Description

The frame was examined on the wall, therefore the type of wood and the joint method could not be observed. Stepped-ogee profile. Band of leaf and tongue ornament on the sight edge. The frame is finished in toned metal leaf.

Condition

The frame has a grime layer and there is a damage to the wood in the upper right corner. Otherwise the frame appears stable.

Painting Installation

The face of the painting contacts the bare wood rabbet.

Treatment Recommendations

Remove grime. Repair wood damage. Install the painting properly in the frame.
