002\1955002032.JPG

**Description** Taxidermy mount of head of an adult male sheep. Large horns. Has soft tissues of nose and eyelines modeled in wax. Shaped over wooden form, with some plaster modeling. Mouth closed. Has metal earliners and glass eyes.

Prepared by, "...James Lippitt Clark (1883 - 1969), a well known taxidermist and artist who worked with Carl Akeley at The American Museum of Natural History and had a private studio in New York. He prepared specimens for Theodore Roosevelt and other prestigious clients."

Excerpt taken from Natural Specimens Report by conservator, Catherine Hawks. Examination and assessment prepared in October of 2000. Treatment performed in September of 2002.

# 1955.002.032 ~ Trophy Head
