

### **Bishop's Room**

The Bishop's Room is on the second floor and is <sup>NO</sup> fully furnished. All of the furniture and the woodwork of the room has been thoroughly worked on by William Clark and as a result, all the furniture is stable and there are no major treatment priorities.

FURNISHING PLAN  
NEEDED -  
THIS IS 'MADE UP'

However the Bishop's Room is not on any of the tours. The status of the room and of the second floor in general is in flux. Before more work is done in this area, the furnishing plan and possible exhibit of the Bishop's Room and the other spaces on the second floor should be resolved.

### **Bishop's Room Beds, Dressing Table, Chest of Drawers**

### **Conservation Comments:**

William Clark: Did no work on the beds.

The "oyster veneered" chest replaced missing veneers and reset lifted veneers. Touched up finish.

The Queen Anne dressing table also had repairs done to the veneers and was refinished. Note the dressing table has a lift top and the drawers are false fronts. Apparently it was modified for use as a sewing table.

### **Director's Comments**
