

January 15, 1932.

Mother M. Emeliana, Provincial,
and members of the Provincial Council,
San Antonio, Texas.

Dear Mothers:

Reverend Mother and the members of the General Council have considered your letter of January 13, submitting the proposed sketch and estimate from Walsh, Burney and Key Company, for the new steps at the front entrance to the Convent building.

We favor the work being done and using stone for the steps; also, we approve of your ~~proposed~~ method of payment. It is suggested that the present center electric light be removed and a light placed at each side of bottom step.

The members of the General Council duly considered the request of Mother M. Winifred, Superioress of Spohn Hospital, relative to the purchase of a new X-ray machine. In view of the urgent need, you are herewith authorized to grant the permission to Mother Winifred to purchase the X-ray machine and equipment as described in the attached proposals from the two Companies. We also grant the Provincial Council permission to borrow five thousand (\$5,000.00) dollars within the Province.

Regarding the proposition set forth in Mother M. Lacerian's letter, it was decided to consult our lawyer about it, and the matter remains in abeyance until we receive his counsel.

With every good wish to you, dear Mothers, I remain,

Yours devotedly in V.I.

Sister M. Madeline, c.c. V.I.
Sec'y. Gen'l.

For Rev. Mother M. Bonaventure,
and the General Council.
