January 13, 1932

Reverend Mother Bonaventue, SupGen'l
and Members of the General Council

Honored and dear Reverend Mother:

Since it is considered dangerous to delay the repair of the entrance to the Convent building we called on Mr Walsh to give his opinion and an estimate of the costs for repair.

Walsh, Burney & Key Company presented a rough sketch for the proposed new steps and landings for the front entrance. They agree to do the work for the sum of about three thousand dollars (\$3,000.00). The Provincial Treasurer, Mother Bernard says she will be able to meet this expense provided she pays on the installment plan to which proposition the firm agrees. If we accept cement instead of stone steps the Company will deduct \$350.00 from the above mentioned sum. The members of the Provincial Council consider cement steps as so much money thrown away and hope that the General Council will hold the same opinion. The sketch and letter with the Company's proposition accompany this letter which we present for your consideration and approval. I am,

Devotedly yours in the Incarnate Word

Sister M. Alcantara, C.C.T.D.
Prov. Sec'y

For Mother M. Emiliana, Provincial
and Council

P.S.

If stone is chosen instead of cement, the Company will make a detailed plan immediately.

Sister M.A.
