memories ... light the corners of my mind.

misty water color memories, of the way we were.

scattered pictures of the smiles we left behind,

smiles we gave to one another, for the way we were.

can it be that it was all so simple then

an

or has time rewritten every line?

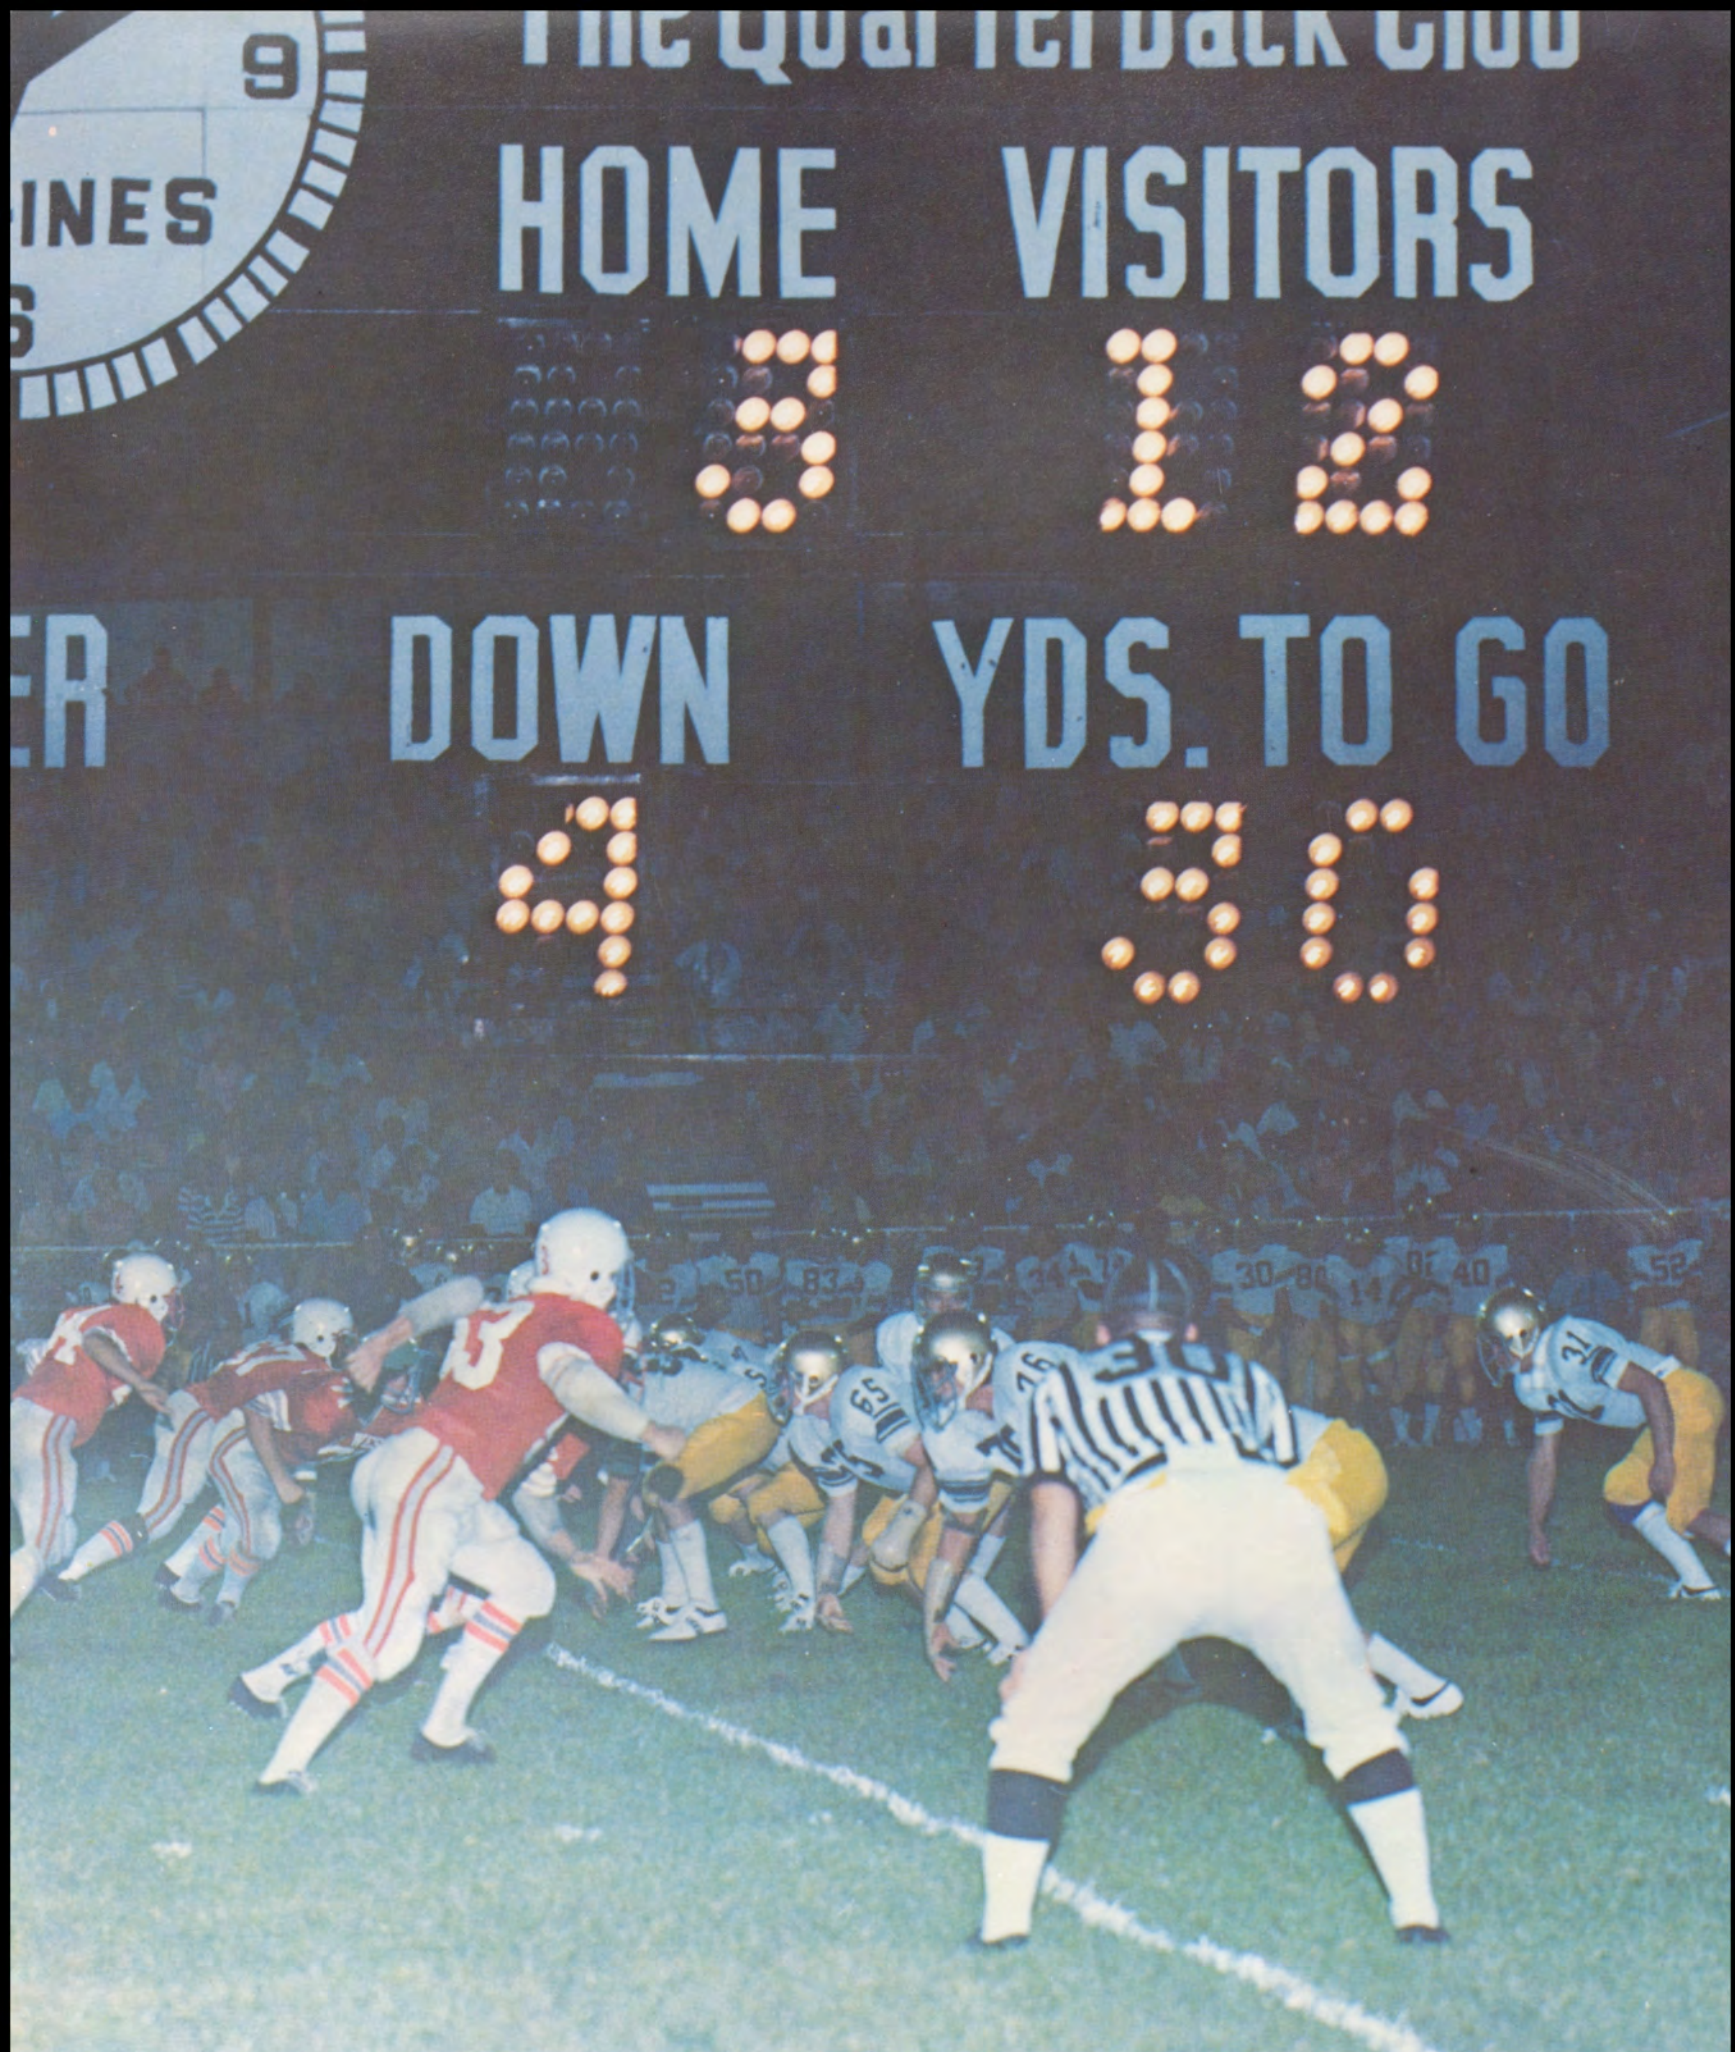

if we had the chance to do it all again

tell me would we ... could we?

memories may be beautiful and yet

what's too painful to remember, we simply choose to forget.

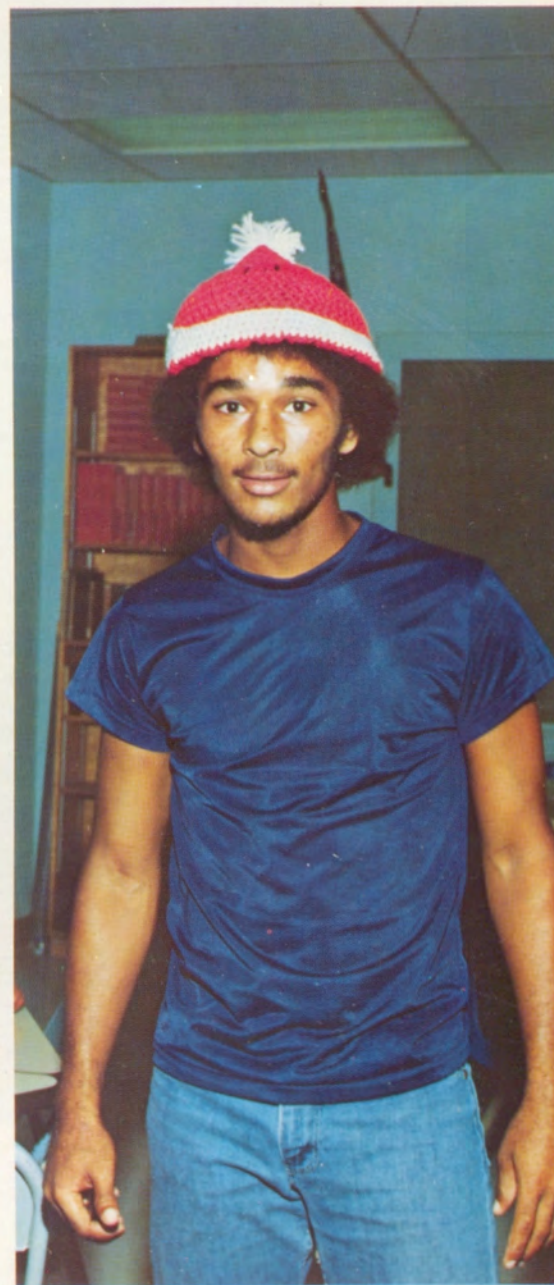

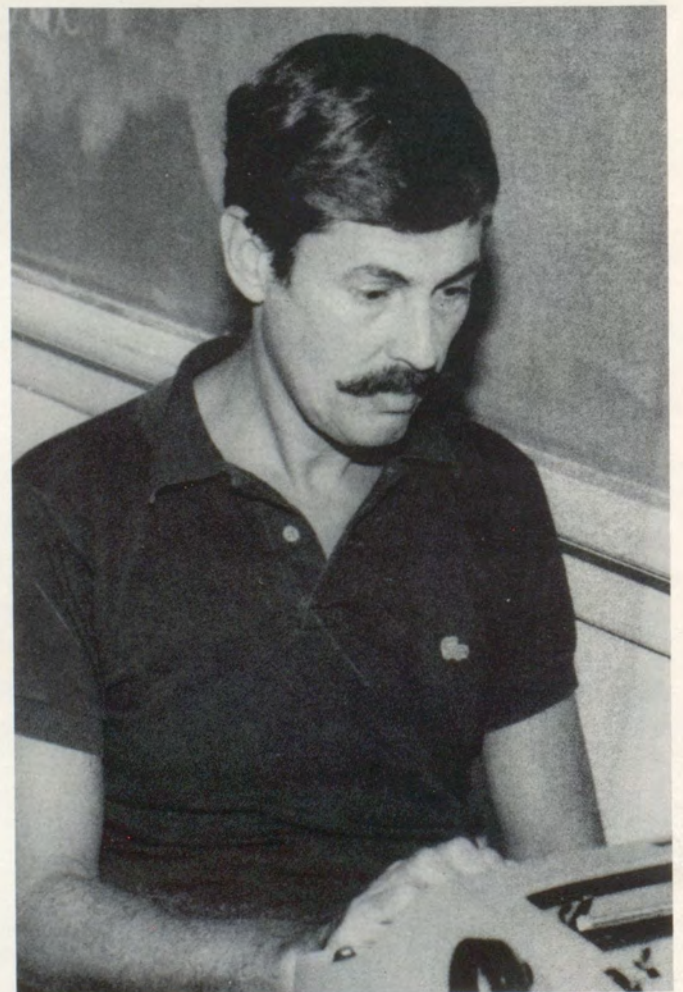

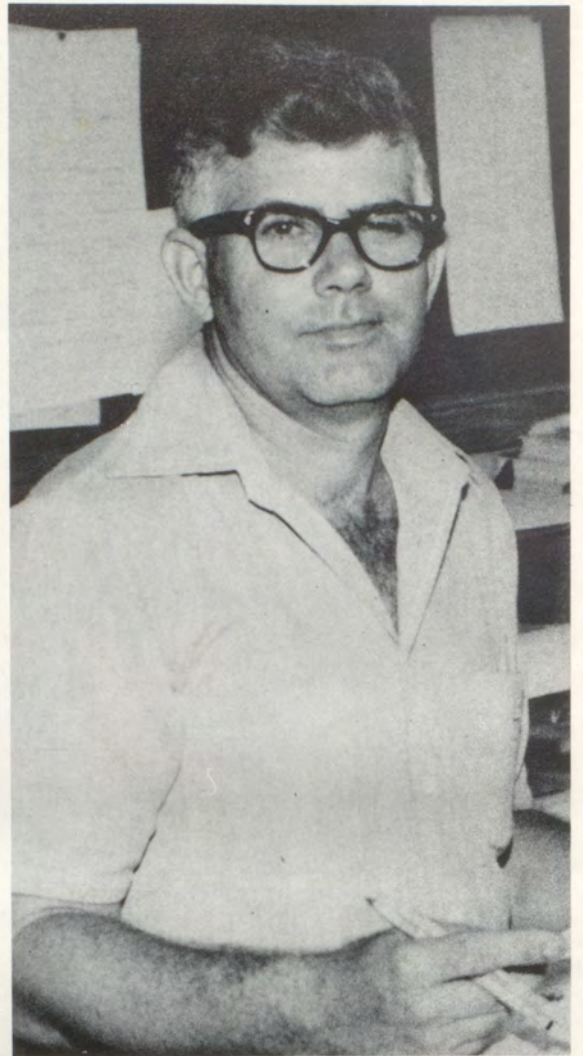

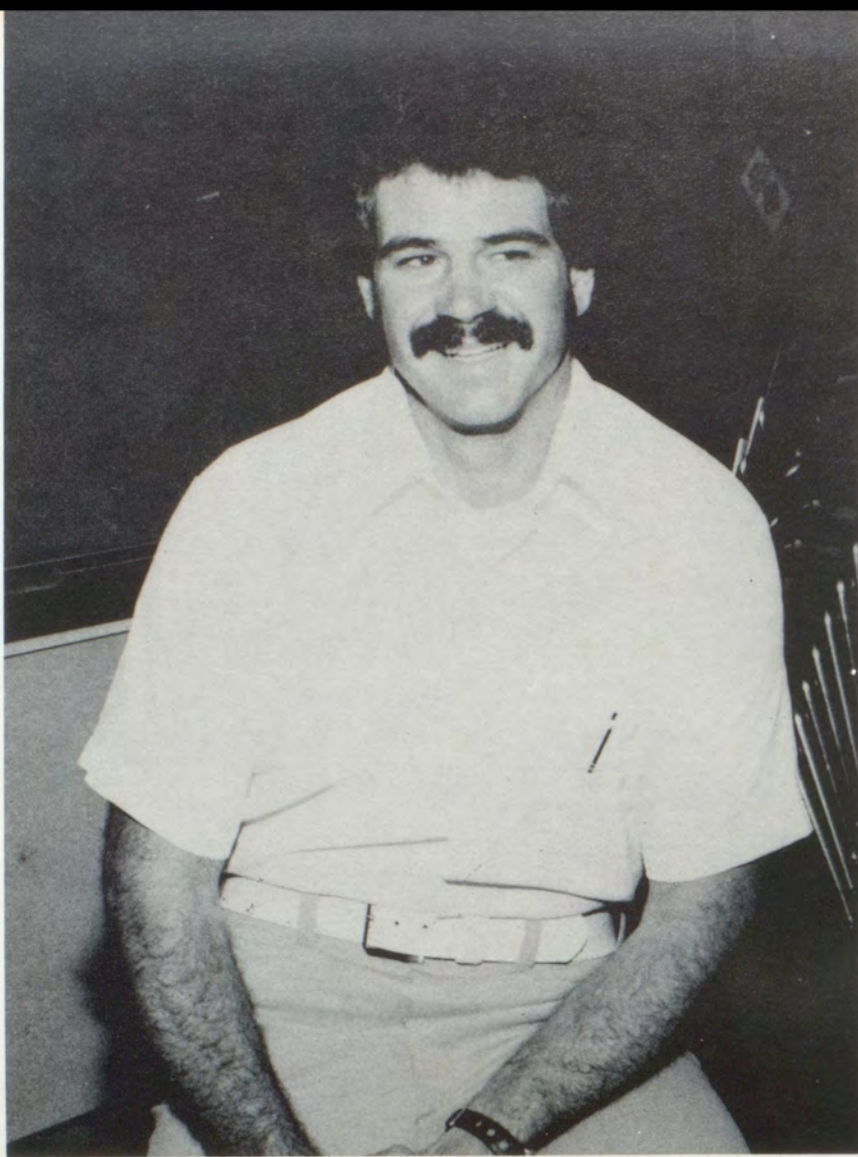

so it's the laughter, we will remember

when ever we remember ... the way we were.

mr. phillips

yeah!

are you kidding me?

student council

student council is an organization of dedicated students involved in helping our school and community. unlike other years the club is now using a point system, in order to keep all members involved. we've had good participation this year and great support from our sponsors. some of the clubs activities this year included homecoming, christmas float, spirit link contest, the end of the year banquet and many others.

thanks for a great year!

beta

beta is a service and honor club. students are carefully selected and must maintain a 3.0 average. they are to be responsible enough to represent their school and serve the community throughout the school year. there is an induction ceremony to congratulate and recognize the new members of beta. because of beta's high standards it will remain an active part of kwhs for a long time.

national honor society is a honor club based on the ideals of character, scholarship, leadership, and service. members are selectively chosen on the basis of these ideals, by a faculty selection committee and must maintain a 3.2 grade point average in all subjects.

this year, nhs has sponsored a teacher talent show (to raise money for scholarships), teacher appreciation day and service projects in both the school and in the community.

interact

the interact club of key west high school is a service club to the school and the community. over the past few years, the club has become renown for their service projects and the enthusiasm in which they carry them out.

Just a few of the projects accomplished by the club are: a walk-a-thon for m.a.r.c., a muscular dystrophy carnival, a dog show for the community children as well as an easter egg hunt, and assisting in special olympics.

the interact club members are proud of maintaining their outstanding reputation of dependable service to the school and the community, and of having another very successful year.

this year's snapper staff is entirely new. they had virtually no knowledge or journalistic techniques, but within a few short weeks they were "on the job" and involved in the production of the first issue.

this year has been quite an experience for all involved. the deadlines were often difficult to meet, but being a staff member involved meeting those deadlines—no matter what the cost. for this reason mr. sam mackie is grayer and minus a few hairs, but that comes with the territory. (he completed the proper forms at the front office for hazardous duty pay, but no final decision has been made on his request.)

this year will always be remembered by the staff editors and writers as an enlightening experience. no one can, or possibly will, forget the year they were metamorphisized from a flock of "turkeys" into a school of snappers.

keyettes

keyettes is a service club made up of girls. to be a member of keyettes you must maintain a "c" average, and must be a sophomore, junior or senior.

keyettes main purpose is to help our school and community. some of our bigger projects are the dog and cat food drive, and the concession during football season. we also sponsor a sweet-heart dance and help needy families during thanksgiving and christmas.

key club

key club is made up of responsible students who offer their services to the school, community or whoever needs them. key club, along with its sister club, keyettes, have the same goals; participating in drives and donating time and necessities to worthy causes. we feel by helping others we help ourselves. to be a member of key club you must have a "c" average and a recommendation from one teacher.

french club

the french club is one among many enlisted in the ranks of service clubs at k.w.h.s., but being one of the crowd doesn't necessarily exclude its prospects of originality or educational betterment and enjoyment. the club illustrates the principle that, there's more to learning and enjoying a language, than a french book.

the members are students who are interested in french outside the classroom. they participate in activities directly concerning the french language, culture, and history. but by no means is the club all work. it holds many valuable rewards for the student. these being knowledge, enjoyment, and last but not least, in the spring participation in the annual state wide convention le congres francais.

this year we will participate in many activities involving our school and community.

spanish club

the spanish club is made up of spanish students who speak spanish fluently, and students who are interested in spanish. the purpose of the club is to have cultural programs and to have fun while doing them. the club this year attended a spanish banquet, sang christmas carols in spanish, and did other services to the community. at the end of the year we plan to attend the spanish convention in orlando.

pep club

this year's pep club has been a real success. our purpose is to raise the school spirit by attending all athletic events and cheering for the key west conchs. our sponsors, miss bonham and mrs. fraga, have done a fantastic job in getting this whole club together. they have put forth a lot of effort, time and patience. the club has worked hard to raise money and has been supported by many spirited members. the funds were raised to go on "away" trips by sponsoring a dance and selling megaphones.

being only the second year we've had this club i think it's come a long way. in future years we plan to be there supporting the conchs all the way.

distributive education is a vocational education program. as such it is responsive to a population of students at key west high school whose career objectives are in the realm of distributive occupations. distributive education also shoulders some responsibilities to the field of retailing.

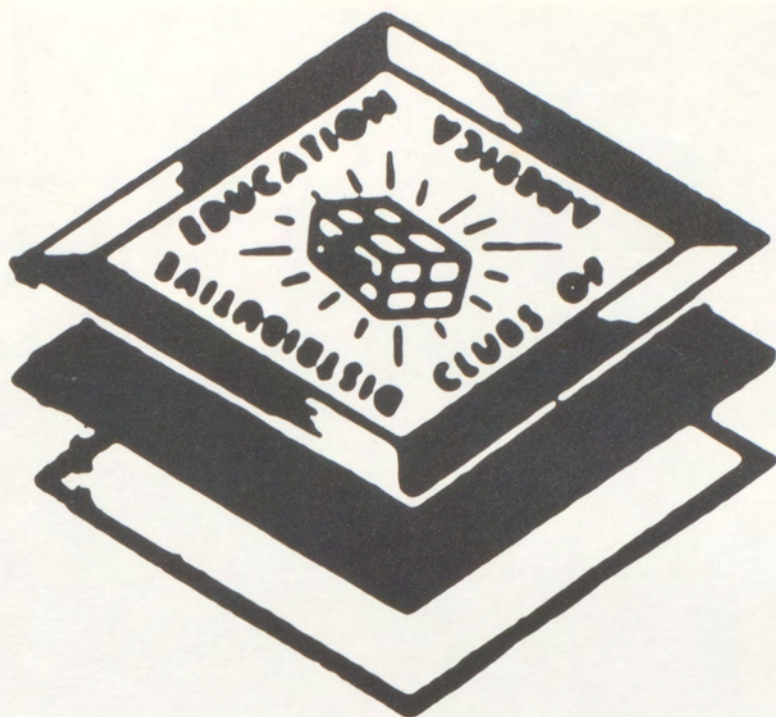

these goals imply that the distributive education program exist to serve both students and the business community.

drill team

this is the first drill team that key west high ever had, and the members on the team are grateful for the help they received from the key west high school staff in helping to organize what we want to call "a very good drill team."

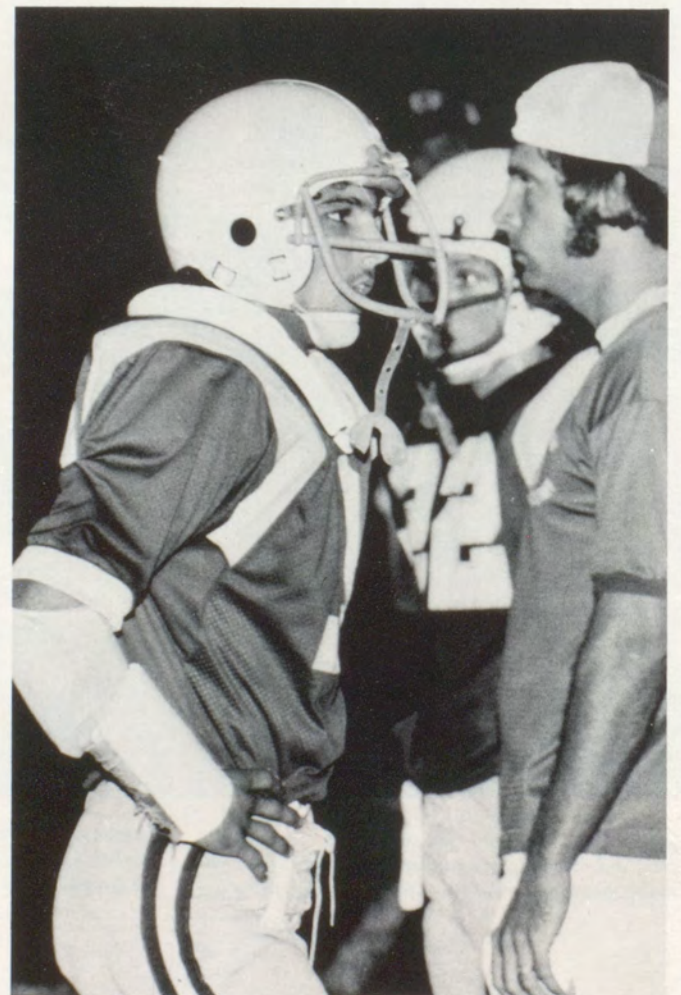

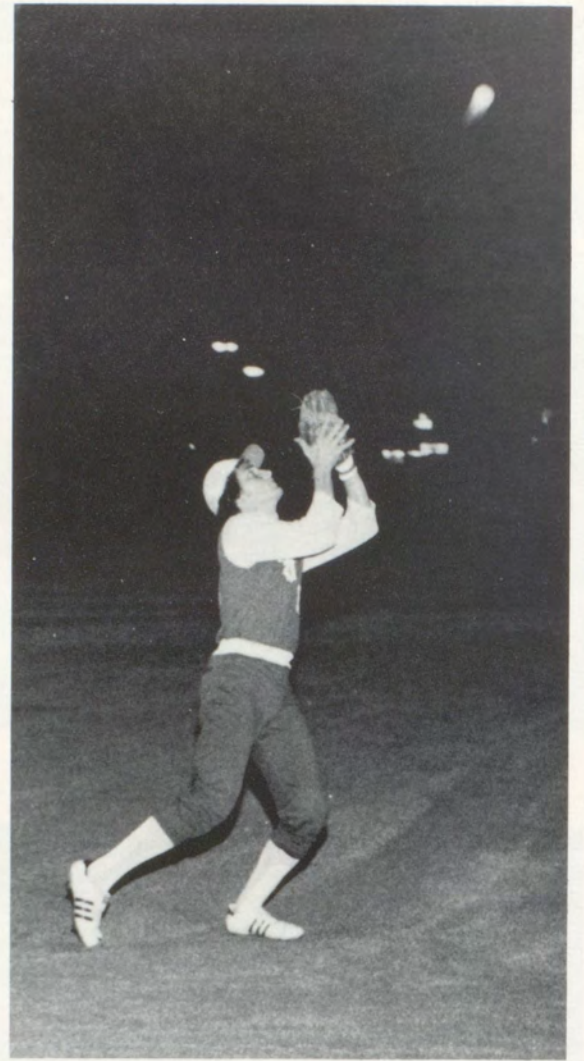

the drill team is a very well put together group of people. they are trained to march in many forms and styles, spin rifles and flags, and most importantly represent the school in civic functions such as the christmas parade. it consists of male and female students.

at the beginning of the season with only one loss and one victory, the conchs had hopes for a fine season. the next four games produced only one win and spirits were low, but the conchs bounced back with three consecutive victories, defeating naples, the seventh best team in the state. the final record (5-4) made key west a winner for the first time since 1970. the coaching staff is very proud of the '76 team and will long remember this fine squad.

the 1976 junior varsity football
season was filled with no experience
but lots of success. this success was
the direct result of hard work by the
players as well as the coaching staff.
too many of us in life never experi-
ence a true sacrifice, but these foot-
ball players did; through constantly
punishing their bodies and spending
long hours on the practice field. the
end result was a great football season
and many friendships between play-
ers as well as players and coaches.

at the beginning of this basketball season the conchs had one returning starter and only two returning lettermen from last year. the squad approached the season enthusiastically and compiled a respectable 15-6 record. the fast break was the strength of this year's team and at times they ran it to perfection when they were "in the grove," the conchs were capable of beating the best teams in the state. coach fedor

unlike other seasons i figured this would be a long one. long in that we'd be lucky to win 4 games. the results 10 wins 9 losses, proved different. talent we lacked but determination we had. at times we fought instead of playing basketball and with a little luck we could have had a super season. with time and work this team will develop to one that i can look at proudly. they, like traditional k.w.h.s. teams will be successful. coach arnold

the key west freshman basketball team ended it's season with a 5-3 record. the team competed against the two local jr. high schools, as well as the junior varsity team from m.i.h.s. the freshman team is a training ground for future players for the key west junior varsity as well as the varsity. this year's success is attributed to the hard work these young athletes put forth during the whole season. i would like to thank marc harris for keeping the score book, nat richardson, the statistician, and the cheerleaders for their support. coach valcarcel

the key west high baseball team is looking forward to the 1977 season. with the return of their two starting pitchers from last years squad, the opposing teams will be in for some hard times at the plate.

overall the team lacks game experience, but time and determination will resolve that problem. team speed again this year will be one of the greatest asets of the squad.

The j.v. baseball team began practice in early january, with forty guys trying out, and only sixteen made the team. many players came from the fine organized leagues of key west. after much hard work and conditioning the twelve game schedule began. our season started out with two wins against marathon and coral shores. we hope to continue our season the way it began.

walter luoma was one of those men that you knew before you met. i'll always remember the tales of the "slide-rule wizard" told to me by his former students who greatly loved and respected him. when, as one of his students, i finally met him, i knew that he was someone special. he was a brilliant man with the uncommon ability to communicate his understanding to others. his love of the subject he taught was best expressed in his favorite phrase "isn't science wonderful?" from his terrible jokes, to his "no-bell prize" he will not be soon forgotten. it has been said that death is more universal than life—all men die, while relatively few truly live. walter luoma was one of those few.
