BOARD OF EDUCATION**

**TITLE III
HOBOKEN, NEW JERSEY**

Forward

The development of this booklet is a direct result of an evaluation of the pressing needs of our non-English speaking children.

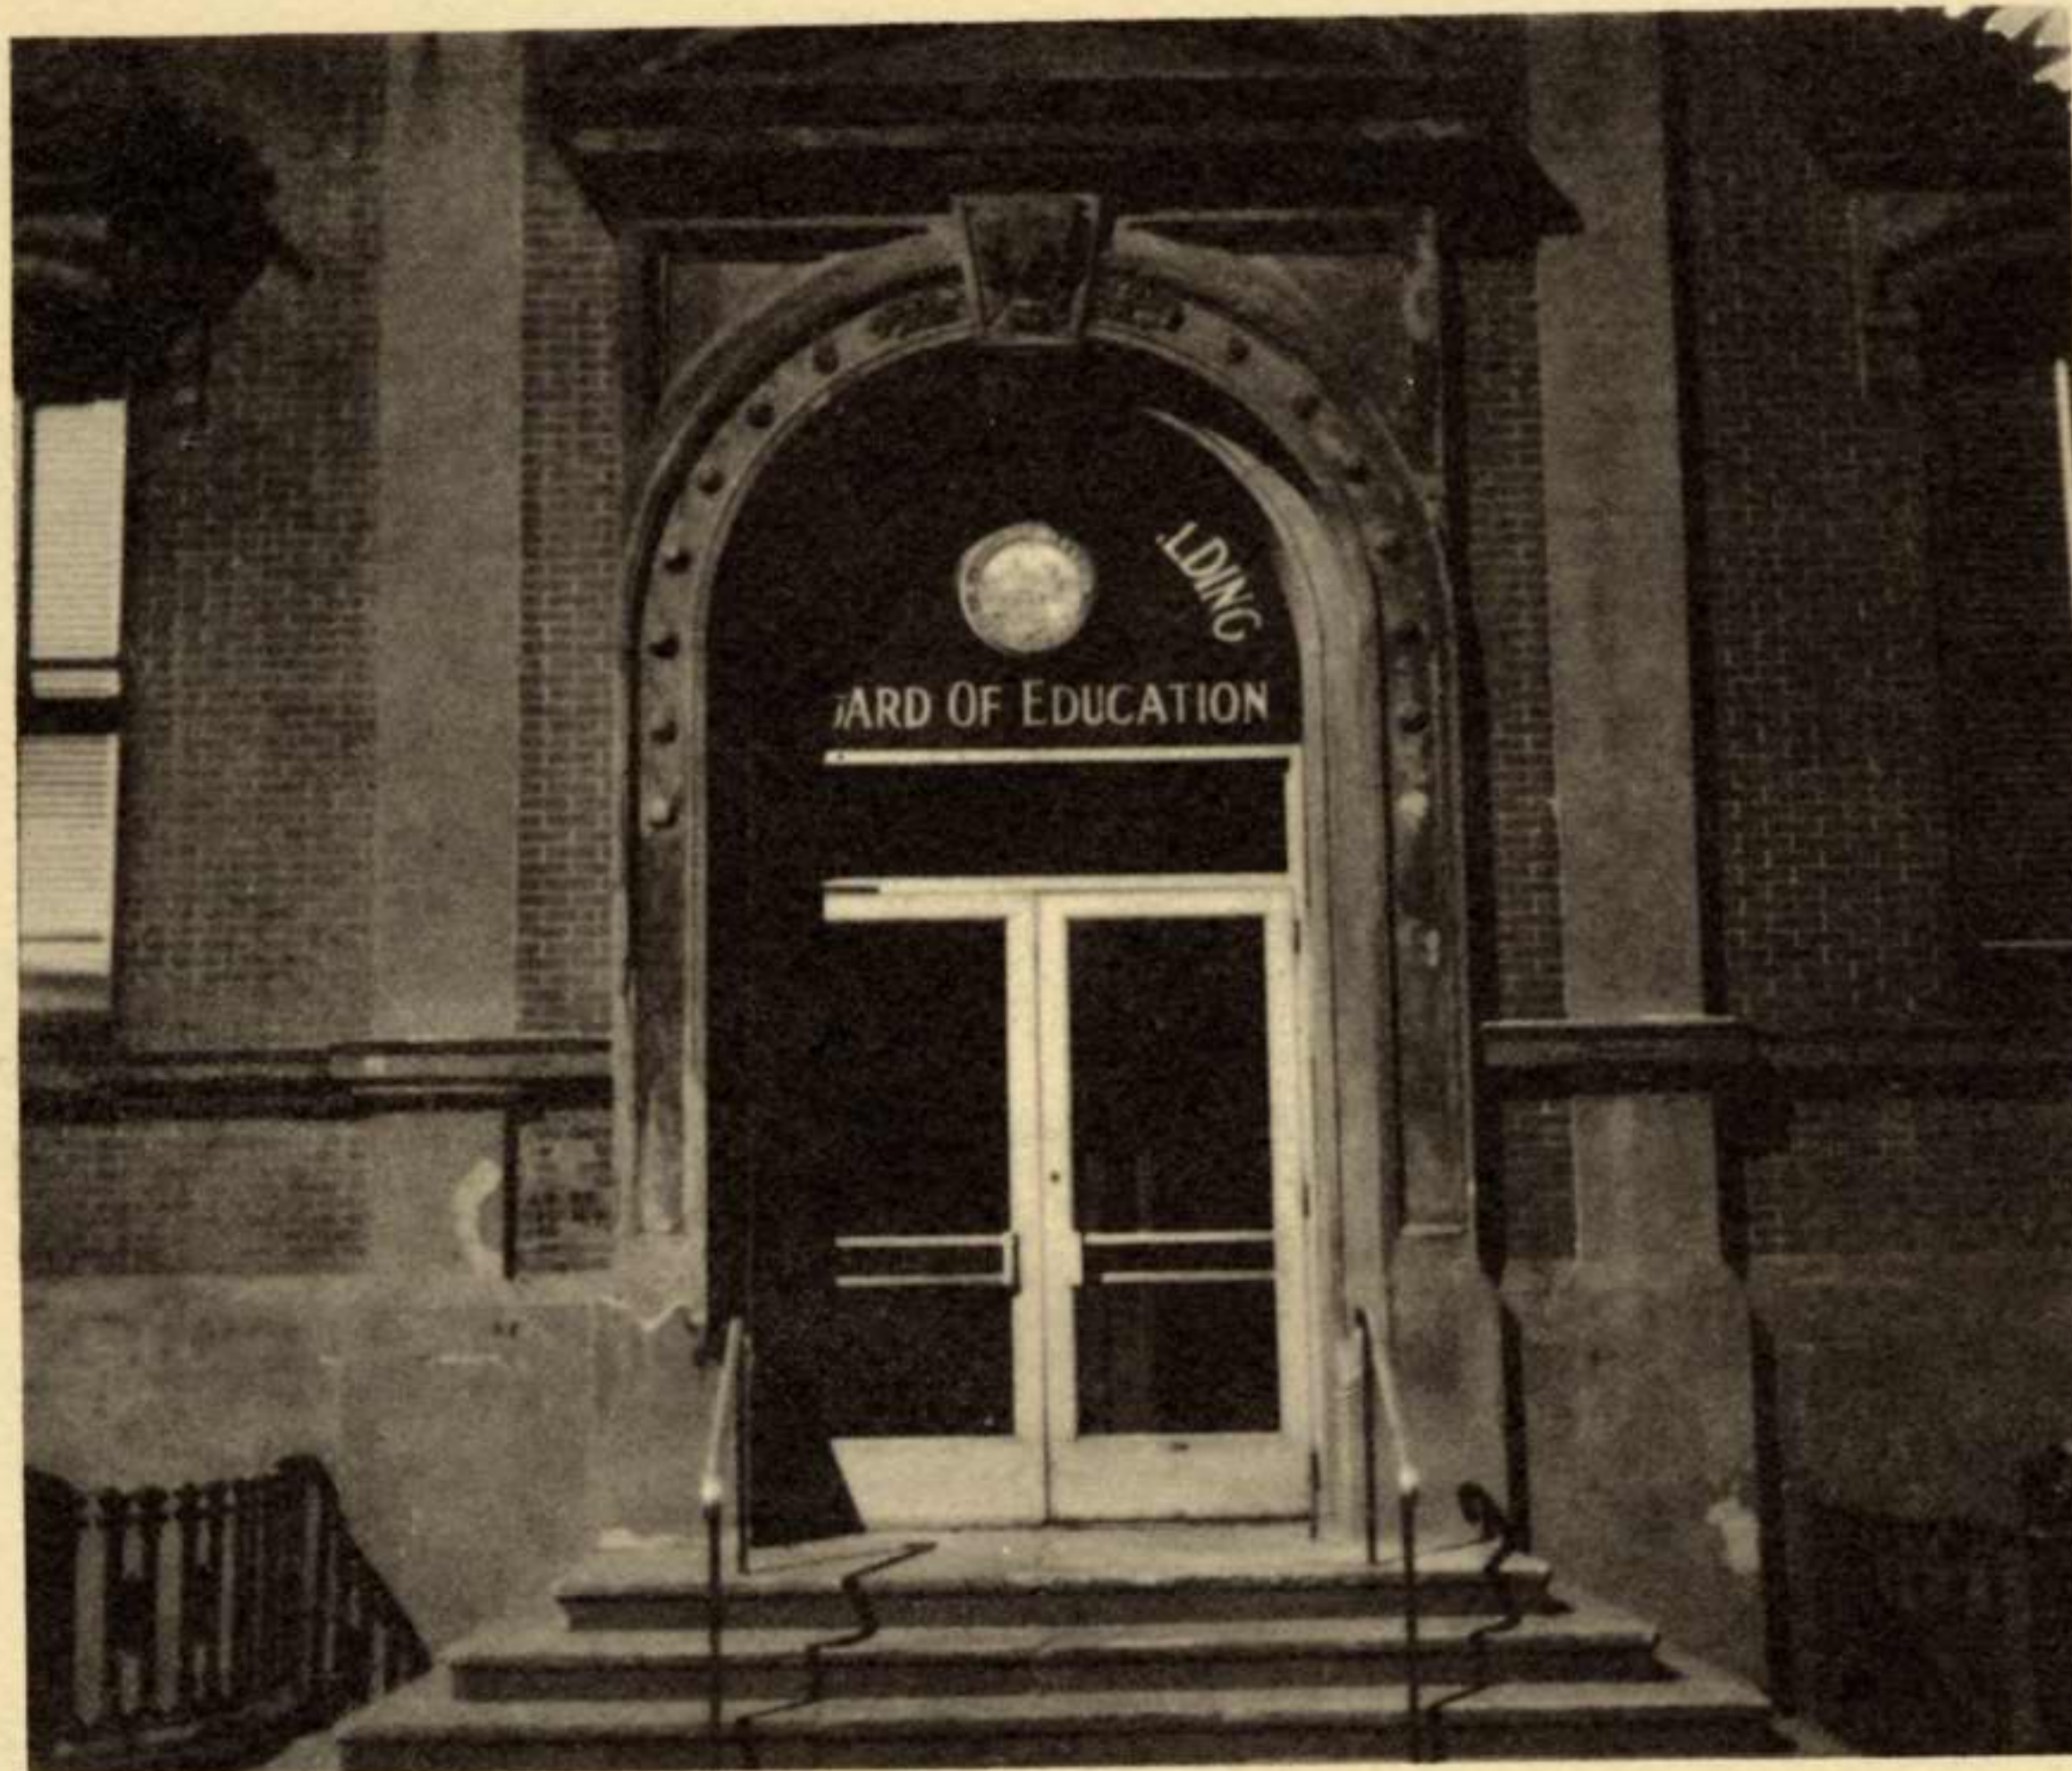

The multiple problems facing newly arrived school children from Puerto Rico and over 33 foreign lands has prompted our Board of Education to develop programs to meet their unique needs. One of the most obvious needs is the need to know their new home and community.

This booklet has been prepared by our staff for the expressed purpose of being used as a curriculum tool to facilitate this knowledge. It will be utilized by the teachers for the dual purpose of teaching English and imparting knowledge of Hoboken.

I sincerely believe that this will be an extremely effective and innovative approach to the solution of problems faced by our new citizens in Hoboken.
