During research on the Masonic record
of a black man who was born down here
in Low. Co somewhere near 1890, I have
not been able to establish his birth date but
he was about thirty years old when he was
killed in 1921 (Sept). He had reached the
33rd degree of Masonry - as there is a
picture extant in his regalia. I do not
know his Mother's name, but his father was named
John, and there were other brothers & possibly sisters.
He graduated from Harvard where he majored in
Education, and was later attached to the
Board of Ed. where he was first teacher and then
supervisor. If you can etc
