

1912--1913

REPORT

OF

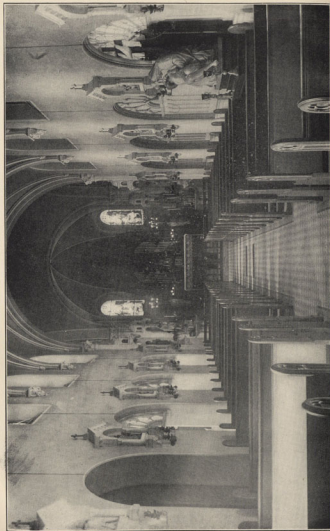

**ST. MARY'S
HOSPITAL**

OF

HOBOKEN, NEW JERSEY

*Under the Charge of the
Sisters of the Poor of St. Francis*

CHAPEL.

TO THE PUBLIC:

In addition to the usual statistical report of diseases and their treatment issued from time to time by St. Mary's Hospital, I have been requested to make a statement relative to the Golden Jubilee Campaign that was conducted last year in order to raise funds for the erection of a new wing to the Hospital. In order to do so, I shall have to give a brief review of events which lead up to and made the erection of a new wing an absolute necessity.

The year of 1863 was a memorable one in the history of our country. It was a time when the "Boys in Blue" were fighting for national supremacy; it was a time of carnage, of bloodshed, of suffering, of sorrow, of death. It is delightful to turn from the course of history, too often a tale of weakness and error and strife, to the touching record of the efforts made under the inspiration of love of God and love to man for the alleviation of the miseries, spiritual and temporal, to which humanity is prey.

In the Spring of the year 1863, when our brothers of "Blue and Grey" were fighting along war's crimson highway, when brother was arrayed against brother, when human blood was spilled in defense of a vital principle, an Order of devoted women, more commonly known as the Sisters of the Poor of St. Francis, came to Hoboken and inaugurated a movement whose purpose was not to foster strife, nor for the purpose of arousing sectarian hatred, but on the contrary that they might carry out in their daily life the Divine mission by ministering to the spiritual and bodily necessities of the poor, the sick, and the forsaken.

What a striking contrast; in the first picture we have armies of men in their heated passions trying to destroy each other; in the second picture we have a band of self-sacrificing women, consecrating their lives to the saving of human life, to the alleviation of suffering and to the uplifting of humanity.

The Order of The Sisters of the Poor of St. Francis was instituted in the City of Aix-la-Chapelle in the year 1845 by a number of young ladies of that city, who formed a union for the purpose of establishing kitchens for the poor and aiding the sick and needy. It is recorded that they not only gave their own means, but gathered such alms as well disposed citizens felt inclined to bestow. Within four years' time, four of these devoted women organized a religious society whose purpose was to devote their lives to the care of the poor and sick. The movement soon spread to America.

In the year 1858, six Sisters sent out by the Mother Home at Aix-la-Chapelle landed in the City of New York, poor in purse, but rich in faith and good works, proceeded at once to Cincinnati and organized the American Branch of this Noble Order.

I have been informed it was through the zeal of Father Cauvin and a certain Mrs. Peters, who was identified with the Cincinnati House, that the Sisters of the Poor of St. Francis came to Hoboken in 1863 to establish a hospital on certain conditions, one of which was that a house should be provided with the first year's rent and that it should be furnished in the plainest way; with no carpets and no unnecessary furniture. The terms were complied with and a house, 20 by about 40 feet, standing on a lot 95 feet deep in Park Avenue was secured. It is evident that a hospital with such cramped conditions was hampered and in consequence thereof many patients were treated in their homes.

In 1865 the first hospital building was erected on the corner of Fourth street and Willow Avenue.

In 1882 the middle building was erected.

In 1896 a grand fair was held and with the proceeds of that fair, \$22,000, the south wing was started.

During the past fifty years St. Mary's Hospital has treated 77,000 different patients. Of this number 52,000 came from Hoboken; 3,500 from Jersey City Heights; 14,000 from North Hudson; 3,800 from New York City, and the balance from miscellaneous sources. During this time the doors of St. Mary's Hospital have always been

open for all, irrespective of race or creed.

Pause for a moment and think of the poor laboring men injured in the dock yards or on the railroad, victims of accidents; victims to the maladies of the climate; sufferers from overwork; poor women, whom loss of health has robbed of their sole means of support, orphan children and the indigent of both sexes who have found shelter and gentle care within the walls of this beneficent institution.

The year 1913 was the Golden Jubilee Year of St. Mary's Hospital. The many friends of the Hospital felt that it was the psychological moment to make a great and universal effort to raise money for a new wing to the Hospital. The old building which was erected in 1865 had practically outgrown its usefulness—it was considered unsafe, unsanitary, and did not in any sense measure up to the needs of an up-to-date hospital. And furthermore, the Hospital was greatly overcrowded, and if it were to serve the needs of the community, larger and more commodious accommodations must be secured.

The many friends of the Hospital decided to conduct a Ten-Day Campaign for the purpose of raising \$100,000 to be used in the erection of a new wing, which was to take the place of the old structure. The Sisters of the Hospital fortunately secured the services of Mr. Wilbur A. Bowen, a gentleman of wide experience and rare judgment in conducting hospital campaigns, to organize the enterprise. In response to a call from Mayor Cooke, a meeting of the citizens of Hoboken was held in the City Hall and resulted in the following organization: A. J. Demarest, chairman; Dr. William T. Kudlich and Hon. Martin Cooke, vice-chairmen; Richard Beyer, secretary, and Henry C. Steneck, treasurer.

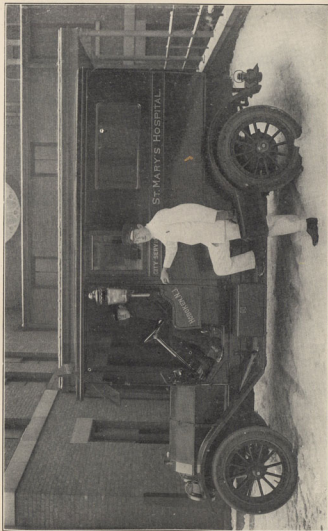

The Campaign was thoroughly and systematically organized. The slogan was: "One hundred thousand dollars or more for the sick and needy in the City of Hoboken." There sprang up at once a wide-spread interest in the movement, irrespective of creed or race or color. People in all classes and conditions of life gave their

substance to this most worthy cause. At the close of the Ten-Day Campaign, the sum of one hundred and three thousand dollars had been subscribed.

The Chairman of the Campaign Committee takes this occasion to express in behalf of the Sisters of St. Mary's Hospital, his thanks for the splendid work done by the ladies, ably seconded by the magnificent work done by all the male teams. If space permitted, the Chairman would like to acknowledge his indebtedness to each and every worker who served so gallantly and unselfishly in order to make this movement one long to be remembered in Hoboken.

In conclusion, let me say that this life is exactly what you make it, you get out of this life just what you put into it. If you put selfishness into it, you are surely going to miss the joyousness that comes from the service of helpfulness. If you are going to ignore the piteous appeals from your less fortunate brothers, you are surely growing in the disfavor of God. We do most for ourselves when we do most for others.

A. J. DEMAREST,
Chairman Campaign Committee.

AMBULANCE.

TO THE MEDICAL BOARD.

The Sisters of the Poor of St. Francis wish to take this opportunity to publicly express their deepest gratitude and appreciation to physicians and surgeons of the Medical Board for the skillful and conscientious services rendered to the sick and needy entrusted to their care. They realize that the work of the Hospital would be impossible without the sincere and faithful co-operation of the Visiting Staff and the readiness of its physicians and surgeons to place their knowledge and skill at the disposal of the Sisters in their effort to alleviate the suffering of the poor who come to their hospital for relief.

THE SISTERS OF THE POOR OF ST. FRANCIS.

PREFACE.

The Medical Board of St. Mary's Hospital herewith submit a report of the Medical and Surgical work done in St. Mary's Hospital during the last two years. Owing to the stress of preparing and directing the Campaign for the Golden Jubilee of the Hospital in 1913 an annual report was not published in that year, and it is therefore incorporated in this issue.

The Hospital is keeping pace with the advancing strides of medical science in the diagnosis and treatment of the sick. The pathological laboratory has been thoroughly reorganized and is under the direction of a trained Pathologist. The value of the X-Ray Department has been greatly increased by the acquisition of new apparatus and the appointment of an expert roentgenologist as its director.

The operating rooms are equipped with all necessary modern apparatus and appliances and are under the supervision of Sisters thoroughly trained in surgical work.

The wards are bright and well ventilated. There is a large veranda on each floor to afford to convalescents all the benefits of fresh air and sunshine.

There are a number of cheerful rooms which may be engaged for private patients at moderate cost, varying as to location and size of the room.

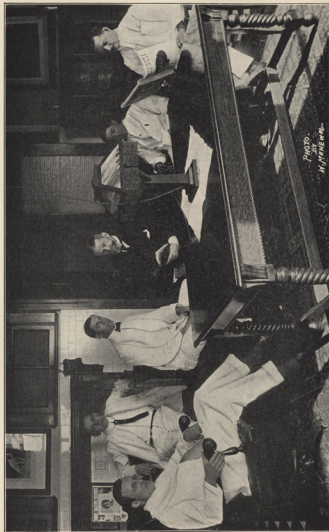

The appointment of several specialists in the various branches of medicine to the medical staff insure expert advice and treatment to all patients requiring such service.

A house staff of five (5) qualified physicians reside in the hospital and can be called night or day in case of emergency.

The Sisters extend their invitation to all those interested in the Hospital and its work to inspect the buildings on visiting days or on other days by appointment.

With thanks for the many past favors, we recommend and solicit for the Sisters continuance for the future, to enable them to successfully carry out the noble purpose, to which they have devoted their lives.

T. J. SCHÜCK, M. D.,
Secretary of the Medical Board.

THE HOUSE STAFF IN THEIR SITTING ROOM.

ADMISSION OF PATIENTS.

The charities of the Hospital are welcome to all, irrespective of religious creed, social condition or nationality.

All persons desiring admission must make application to the Sister Superior.

Emergency cases, accidents, etc., are admitted at all hours of the day or night. Other cases should apply between the hours of 9 A. M. and 5 P. M.

The poor will be admitted free of charge; those who are able to pay will be required to pay a moderate charge in advance.

Patients who engage private rooms have the privilege of choosing their own physicians; and physicians not connected with the Hospital may engage private rooms for their patients and treat them.

FORM OF BEQUEST.

I give and bequeath the sum of dollars (\$) to "The Sisters of the Poor of St. Francis" of Hoboken, New Jersey, who have charge of St. Mary's Hospital, located on the corner of Fourth Street and Willow Avenue, in Hoboken, New Jersey.

VISITING RULES.

The friends of the sick in the wards are permitted to visit them twice weekly, on SUNDAYS and THURSDAYS, between the hours of 2:30 and 4:30 P. M. Visitors are requested not to bring small children and to retire when the bell announces the expiration of visiting hours.

Private patients are not restricted as to days for receiving visitors; they are requested, however, to have their calls in the afternoon. Visitors are requested to leave the Hospital at 7:30 P. M.

No article of food or drink is to be given to the sick by their friends. All must be left with the Sister in attendance, who will give or withhold it, according to the condition of the patient.

Visitors are expected to conform strictly to the rules of the Hospital while within its doors.

Wounds (non-penetrating)	0	2

Chest—Cont'd.

Contusion	7	15
Fractured ribs	19	20
Abscess of lung	3	0
Empyema	6	1
Tumor of mediastinum	2	0

Breast—

Carcinoma	2	3
Fibro-adenoma	1	1
Abscess	4	1
Cellulitis	1	5

Back—

Wounds	1	2
Gunshot wound	1	0
Abscess	1	1
Contusion	32	20
Tuberculosis of vertebrae	2	0
Fracture of dorsal vertebrae	1	1
Dislocation of cervical vertebrae	0	2
Dislocation of dorsal vertebrae	0	1
Dislocation of lumbar vertebrae	0	1
Sprain	0	2
Exostosis of 12th dorsal vertebra	0	1
Papilloma	0	1

ABDOMEN AND PELVIS.

Abdomen Wall—		
Wounds	3	1
Contusions	2	3
Cellulitis	0	1
Gunshot wound	1	0
Lipoma	0	1

Alimentary Canal—

Carcinoma of stomach	5	7
" of intestine	2	2
" of colon	1	0
" of rectum	2	2
" of mesentery	1	0
" of liver	0	0
" of pancreas	1	0
Sarcoma of intestine	2	0
" of spleen	0	1
