BEVERAGE

"There seems to be but three ways for a Nation to acquire wealth. The first is by war, as the Romans did, in plundering their conquered neighbors. This is robbery. The second is by commerce which is generally cheating. The third is by Agriculture, the only honest way, wherein a man receives the real increase of the seed thrown into the ground, in a kind of continual miracle, wrought by the hand of God in his favor, as a reward for his innocent life and his virtuous industry."

Benjamin Franklin
