

Dining Room West Bay Chairs

Conservation Comments:

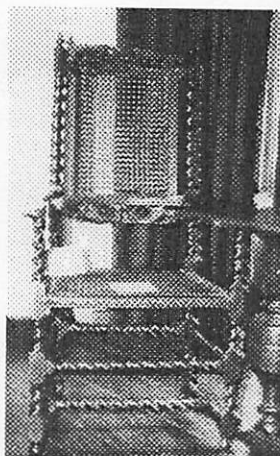

William Clark: Not treated. Not original to house.

David Bayne: Interesting chairs and needs further investigation.

Exposed to high light levels and possible damage when door is opened similar to the table (see above). Stable and not a priority.

Recommendations:

Monitor light levels and condition.

Director's Comments

These chairs are stamped by the maker and were examined by George Way, chair expert, who also looked at the chair in the entry hall.

GEORGE EXAMINED MOST OF THE FURNITURE COLLECTION

Dining Room West Wall North Press Cupboard

Conservation Comments:

William Clark: Treated by Peter Arkell in Connecticut in early 1980's. Apparently cleaned with alcohol and re-shellacked.

David Bayne: Appears stable. Note carving with out inlay or applied decoration may date this to either early part of 17th century or provincial manufacture.

Recommendations:

Find treatment records if they exist in files or possibly contact Arkell directly to see if he has copies.

Director's Comments

Original to house and therefore a priority.
