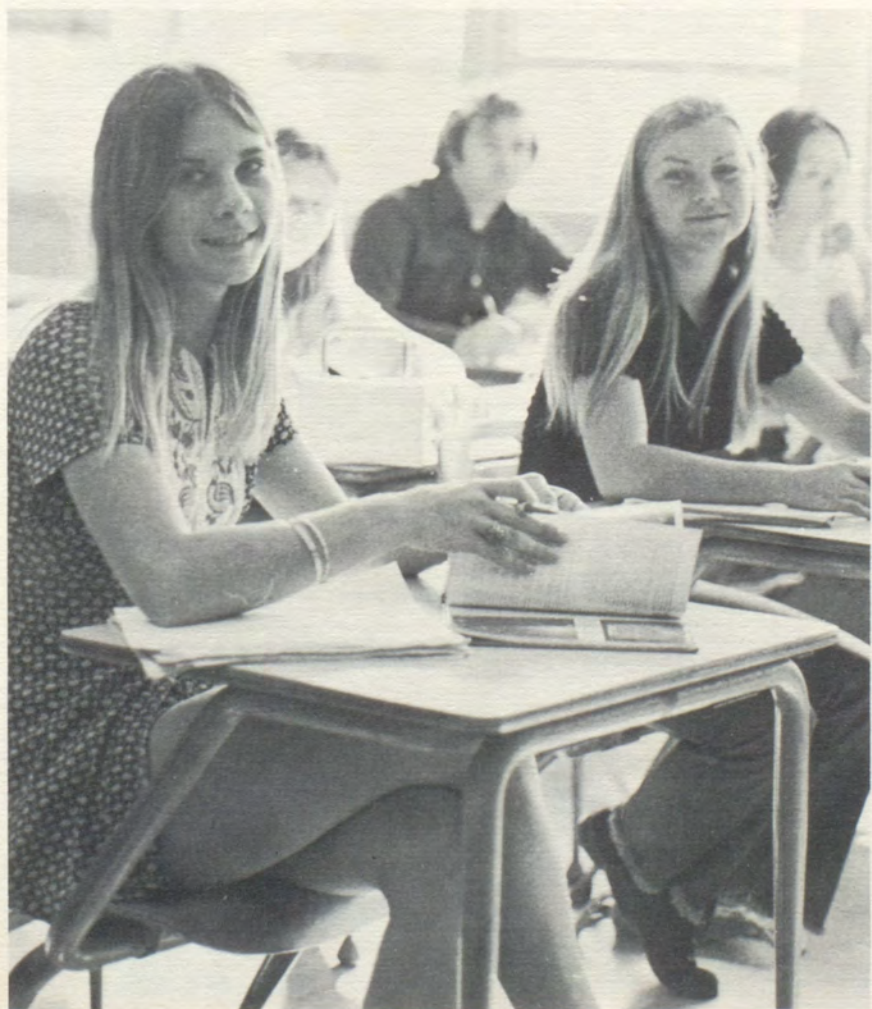

Science provides the student with the ability to better understand and comprehend the fundamental laws of nature.

Social Sciences give a student an understanding of his own and different cultures.

Vocational Education teaches the student the basics of a profession so that he can start his trade as an apprentice.

The Cross-Country Runner

1. Benjamin Poe, Chuck Frazier, Don Lowe, Harry Albury, Ronald Armstrong, Joe Corsi.
2. Coach Wildgoose
3. Benjamin Poe runs for his team.

WHAT NOW?

You know what advertising is all about, right? Every day you're hit with gimmicks, hard sell pitches, jingles and slogans designed to entice you to buy a product. You know what gives your mouth sex appeal. If you've got a lot to live, you know what's got a lot to give, right? By now you've probably decided for yourself whether you want good grammar or good taste.

But maybe you haven't decided at this point just what you're going to do when you graduate from high school — or, if you've decided to go to college, maybe you're still wondering just where to go. And that's where our advertising comes in.

We think we've got a product to sell, too. It's a college surrounded by the sea. Where you don't have to be a genius to get in. Where you don't have to be rich to pay for an education. Where you don't get lost in the crowd.

What do you get? You get more than demand for the skills and knowledge you learn. And a lot more than the money you'll be making. You get freedom. Because anybody who has a skill or a knowledge carries his job around with him. In his hands. And in his head. And freedom is what it's all about.

Maybe you've set your sights on a profession. Being a doctor, or a lawyer, or a teacher or an engineer is where it's at for you. And maybe you just want to get there the quickest and most economical way possible. Okay. More than 65 per cent of all Florida students starting college last year started in a two-year community college. And that's the way it's been for a long time now. There's bound to be a good reason.

Maybe you can see a career — but you can't see four years in college. Okay. You can train for hundreds of jobs in two years, for some in less than two years. And we're talking about exciting jobs. Like pollution control. Like nursing. Like banking, advertising design or computer programming. We're not trying to paint too rosy a picture. That's just the way modern business is. Very exciting, very high-paying. And very tough to get into unless you're trained. Which is where we come in.

So far we haven't talked about the quality of instruction here. Or the adequate facilities. Or the basic and enrichment courses that make up our curriculum. We think you have a right to expect these things from a fully accredited community college.

We are proud of these aspects of our school. Proud of our laboratories in art, biology, chemistry, data processing, electronics, language, marine propulsion, physics, nursing and secretarial sciences. Proud of our air-conditioned, spacious classrooms. Proud of our coconut palms and our Bahama architecture.

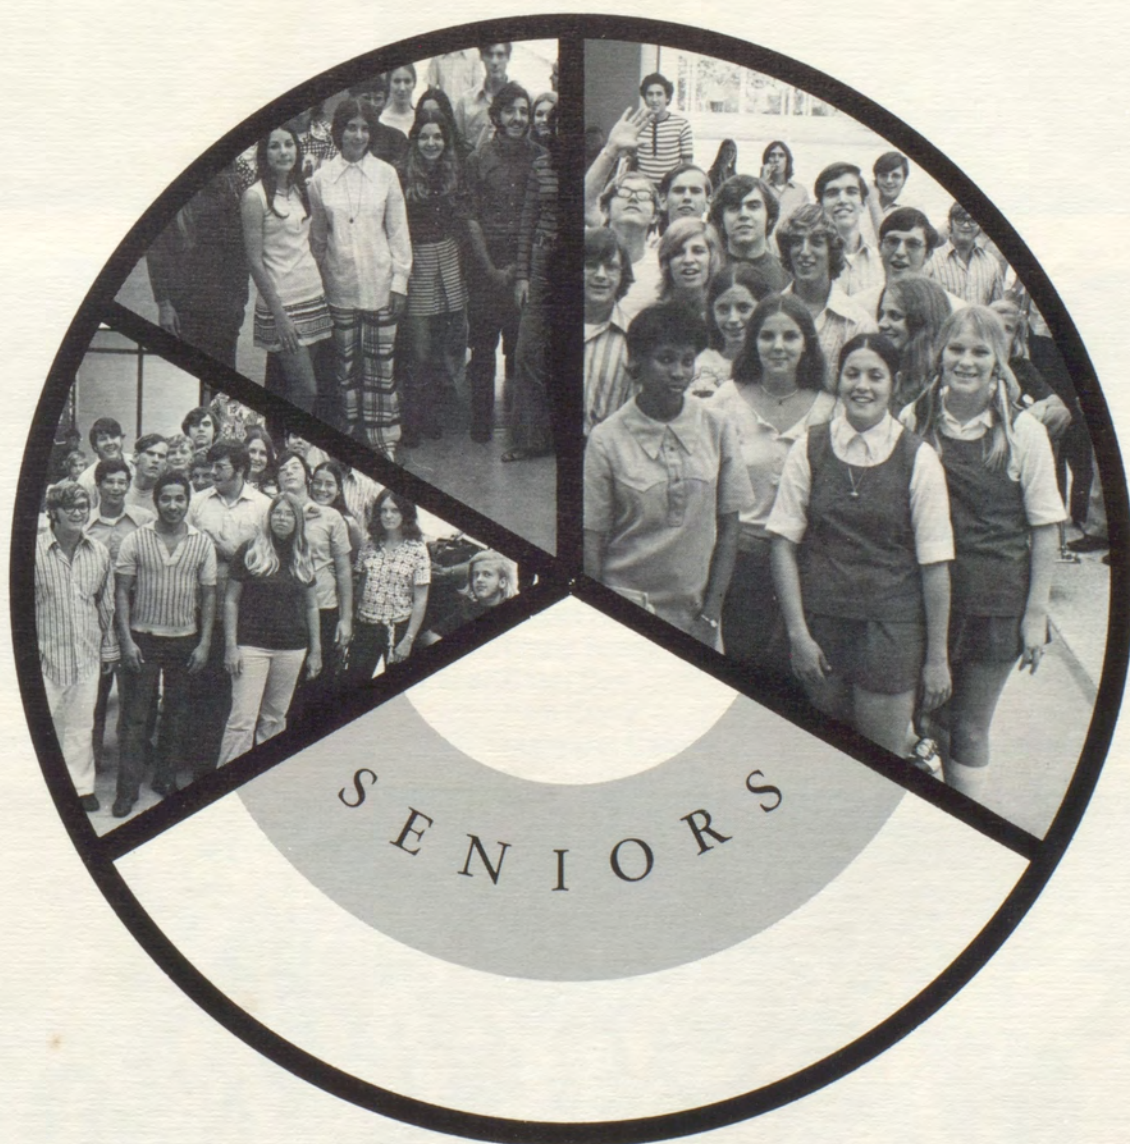

Proud of our instructors who are experts from the occupations themselves, who know the problems and tricks of the trade on the job. And who can teach you what you'll need to know when you get there.

And we're proud of our graduates. That Florida Keys Community College diploma gives all of them one thing in common. A better tomorrow.

If you're interested in any of the ideas we've been talking about, go see your counselor and get the whole story. Or write the Registrar, Florida Keys Community College, Key West, Florida.

Maybe there's a whole lot more in going to school here than you thought.

The Class of 1972

**Survival
of the fittest**

In 1949, when the American car buyer had his choice of cars like the De Soto, the Hudson or the Studebaker, two intrepid souls bought Volkswagens. It turns out they were more farsighted than foolhardy. Because today there aren't many De Sotos, Hudsons or Studebakers around.

But there are quite a few Volkswagens. More than three and a half million at last count.

Seldom has so little come so far.
