SHIPYARD STRIKERS RESUME WORK AT PRESIDENT'S INTERVENTION

(By Associated Press)

Washington Feb. 18.—The President's intervention has terminated the Eastern shipyard strikes. Reports tonight to the shipping board from the Union heads of all the districts in which carpenters are out, said they are out, said that the strikers will resume work tomorrow. William L. Hutcheson, President of the Carpenters and Joiners Brotherhood is expected here tomorrow to take up the situation with government officials. William Blackman, Director of the Emergency Fleet Corporation issued a statement declaring that the shipyard strikes threaten organized labor throughout the country, as a further shortage of ships would force the closing of munitions plants and industries in general. "Shipyard strikers", he said, "in effect, must look out immediately for all the labor in the country."

ATHLETIC CLUB WITH BIG SCORE

The Aviators and the Athletic Club basket ball five meet last night at the Athletic Club at seven thirty. The Aviators were victorious by the score of 53 to 21. They were able to pile up the large score through the efforts and fine playing of Capt Capewell, it appeared that he couldn't miss them last night. The other members of the team also did some fine playing and good goal shooting. Bill Gordon played a fine game at center for the first half and then gave way to Wagner who made a good showing for himself.

While the score was rather one sided the Athletic Club put up a fine fight and made a good showing for themselves. They made the high winded Fellows work for every point. Roberts and Herreck did the shooting work for Athletic club. It was these boys that blocked several plays. Watkins and Kerr should be mentioned for their fine guarding. The game was thoroughly enjoyed by all, and this was evident by the cheering rooting from the crowd.

The next game will be played Thursday night at seven thirty between the Reserves and Athletic Club.

PROMINENT LIBERTY LOAN MAN HERE

R. W. Mattox, representative of the Treasury Department was in the city yesterday in the interest of the coming Third Liberty Loan drive. Mr. Mattox is from Atlanta, Ga. and is field representative of the Sixth Federal Reserve District Loan Committee. He has been assigned to this zone and will make all preparations for the campaign in the Florida East Coast section, which comprises fifteen counties including Monroe County.

Mr. Mattox commended the local committee on the large sale of liberty bonds in the previous campaigns, and says that he expects even a larger purchase for the third drive. He has arranged with the business men and other representative citizens for the purpose of perfecting an organization here that will put Key West on the map with the larger cities of the south in its purchase of Liberty Bonds. He will organize a strong committee after which will begin to thoroughly familiarize the people with the vital issues which the present need for the bonds involves.

THIRD LIBERTY LOAN though it has not been announced definitely will be authorized in April. Word from the Treasury Department in Washington has given no intimation as to the proportions of this loan, but is expected that it will exceed both loans prior to it.

Mr. Mattox is enthusiastic over his conferences here with the business men and their hearty cooperation, and sound judgment in undertaking the great movement. He is confident that Key West will have the greatest number bonds sold in proportion to its population. Further information as to the plans of the drive will be announced later.

AGREEMENT BETWEEN GERMANY AND AUSTRIA

(By Associated Press)

Amsterdam, Feb. 18.—An agreement has been reached between Germany and Austria-Hungary whereby, in the event of military action the German troops confined on the frontier would be sent to greater Russia and Austrian troops to Ukraine only, according to a Vienna dispatch.

INCREASE IN NAVY'S BUILDING PROGRAM

(By Associated Press.)

Washington Feb. 18.—Contracts for number of destroyers in addition to those provided this year in the great building program have been placed by the Navy Department. Secretary Daniels announced that this would be made possible by an unparalleled speed in the shipyards turning out the destroyers. The exact number of destroyers under construction never has been announced but it is known that it runs into the hundreds.

NECESSARY IN- CREASED WAGES ARE CONCEDED

(By Associated Press)

Washington, Feb. 18.—Necessary increased wages for the railroad employees were conceded today by representatives of the majority of the railroads of the United States, when they appeared for the first time before the government's railroad wage commission.

"The official need is evidence the cost of living has increased and that the low paid men need assistance", said J. W. Higgins Secretary of the Western Association of Railways. He declared that all men receiving under one hundred and fifty dollars a month needed more money. All the speakers were careful to state that they made no distinction between the union and unorganized employees.

EMPLOYEES OF A. LOUIS CIGAR CO. ASK FOR INCREASE OF WAGES

As the fire bell sounded its practice call at 11 o'clock yesterday morning it marked the signal for the employees of the A. Louis Cigar Factory to demand an increase in wages. A committee of the employees went to the management at this hour and asked for an increase on the price that unless the management agreed to make the increase asked for, the workmen at this factory would walk out as soon as the material on hand had been worked up.

Up to the hour of going to press there was no agreement made on the terms demanded by the employees.

INCREASED WHEAT AND LIVE STOCK FOR 1918

(By Associated Press)

Washington Feb. 18.—The planting of increased acreage of spring wheat and the production of an increased supply of other food products and live stock, particularly hogs, are urged in the Supplemental Food Production program, issued today by the Department of Agriculture.

The south is urged to provide food for its own people and live stock also, and then to plant as much cotton as can well be cultivated and harvested.

Our best efforts will be required to produce food enough in nineteen hundred and eighteen, whether the war will last or not. The statement says that it is believed that the labor situation can be better surmounted than last year with better discipline and deferred class of skilled farm labor.

"EAST LYNNE" AGAIN TONIGHT

The Edna Park Company with Miss Maude Clifford as Lady Isabelle and Madame Vine played this ever popular play at Parlor Theatre twice yesterday. At both performances they turned away many people.

Miss Clifford wore some of the handsomest gowns ever seen on Key West stage, and played well the most difficult dual role which few actresses care to undertake.

Miss Edna Park, as Barbara Hare of course, was excellent. She could be nothing else. Miss Ivy Bowman was undoubtedly the best Miss Corney ever seen in Key West. Mr. Jack Edwards was a manly Archibald and Mr. Taylor Bennett played Sir Francis Levison so well as to make himself cordially hated. Miss Park's two children Florida and Sammie Junior, in the child parts were excellent.

The S. S. Philadelphia upon which the company is to sail for Port Meyers is still on dry dock in Havana, and will not be here before Wednesday. As so many were turned away at the doors yesterday the Management has decided to play "East Lynn" again tonight to accommodate them.

The sale of seats was opened at the box office last night and many were sold. The chart will be at Waite's store all day today and those wishing seats should secure them early.

NO USE TO MEASE AROUND THE CORNER MONROE IS THE PLACE FOR GOOD ATTRACTIONS

GERMANS ARE PUSHING TROOPS INTO RUSSIA'S LAST TWO PROVINCES

(By Associated Press)

WAR, Feb. 18.—With Russia in the grip of internecine strife, and the battle line denuded of men, Germany has already begun carrying out her threat of invasion. The Teutonic troops have crossed the Dvina, according to a Berlin official report tonight. Reports from Sweden say that the Germans are pushing their troops into Russia's town remaining provinces Esthonia, and Livonia, Belated Petrograd dispatches report the capture of Kieve, the new capital of Ukraine, after sanguinary fighting, with four thousand killed, and another big battle fought at Odessa.

The Polish legions have been beaten by the Russian forces. Operations in France continue minor except for a few duels. The German increased their aerial and bomb dropping expeditions in the American sector.

British casualties for the day are the lowest in months.

STRIPPERS THREATEN STRIKE AT GATO FACTORY

The strippers of the E. H. Gato Cigar Factory walked out on a strike yesterday morning. They have refused to work in demand of higher wage. The increase demanded by the strippers is two and one half cents on every five bunches of tobacco stripped.

The Company offered a rise of one cent but they refused this increase, holding to their former terms of two and one half cents.

In the event that no settlement is made, the refusal of the women workers to return to their barrels will result in the closing of the cigarmakers department after the material on hand is worked up Saturday.

At a late hour last night there was no report that an agreement had been reached.

A LECTURE ON CHRISTIAN SCIENCE

BY

Charles I. Ohrenstein C. S. B.

Member of the Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass.

Introduced by E. Dobarganes who said it was through her perception of the Divine Word, that a little over fifty years ago, Mary Eddy acquired such an understanding of the Scriptures, that enabled her, not only to heal herself but also to cast out evil and to heal the sick precisely as Jesus the Christ commanded his followers to do. Later on she gave to the world the glad tidings of this her revelation in what she called Christian Science, claiming and proving that an understanding of its principles as enunciated in its text-book, Science and Health with Key to the Scriptures would give us the knowledge of the truth which, according to the Master Christian shall make men free.

Following is the Lecture as delivered.

Probably no idea has taken possession of the human mind during recent years like that of the need of preparedness, safety and efficiency; and certain these factors are indispensable to achievement or success of any kind. Every activity is governed by this idea. The school, the playground, the factory, the office—all are arranged with a view to preparing the mind for the future.

What gave Jesus the Christ this supreme preparedness, safety, efficiency? Was it mentality, spirituality, or was it materiality, corporeality? Was it not his Christianity, and was not this Christianity his demonstrable knowledge or Science, that is, Christian Science? Either it was such knowledge or Science or it was its opposite, ignorance, superstition, illusive belief. Let those who will take this view.

The preparedness, safety, efficiency of Jesus were the result

of his demonstrable knowledge of the Science of being which constituted his Christianity. This Christianity was no mere ceremonialism or belief. It was the science of living and of living more abundantly; the science of health of peace; of blessedness; the science that made Jesus the Saviour, deliverer, redeemer; the science which he came to teach mankind. In a word, it was the understanding of God, the supreme power that is all good and always with us.

GOD

Must not we then in order to be Christians, to benefit by this Christianity, gain this understanding of God? Must not we ask who or what is this God of whom Jesus had such intimate, exact knowledge or science?

Going to this master Jew, this master Christian what do we learn God is? Something different from what was in the beginning? Not at all.

It should be remembered that Jesus did not write; he spoke. He spoke to his own people the common people who heard him gladly; and he spoke in their tongue. The only instance preserved to us of what he said in that tongue is in the words which preceded his giving up the "ghost," the mere semblance of life which he said he could lay down and could take up again as he later proved. These words all will remember, were, "Eloi, Eloi, lama sabachthani?" which are translated, "My God, why hast thou forsaken me?" The words, "Eloi, Eloi," which Jesus used, are the Old Testament Hebrew word for what in English is called God. It means strength or power, a meaning which is entirely devoid of anthropomorphism or corporeality. According to Jesus, then, God was his power upon which he always relied, with which he accomplished everything. Nor did he leave us in the dark as to just what this power is. In speaking to his disciples he said, "Call no man your father upon the earth, for one is your Father which is in heaven." In other words there is only one creator or cause, and the universe including man is its product, the product of Eloi, the one and only power.

Again, speaking to the woman at the well, Jesus said, "God is Spirit," which would certainly mean that his power, the only power he ever used, the true cause of all, and consequently the cause of only that which is true, was Spirit or Mind, not matter of any kind or physique. And looking at the teachings of Jesus, looking at his words and at his works—words and works due to, impelled by, emanating from this Eloi or power, Spirit, Mind, or intelligence,—are we not bound to conclude that this power, Spirit, Mind was infinite Love, and that this divine Love was the very life of Jesus which nothing could destroy and which was able to raise him up at the last day? This one power then, this one Spirit Soul, or Mind, this one existence or Life, this one reality or Truth, this one infinite Love, this divine Principle, was all that constituted the Saviour who is the same yesterday, today, and forever, "with whom is no variableness, neither shadow of turning," who is with us always. This is just what Christian Science defines God to be, as will be seen from the following passage: "God is

incorporeal, divine, supreme, infinite Mind, Spirit, Soul, Principle, Life, Truth, Love" (Science and Health, p. 465).

MAN

Not only did Jesus illustrate, not only does Christian Science teach what God is, but in doing this Jesus illustrated and Christian Science teaches what man is.

Does not the father want the son to be like himself, and does not a son want to be like his father? So true is this, that right in the beginning we read that "God created man in his own image male and female created he them." In other words He created them just like Himself. Now, how do we know what man is like? Do we not know it by what he expresses? Was it not the manifestation, the expression of the power, the Mind, the Spirit, the Life, Truth, the Love, which are altogether good, God, that made Jesus the best prepared, the safest, the most efficient, the most able or powerful, the most godlike man that ever lived? Did it not make him so godlike that all Christendom has called him God, worshiped him as God? It has done this, too, notwithstanding the fact that Jesus rebuked the man for calling him, not God, but merely good, saying "There is none good but one, that is, God." He did this because he recognized, as no one else ever has, that even all that he manifested of God did not begin to express, but only indicated the infinite good that is God. This is shown by the fact that he expected not only the emulation of his example by his followers, but more,—"He that believeth on me, the works that I do shall he do also; and greater works than these shall he do; because I go unto my Father," because I illustrate the way, and show, as I do, that the Son can do the works of the Father; but what he sees, the Father do; for what things soever he doeth, these also doeth the Son likewise.

This Teaching Scientific

That this knowledge of God and of man, the knowledge that was taught, illustrated, and demonstrated by Jesus the Christ, is Christian, all will concede. But, it may be asked, is it scientific?

This question can be answered must be answered in one way alone,—that of demonstration or proof. It was so answered when Jesus did his marvelous works; it was so answered when his disciples or students repeated these works; it was so answered when for over two centuries after them their followers, the early Christians, did these works. It is in this way that for the past fifty years it has been answered and is now being answered. It was so answered when Mrs. Eddy, through the Spiritual illumination to her of a Bible text, through the coming to her of the right idea, the true meaning of this text,—was healed; it was so answered when she, through this true sense of the nature, the presence, and the power of God, healed others, and taught them to do likewise. It was so answered when her students through the presentation of her teachings,—given to them in the Christian Science text-book "Science and Health with Key to the Scriptures",—reformed, healed, made the abundance of good manifest for others, and in turn taught them to do likewise. It was so answered when this reformed healed, regenerated, saved multitude established churches and societies of Christ, Scientist, in every part of the habitable globe until it is safe to say that there is no one here who does not know of some one whose life

health, mode of thought, increased usefulness, and freedom from want and woe do not bear witness to this. It has been so answered, and is being so answered here by the fact that this lecture is given to make these facts known; for were it not that some few or many in this community were so benefited, this lecture would not, could not be given, for there would be no one here who would cause it to be given. There is, therefore, abundant proof that this Christianity is Science demonstrated and demonstrated knowledge. Neither do thinking people deny this overwhelming proof. But the question still remains, How is this accomplished?

Unaccustomed as most people are to any expectancy of direct help from God, it may be said that even after the nature of God and of the true man is indicated there is still skepticism as to whether the benefits experienced are due to God, due to the knowledge or science of Him. For this reason those cured by Christian Science are assured that they would have got well anyway, or that they had nothing the matter with them. Again, the favorite explanation is given that the drugs which had been taken perhaps for years and years, without doing any good, had just commenced to work, and so on. If, on the other hand, the case is one of reformation or improved fortune, the assurance is most promptly given that, in the one case, the change would have occurred anyway, in the other, that the individual's luck had changed. In other words, the vague religious beliefs that people have entertained, the vague notions they have had of God, and the wrong sense they have had of man, have made them discredit the idea that a genuine, applicable knowledge of God, or the Science of being, exists or can exist. Yet Jesus said that "with God all things are possible."

Possible to Whom?

All will concede that all things would be possible to one having sufficient life, to one who could live long enough, and who possessed adequate intelligence, power, love, and opportunity for the accomplishment of them. All will concede that such an one would be thoroughly prepared, completely safe, and absolutely efficient. Adam, for example, if he had lived long enough, if he had known enough, and so on, could have accomplished any of the things that have been accomplished since. But he did not, and others have not. Experience consequently has convinced mankind that all are limited in every way,—limited as to life, and so in vitality, energy, endurance; limited in mentality, which means lack of perception, initiative, will; limited in power, and so in capacity and ability; limited in love, consequently in devotion, incentive, impulsion, endeavor, for it is love that is the incentive of all effort and of all achievement; limited in environment, which means opportunity for the employment of capacity, intelligence, will, and so on. Nor is it strange that these limitations are accepted as absolute, final; that they are solid convictions. Are not all taught, and do not all believe that everything is evolved from, is due to, or dependent on matter; that life is organic, physical, inherent in the body; that all the faculties also inhere in it; that intelligence is in the head or brain; strength, power, capacity, in muscles; love in the heart; that environment consists of a material world in which everything

is again due to matter and not to God, the primordial essence or substance of all, in whom we live, and move, and have our being?

Yet every little while some one accomplishes something which experience has shown to be impossible. What happens in such a case? A human need arises and cries until some one is awakened to the recognition of the fact that there is power enough, intelligence enough, love enough to meet it, and that the opportunity to do so is always at hand. It is not the believer in but the disbeliever in present limitations that transcends them, breaks them. The transmission of the force of a Niagara by means of a wire, the transmission of messages, even of the human voice, over continents and oceans without wire, the utilization for flight of heavier-than-air machines, are sufficiently illustrative of this. Is not this all answer to prayer? Is it not all the result of appeal? Appeal to what? Appeal to the one only and last resort; appeal to the only power there is, intelligence, Mind.

Man and Mankind

We have seen what was the power, the Life, the Mind, the whole reality or Truth the Love that animated, enlightened, impelled, capacitated, and enabled the man Jesus. We have seen that it was omnipotence omniscience, God, and that the expression of this made him the godlike and true man that he was.

We have also seen the kind of power, life, mind, spirit, truth and love that are expressed or manifested by mankind or a kind of men. We have seen that this power, life, mind, spirit, truth and love are all believed to inhere in the flesh, matter. Is not this true?

The man whom Jesus presented as spiritual, and spiritually minded, the real man, the man that humanity insists upon as real, the kind that is really no man, is fleshly or carnally minded. Yet Christianity teaches that "to be carnally minded is death; but to be spiritually minded is life and peace." Because the carnal mind is enmity against God: for it is not subject to the law of God, neither indeed can be." To be the one kind of man then, is to be the son of God. To be the other kind of man is to be like those of whom Jesus spoke when he said, "Ye are of your father the devil," and the devil he called "a murderer," that which is destructive, and "a liar," that in which there is no truth.

All Christians have certainly called Jesus their pattern and their guide; and he spoke of himself as "the way, the truth, and the life." All Christians are also instructed, "Let this mind be in you, which was also in Christ Jesus." If this teaching be correct, should not every Christian claim for himself and for others the spiritual power, intelligence, Life, Truth, and Love which constitute the one true good of all, or the one true God, infinite, eternal, indestructible, incapable of impairment, loss, or lack? And should not every one disclaim a limited material power, mind, life, truth, love subject to disease, decay, and death? Can one be a Christian without claiming the former and disclaiming the latter?

The Beginner

Now let us take one who is learning to know this Christ-way, and beginning to walk in it. What effect has this upon him?

He has been believing, like every one else, that he is a material organism with his life, health, strength, intelligence and love all inside of him; that all that he is and all that he has is limited by heredity and environment.

He knows it because he has been experiencing it. Of course he is unprepared for any emergency, feels unsafe, is inefficient. It is not strange if he is discouraged, perhaps sick, dissipated. Now, the unheeded Christ, the spiritual idea of being, the Truth, comes to such a one in Christian Science. He hears, and hears for the first time with this new meaning, that God, who is all this, is all this power; that God is all his God; that God is Life,—his life; that God is Mind, Truth, Love, and that God who is all this is all his God. If he admits this—and slow or fast if he ponders it, he is bound to admit it,—will not everything that is right become more and more possible to him, and will not everything that is wrong become less and less dominant over him, and finally impossible to him? Will he not at once be better prepared for every demand upon him, feel more safe, more efficient than before. If he is fallen, will this not uplift him; if he is sorrowful will this not comfort him; if he is discouraged, will he not encourage him; if he is sick, diseased, not this ease him until it heals him; if he has been a failure cannot he with this Christian, this right idea of being rise to success? Let me say that in thousands of instances this has been demonstrated, and examples are not far to seek. The neighbors, friends, relatives of many of you here can tell you their experiences and I am sure you will find them corroborative of this. Neither should these experiences seem so strange after it has been indicated, as it has, what God is and what man's relationship to God is; and I am sure it does not seem so strange as it did that God should comfort the sorrowing, make the weak strong, heal the

be true and him. Sure, in the temptation to any of you to tell an untruth, or to take something that does not belong to you, this education, not something inherent in your brain or anywhere in your body, would recall to you that you must not do so. I remember that as a very little boy, whenever I touched anything, not mine at table, my mother very quietly said, "Heil!" meaning that taking things not mine would burn me. Throughout all the years that have gone by, when about to touch things not mine without permission, I have heard that word. Is it in my brain? No; it is in my education. We are the children not of flesh and blood, but of our education; much of it, the most important part of it, not obtained in the schools, and it is our education that we constantly express live out.

Now, suppose that we not only learn the letter, but become imbued with the spirit of what has been said, and so learn the truth that the kind of God that has been indicated here, is the only God there is; that only he is man, male and female, who is like this God, the reflection or image and likeness of God; suppose, when we have done this even in the smallest degree, we always ask of this very primary education, What belongs to us, any one of us, as the image and likeness of God? Could we not thus get correct answers? What, for instance, belongs to the reflection of power, infinite power? Do powerlessness, inability, incapacity? What belongs to the reflection of Mind? Do lack of purpose, lack of will, and ig-

(Continued On Next Page.)

A LECTURE ON CHRISTIAN SCIENCE

(Continued from Page 2)

ignorance of what we need to know? What belongs to the reflection of divine Spirit, infinite Truth, Love, Life? Do sensualism, untruthfulness, fear, distrust, aversion, hate, sickness, death? Would not the truth about what man is and what man has be just the opposite of all such claims, and did not Jesus say, "Ye shall know the truth, and the truth shall make you free?"

Suppose that the likeness in a looking glass of any of us here was claimed to be unlike us, to lack something we possess, or to possess something foreign to us, would we admit the claim? If we did, would we be truthful or honest? Would we not be claiming for it something that it did not possess, claiming a distortion rather than a reflection, a fraud and an imposition as our likeness? Can your image and likeness in the glass have something or take something that that you do not have or take? Can man, then, the image and likeness of God be different from God? Can he be unprepared for anything, unsafe, inefficient, helpless; can he take a cold, sickness of any kind, and die? Not unless God is and does these things. How truthful, how honest is one then who claims to be man, meaning man or woman, the image and likeness of God, and also claims to be, to do and to have everything contrary to God? Is he then declaring the truth which alone makes free? Is he obeying the command "Thou shalt not bear false witness" and "Judge not according to the appearance, but judge righteous judgment?"

We all need assurance. All will agree that if God is the Principle, the basic reality of all, claims contrary to Him are not true. Yet these claims, the education of generations upon generations, crowd upon us, clamor for admission at every turn, upon every hand. They assure us at every impact, every contact, that there is danger, danger we cannot, that nothing can ward off; that cold, heat, dry, wet, everything we breathe, drink, eat, touch, smell feel everything we undertake to do, is fraught with danger, danger that we have not sufficient intelligence or power to cope with; that all these things have power over us, we the power over them which God gave us and constantly gives us. We have plenty of assurance, our whole education is the assurance of struggle, of strife, of ultimate defeat, disaster, death.

How like "the gentle rain from heaven" dropping upon the dry earth beneath, comes the opposite assurance that "now are we the sons of God", even though this "doth not yet appear;" that as such we are the reflections of God; that because of this we now have just what God has, all that is good and nothing else; that now is all this available to us through being truthful, honest, through not bearing false witness, not claiming and not taking what does not belong to us as the sons and daughters of God, so heirs of God with Christ; by not entertaining, not appropriating in thought, not expressing in word or deed aught contrary to this new, this higher education.

Thought Processes

If God is the all-enabling power, and God is Mind, the operation of this power must primarily be by way of ideas, thoughts. Who can straighten out his finger or bend it without thought dictating the action? Who can

bend it when thought dictates to hold it straight? Try it. Will the hand not do kind things under the impulsion of loving thoughts; will it not do cruel things under the impulsion of contrary beliefs? Will it not do brave, powerful, steady skillful efficient things under the direction of confident, intelligent guidance, and trembling weak, inefficient things under the impulsion of fear? All have experienced this. Is it not a common saying that one is paralyzed with fear? Do not people die of fear? Does any part of the body not reached by thought do anything or feel any way? If it does, how do you know it without thought?

The schools are beginning to recognize, and in some degree to acknowledge, that in Christian Science a light has come into the world, but they are not able to see that it is all light, and that in it is no darkness at all. Theology is beginning to teach an incorporeal God, but not one who is the Spirit that is all Love, too pure to behold iniquity, evil of any kind, to cause it or to permit it. The healing arts are beginning to teach that mind is at least in part cause, but without recognizing that Mind is God, good, so never the cause of disease and death, but always the cause of restoration, of health, and of life. They call that mind which is but false education, illusion, suggestion, the ultimate cause of sin, sickness, death. But human beliefs that still obscure cannot forever hide the true light which shines and shines unto a perfect day when all shall be illumined by it, and there shall be no darkness, ignorance, illusive suggestion, disease, fear, and so no sin, no disease, no death.

God's Thoughts

"And the angel of his (God's) presence saved them," we read in Isaiah. We are also told that after Jesus had withstood being tempted by the devil, and all should now be able to see that the devil was just what Jesus called him,—"a murderer," that which is destructive, and "a liar" that in which there is no truth.—"angels came and ministered unto him." What does this mean? Does it mean that corporeal beings with wings healed the people spoken of in the Bible, and ministered unto Jesus?

In the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mrs. Eddy, on page 581, we read: "Angels. God's thoughts passing to man; spiritual intuitions, pure and perfect; the inspiration of goodness, purity, and immortality, counteracting all evil, sensuality, and mortality."

Cannot all such angels could and did indeed heal the children of Israel how they could and did minister unto Jesus; how they can heal you and me and everyone and minister to us all? Have not all of you entertained just such angels, time and time again, unawares? Have not pure spiritual intuitions, inspirations of goodness, come to you and to all, and have they not been helpful to you? Where did they come from; from your brain, or from anyone's brain? They came from Mind, the only true Mind, God, to inspire, to enlighten you, to bear you up, and to set you up on high. Have we all been inspired then? Of course we have. Have we always heeded these inspirations? That is the question. It is not uncommon to hear that some one is inspired by malice or hate. Everyone is ready to credit this but let some one be said to be inspired by God, who is infinite power, intelligence, Life, Truth and Love and derision and reviling are sure to be his lot. Is not everyone inspired with Life? If

not, how then does anyone live? Are not all inspired by Mind, Truth, Love? If not, how do you express intelligence, how is it that you are truthful, kind, loving? Does this surprise you? Then let me say that you were inspired before you ever breathed or saw the light of day, and that inspiration is the one essential of existence.

Everyone is most particular as to the air he breathes. No one without absolute necessity would for a moment breathe foul air. Everyone is most particular as to the food he eats, what raiment he puts on, and so forth. How much more particular should all be as to what they are inspired by; for whether the thought that comes to us be good or bad, it is one that comes to us, not one that originates with us, and sooner or later we are bound to express it. Is it pure, beautiful, good, true, the thought of health of life, of immortality, of courage, and of love for all? If so, it comes from the one true source. Bid it welcome; let it abide with you, entertain it, make it your honored and your welcome guest. It comes from God and is the word of God, an angel visitant, sent as of old to heal, to heal, to minister, to save. Is that which clamors for admission a base, sinister, degraded thought, a thought of want, discouragement, hate, fear, anger, sickness, death? Then bar it out, for it will express itself, bear fruit after its kind. How bar it, say you? By recalling and recalling the thoughts, the angels of God and of His Christ, the truths taught in the Bible by Jesus, emphasized, illumined, and made practical by Christian Science, until these shall be an angel legion round about you to guide you, and have charge over you.

How often do we hear the question. How can I help what I think? and the assertion. No one can help what he thinks. We not only can help what we think, but in order to do better, feel better, be better we must help what we think, for as a man "thinketh in his heart, so is he;" and the way that has been indicated, the way that Christian Science teaches, is the only way in which this help can come; the only way under heaven in which men can be saved here, now, anywhere, everywhere from ills of of any and of every kind. It is the only way in which one and all, irrespective of time, place, vocation, circumstances can "in placed and be truly armed and prepared, can have absolute safety and complete efficiency."

A Word About the Discoverer And Founder

What has been said will but dimly indicate the teachings of the ideal, yet most practical and scientific system of ethics and healing discovered in the words and works of our Master by Mrs. Eddy. Through her faithful, loving Christlike leadership Mrs. Eddy founded this system, Christian Science, and advanced it to its present world-wide acceptance. Bringing what she did to the world,—the "pearl of great price" the applicable, demonstrable Christianity of Christ Jesus, which has proved itself such by comforting, reforming and healing the vast majority of those who have honestly, earnestly studied her books,—she has enriched the world beyond all reckoning. Hundreds of thousands of her beneficiaries rejoice in bearing grateful witness to their appreciation of her divine service to them and to all mankind.

As one who had the privilege of visiting her home, let me say that all about Mrs. Eddy was of the very simplest. In her world indeed had a true example of simple living and high thinking. Those who were with her bear loving witness of the fact that she watched, worked, prayed without ceasing and that she did this for all alike. That this untiring consecration has borne fruit—the fruit of purer, happier, healthier, more useful and loving lives—is attested on every hand. The modest fortune that came to Mrs. Eddy through the publication and sale of her written works is by her direction, like her life, being devoted to the promulgation of high teaching; to the establishment of "on earth peace, good will toward men;" to the establishment of the kingdom of God on earth, in which there can be no sorrow no pain, no death.

Mrs. Eddy was at times reviled, but she reviled not again. So unminful of the world was she and so mindful of God that his thoughts, messages that came and do come with healing and with blessings in their wings, were always her thoughts. Her one prayer was to be God's faithful messenger. The answer to this prayer was certainly vouchsafed to her. Mary Baker Eddy founded a world-wide religion, a religion that is Science, a Science that is Christian and that both heals and saves. In doing this she has risen to her rightful place in divine Love—Love that is reflected by the constantly increasing esteem of the world, and the grateful appreciation of hundreds of thousands of her beneficiaries.

"I pledge allegiance to my
Flag and to the Republic for
which it stands; one Nation in-
divisible, with Liberty and Jus-
tice to all"

TU DAY FEB. 19 1918

Maryland has taken a seat on
the water wagon. Soon old
Booze will not have any territi-
ory he can call his own.

The Democratic State Com-
mittee are about to meet in Jack-
sonville. Look for some new

"SUBMARINES OR NO SUBMARINES?"

and striking doctrines to be ex-
pounded.

Now Russia threatens to get
in the game again. The bear
is awakening to the fact that
he is caught in a trap. He will
hardly be able to do more than
growl.

The St. Augustine Record says
that city grows more like Lon-
don daily—more bums (bombs)
dropping in. We have a few
they are welcome to if they
think they will increase the
standing of city.

Miami is doing its best to get

rid of vice. According to the
Metropolis the police are taking
energetic steps to get rid of the
bootleggers and the women of
the street walking variety.
May success meet their efforts.
Key West is reasonably free
from these two evils.

RESOURCES OVER ONE MILLION DOLLARS

The death of Vernon Castle
comes as a distinct shock to all
America. He had a world wide
reputation as a dancer and his
entry into the war as an aviator
was a surprise to the dancing
world and amusement seeking
public. He made over one hun-
dred fifty flights above the
German lines but met his death
on a peaceful aviation field in
Texas.

Among the interesting books
of the season issued as a guide
to travelers is a neat brochure
entitled "What to See in Cuba".
It was written by Miss Marga-
ret White, society editor of the
Key West Journal. It contains
in briefly presented form many
facts of interest concerning the
islands to the south of us, and
numerous photographs of
scenes, buildings and persons
that serve to bring more vivid-

ly to the mind's eye the attrac-
tions and the progress of the
tropical republic and the brains
directing its affairs. The book
reflects the ability and the en-
terprise of the author.—Palm

SATURDAY

Dance at Aronovitz Hall beginning 8:30 o'clock.

The editor of this page is out of the city and all those having items of interest will please phone them to 85.

This poem was recited at a patriotic meeting by a representative from Florida and is said to have been written by a young man of Bowling Green, Ky. now serving with the American army in France.

Here's to the Blue of the wind-swept North,
When we meet on the fields of France,
May the Spirit of Grant be over them all,
When the Sons of the North advance.

Here's to the Gray of the sun-kissed South,
When we meet on the fields of France;
May the Spirit of Lee be over them all,
When the Sons of the South advance.

Here's to the Blue and the Gray as one,
When they meet on the fields of France;
May the Spirit of God be over them all,
When the Sons of our Flag advance.

PERSONAL MENTION

Felipe Carbonell was among the arrivals last night from Tampa where he has been the past two weeks on a business and pleasure trip.

Mr. and Mrs. Virgil Cordoro were among the arrivals last night from Tampa where they have been the past few weeks on a visit.

Mr. and Mrs. Virgil Cordoro state that the Kindergarten will open immediately.

Ashby Nelson one of the Key West boys that left for Camp Jackson is back home spending a few days with friends and relatives.

Johnnie Spencer chief Bandman at Camp Jackson was among the arrivals last night to spend a few weeks in the City with relatives. Johnnie was one of the selective service boys who left here some time ago.

M. J. Bloom one of the leading tobacco manufacturers of Chicago was one of the arrivals last night from Tampa to spend a few weeks visit in the City. Mr. Bloom is registered at the Over Sea Hotel.

Mr. and Mrs. Roberts were among the departures last night for Tampa where they will make their future home.

Louis Wolfson, prominent merchant of Miami was among the arrivals yesterday to spend a few days in the city. Mr. Wolfson was formerly of the city but is now making his home in Miami.

Mervin Richardson was among the departures yesterday morning for Camp Jackson after a few days vacation in the City with relatives and friends.

Mrs. Wm. Weast of Philadelphia arrived on the Mallory S. S. Alamo Sunday on a visit to her Nephew and Neice John W. Hattrick and wife on Duval St.

Mr. Marvin Hickerson who has been at the Key West Drug Company, has resigned his position with the firm and has gone on the road for a well known wholesale drug company. Mr. Hickerson's territory will be in the Carolinas. He left last night over the F. E. C.

Dr. Francis M. Sack the American Vice Consul at Havana left last night with his bride for Havana.

Captain and Mrs. Edward Myers returned last night from Tampa where they have for the past few days. Captain Myers has been attending the Shriners Convention that met in that city.

John Watkins arrived last night from Marathon where he has been the past few days on business.

Mr. Charles I. Ohrenstein delivered a lecture on Christian Science Church last night. He left for Tampa at the close of the address. The lecture appears in this issue.

Tampa's Beauty Spots By Electric Company

In a series of splendid and well-chosen photographs Goodlett Webb, traffic manager of the Tampa Electric Company has presented to the public in

general and the tourists in particular a statement of the places of beauty in and about Tampa with information concerning the manner of reaching them.

Among these photographs, which are beautifully mounted in an easel, are points of interest served by the street cars of the electric company, among others, being views of Ballast Point, with the park, pier and board board walk, views of Sulphur Springs with the swimming. —Tampa Tribune.

CARD PARTY AT LAGELAND

Mrs. A. B. Mikell and Mrs. Houston Wall motored to Lakeland Thursday where they were the guests of honor at a delightful valentine bridge party given at that place by Miss Mary Groover. This affair was delightful in every manner and was enjoyed by four tables of players. The decorations were all in the valentine idea, hearts, cupids and other valentine fancies being used.

The prizes were awarded to Mrs. Fuller and Mrs. Skipper. Miss Groover presented each of the honor guests with a pair of silk hose. At the conclusion of the games the refreshments which consisted of salad and ice course were served. The party was very greatly enjoyed by all Mrs. Mikell and Mrs. Wall returned to this city Thursday evening. —Tampa Tribune.

MISS NEIBERT'S CLASSES ACTIVE IN FOOD CONSERVATION

The members of Miss Neibert's Food Study Class, who meet every Friday morning in the interest of adopting new uses of food substitutes are accomplishing great results in food conservation. They have become particularly enthusiastic over the new substitutes for the foods so greatly needed by the Allies. Their work will in all probability place Key West at the head of those cities listed among the food saving and war-winning communities. Among the important recipes demonstrated by Miss Neibert, last Friday were:

Sweet-Potato Bread
(Enough for 2 large loaves)
6 c. sifted flour (more if flour is soft).
2 c. mashed sweet potato.
1-2 c. lukewarm water. (This will not be required if liquid yeast is used.)
1 cake yeast, dry or compressed, or 1-2 c. liquid yeast.
1 tsp. sugar.
1 tsp. salt.
2 tsp. shortening, if desired.
Cooked Irish potato cooked or baked dasheen, or any cooked cereal may be used in place of the sweet potato.

Oatmeal Bread

is delicious with all meals, try it
1 cup milk or water. 2 1-2 cups wheat flour.
1 teaspoon salt. 1-3 yeast cake.
1 cup rolled oats.

Scald the liquid add salt and pour over the oats cool half an hour, add the yeast mixed with 1-4 cup lukewarm water, and the flour. Knead and let rise until the size is doubled. Bake in a moderate oven for 50 minutes. Makes one loaf weighing 1 1-4 pounds.

SPICED OATMEAL CAKES

The whole family will like these and they are easily made
1-2 cup flour. 1-4 teaspoon soda. 1-2 cup cooked oatmeal. 1-2 teaspoon baking powder. 1-4 cup sugar. 1-2 teaspoon cinnamon. 1-4 cup raisins. 3 tablespoons fat. 1-4 cup molasses.
Heat the molasses and fat to boiling. Mix with all the other materials. Bake in muffin pans for 30 minutes. This makes 12 cakes.

KEEP LIVER ACTIVE AND BOWELS CLEAN WITH "CASCARETS"

Best when bilious sick headachy constipated or for bad breath or sour stomach

Be cheerful! Clean up inside to night and feel fine. Take Cascarets to live your liver and clean the bowels and stop headaches, an bad cold, biliousness, offensive breath, coated tongue, sallowness, sour stomach and gases. To-night take Cascarets and enjoy the nicest gentlest liver and bowel cleansing you ever experienced. Wake up feeling grand—Everybody's doing it. Cascarets best laxative for children also.

When in need of glazed glass and furniture repairer see Charles at 123 Margaret Street. Also one show case for sale Phone 422.

LUCIGNANT'S

WHY SUFFER SO

Why suffer from a bad back, from sharp, shooting twinges, headaches, dizziness and distressing urinary ills? Key West people recommend Doan's Kidney Pills. Could you ask for stronger proof of merit?

Mrs. Ida B. Atwell, 904 William St., Key West, says: "For a long time I suffered dreadfully with my kidneys. My body bloated and caused me to suffer beyond power of description. I thought I would never get well. I tried many things without relief. Many times, I would have to go to bed and remain there for a few days at a time. Spots and flashes of light appeared before my eyes, blurring my sight and then dizzy spells would come over me. I was thoroughly discouraged when I was advised to try Doan's Kidney Pills. The first few doses of Doan's me wonderful relief and before long I was cured of all this trouble and restores to good health again."

**MEETING THE ENEMY AT CLOSE
QUARTERS IS REAL EXCITEMENT**

A veteran sergeant showing 'em how.

Meeting the foe at close quarters with the bayonet is perhaps the most critical incident in the life of the present-day soldier and he must be well prepared for it. Bayonet work is given every attention and study in the camps today. The picture shows a veteran sergeant, who knows more about it than mere theory, showing recruits the most effective jab.

**EARTHQUAKE
IN CHINA**

(By Associated Press)
Amoy China Feb. 16.—A severe earthquake here today destroyed many buildings and damaged scores of others. No fatalities are reported as yet.

**CLEANSSES YOUR HAIR
MAKES IT BEAUTIFUL
THICK, GLOSSY, WAVY**

Try this! All dandruff disappears and hair stops coming out.

Surely try a "Danderine Hair Cleanse" if you wish to immediately double the beauty of your hair. Just moisten a cloth with Danderine and draw it carefully through your hair, taking one small strand at a time this will cleanse the hair of dust, dirt or any excessive oil—in a few minutes you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance.

Besides beautifying the hair, one application of Danderine dissolves every particle of dandruff; invigorates the scalp, stopping itching and falling hair.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful.

You can surely have pretty, soft, lustrous hair, and lots of it, if you will spend a few cents for a small bottle of Knowlton's Danderine at any drug store or toilet counter and try it as directed.

CARD OF THANKS

I wish to thank the friends who assisted me with their many kindnesses in the illness and death of my wife. And I wish to express my deepest appreciation to Mr. Ed. Gato and the employees of the Gato Cigar Factory for their help at that time.

POLITICAL ANNOUNCEMENTS

Key West, Fla. Jan. 23rd 1918
I wish to take this means of announcing to the people of the 24th Senatorial District, that I will be a candidate at the Democratic Primary for the position of State Senator. It will be my pleasure to set forth more at length my record in the Senate and House of Representatives. I expect to communicate with the voters, by letter, in the public press and in the campaign book. I take this means of thanking the voters for their vote and support.

Respectfully,
WILLIAM H. MALONE.

To the Democratic Electors of
Monroe County

I hereby announce my candidacy for the position of Representative from Monroe County in the House of Representatives at the next Primary election. It is rather early to set forth a Platform in full, but if I am elected, I shall do my utmost to amend the present Fish law that is bearing down so heavily upon our people. I regard this law as an unwarranted restriction upon the natural rights of the citizens of Monroe County. The idea of making a man pay a license to catch food fish for a living is more than distasteful to me. This law should never have been passed.

The automobile license law should be amended to be more in accordance with the natural privileges of the people.

What license is paid should go to the County. The amount of this license is out of all proportion and there is no rhyme or reason why it should be so high. A glance at the license tax law passed by the last Legislature leads one to believe that the legislators had gone tax mad, because they have taxed the people almost off the face of the earth. I am against the principal of high occupational taxes. Let the burden of taxation rest where it belongs, to-wit: Upon money and property. If I am elected I will attempt to have the amount of occupational taxes reduced.

At the right time, I will set forth my platform and trust that the people will keep my candidacy in mind.
Respectfully,
J. F. BBUSTO.

To My Fellow Citizens:

I wish to formally announce my candidacy for the office of Representative from Monroe County in the coming democratic primary and solicit the support of all classes in this behalf.

I am for various reasons more than anxious to serve my County in this particular field of public service chief among which are the following:

(1) Because of my former experience I feel that I will be able to command an influence in the halls of the legislature that will guarantee for Monroe County a substantial representation.

(2) I desire to go back to the legislature and work for the passage and repeal of certain laws the pleasure of which was denied me during the last session on account of my unfortunate illness at that time.

(3) Because I feel it to be my duty to work for the repeal of the law which exempted the the Florida East Coast Railway Company from taxation unless the company carries out their part of the bargain which induced the people of this county to make this generous concession.

(4) I will enter more in detail my views on legislation as the campaign progresses and will be glad to discuss with anyone any legislation which they may be interested in for the betterment of the community and the State of Florida.

I know of no greater honor that I could wish for than to be one of our representatives in the next legislature and solicit

the support of all to that end.
Sincerely and Gratefully
ARTHUR GOMEZ

Key West, Fla., Jan. 23, 1918.

I wish to take this means of announcing to the people of Monroe county, that I will be a candidate at the Democratic Primary for the office of Representative. It will be a pleasure to set forth my record as a member of the City Council during my two terms in office, and take this means of thanking you for your vote and support. J. FRANK ROBERTS.

NOTICE OF BOND SALE

The Board of County Commissioners of Monroe County, Florida, will receive bids for the purchase of One Hundred Thousand Dollars, of Bonds to be in denomination of the thousands and dollars each, to bear interest at the rate five per cent per annum, coupons payable semi-annually the principal payable thirty years (from date of bond). The Bond issue has been authorized by an election and validated by decree of Circuit Court. The County has only forty-six thousand dollars of bonds outstanding at present. (Assessed valuation of taxable property of Monroe County is \$4,996,820.00.

Any and all bids may be rejected if the County Commissioners deem it for the best interest of the County. Address all bids to D. Z. Filer, Clerk, Key West. All bids must be submitted not later than 7:30 P. M. March 7th 1918. (

The County Commissioners require all bidders for the said bonds to accompany said bid with certificate check for the sum of five percent of the amount of the bid, payable to the Board of County Commissioners Monroe County, Fla. (The said check will be returned in case the bid is rejected. If accepted the amount will be applied on account of the payment of the amount of the bid for the bonds D. Z. FILER, Clerk Board County Commissioners Monroe County Fla. Key West Fla. February 1, 1918.

LADY WELLESLEY RESTS IN FLORIDA

Lady Wellesley out for a dip at Palm Beach.

Lady Wellesley, wife of Lord George Wellesley of the Royal flying corps, has been resting at Palm Beach, Florida, during her American stay. Lord Wellesley is the grandson of the Duke of Wellington, hero of Waterloo, and announced at the time of his marriage that he would become an American citizen at the close of the war. Lady Wellesley was formerly the wife of Lord Richard Wellesley, the older brother of her present husband, who was killed in the fighting in France.
