My life since PHS graduation –

As one might expect, life as an accountant can be extremely exciting... but what stands out to me at this point are the 51+ years I have had the joy and satisfaction of being married to my very best friend and the happiness she, our children and grandchildren have brought to me over all of that time. Thank you, Lord!

Since graduation from PHS, I attended college and have lived and worked in the Maryland suburbs of Washington DC. I entered the field of public accounting in 1965, married Nancy in 1966, served in the Army for a few years while starting our family, became a CPA in 1971 and a CFP in 1990. After being a partner in a local CPA firm for 10 years, I started my own practice in 1981, merged it with another CPA in 1984 and in 1993 became the sole owner. While I still enjoy my work, I know the time is coming to let go and enjoy more free time with Nancy and our family. Hopefully she/they can handle having me around more.

For the past 14 years Nancy and I have lived in a waterfront community on the South River, just outside of Annapolis. During our time there I have gotten back into boating, one of my loves as a teenager. To date, we haven't traveled as much as we had planned to but have managed a few bareboat sailing trips through the BVIs, chartered a trawler through the San Juan Islands, and taken several trips to Paris (our favorite big city), including a wonderful riverboat cruise through Southern France as well as a Mediterranean sailing cruise along the coast of Italy. Between now and our 60th reunion I hope to add many other destinations to this list.

While I find it difficult to write about my life, I can sum it up by saying I am a lucky guy. I had the good fortune to grow up in a small community with people who cared for one another and became my friends for life. I later found the love of my life and together raised a beautiful family. To quote Robert Louis Stevenson "That man is a success who has lived well, laughed often and loved much". I feel I am that man.

Spouse name – Karla Kelly

Education after High School – Attended Chesapeake Community College
and Wor-Wic Community College

Primary Occupation – State of Maryland Environmental Compliance Specialist Manager (Retired)

Children: None

My life since PHS graduation –

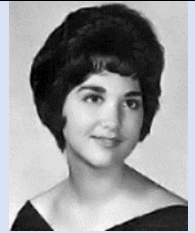

After graduation, I enlisted in the U.S. Air Force. During my four years in the service, I was stationed at Vandenberg Air Force Base in California where I worked in the security police and in the photo lab. In 1966, while still in the Air Force, I returned to England to visit for a month with my family and especially enjoyed afternoon tea with them. In 1971, I began working for the Maryland Department of Natural Resources and the Maryland Department of Environment, retiring in 2013.

Karla and I married in 1980. We frequently travel the East Coast of the U.S., and have fun cruising New England and the Caribbean. During the summer, we frequently relax on the beach while staying at our condominium in Ocean City. My hobbies include photography, Chevrolet Corvettes and antique automobiles.

Primary Occupation – Retired - Elementary Teacher, Reading Specialist, Children's Counselor
Volunteer – school, public library. Worked part-time in a gift shop.

My life since PHS graduation – Lynn and I married after graduation from Maryville College and moved to Titusville, FL. We moved to Greenville, SC in 1969 for Lynn to attend Furman University for his M.A. degree, and we have enjoyed living in Greenville since then.

Some family history: Mom and Dad, now both deceased, retired to Arizona; brother Ric lives in California (his wife died 10 years ago); sister Jan lives outside Atlanta (now divorced). Jan has threatened to move to Greenville to take care of us in our old age.

Some of our travels include China, Hawaii, Alaska, Europe, Egypt and the Greek Isles. These days, I spend more time at book club than horseback riding, and local shopping instead of exotic travels.

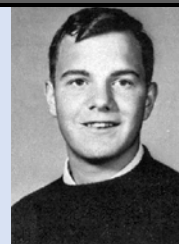

Over the years I have kept in touch with Bonnie (Holland) Crawford and Donna (Wilkerson) Hardin, and recently learned Joyce Ann (Merrill) Collins was a good friend with two of my classmates from Maryville College.

If I don't make it to the reunion, I will certainly be thinking of everyone in Pocomoke.

Joyce Ann (Merrill) Collins

"Joyce Ann"

Spouse name – Dale Collins

Education after High School – Master's Plus 30, Towson State College

Primary Occupation – Elementary Reading Specialist (retired)

Children: Jennifer Holden (Bryan), Rebecca Collins

Grandchildren – Madison (13), Brady (11)

My life since PHS graduation – After graduating, I left the small town of Pocomoke and went to the big city of Towson to begin college at Towson State College (now Towson University). During my years at Towson, I met my life mate and husband of 51 years, Dale Edward Collins. Both of us became teachers, now retired. During our teaching career, we also owned and operated a small swim and tennis club. Those years were busy ones: finishing our graduate degrees, raising our two daughters, and running our small business!

After our retirement from teaching, we sold our business and began devoting more time to our church and service to our community. By that time, our daughters were grown and married. Soon thereafter, our grandchildren came along and we had a new focus. Grand-parenting is much more fun than parenting!

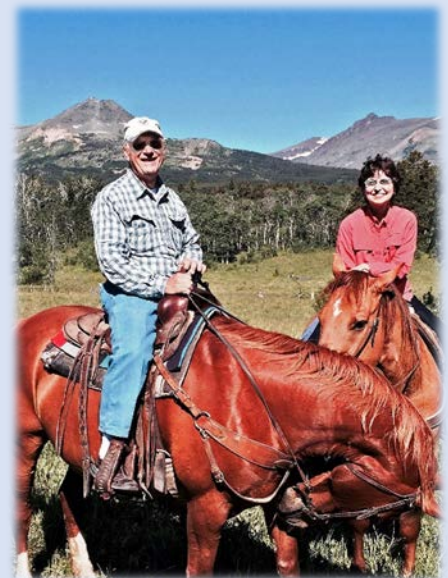

Our retirement years have been good ones! We have enjoyed traveling in the U.S., Great Britain, Mediterranean, Australia, and New Zealand. We especially love cruising and visiting national parks. Our lives here at home are centered around our church, where Dale has been a member for nearly 70 years. I've been a member there for only 50 years! We have a wonderful group of church friends who are supportive of each other, especially since many of us are either entering or in those "golden years" where we often need each other's help. We've been a part of numerous mission trips in the US with our church family. As Kiwanians, both of us are active in our local club and my husband holds leadership positions at both the district and division levels. Through Kiwanis, we are able to continue our work with students from elementary school through college, as Kiwanis has "sponsored youth" clubs for K Kids (elementary), Builder's Club (middle school), Key Club (high school), and Circle K (college). The goal of

each of these clubs is to teach our youth the joy of service to others. Just for fun, we started taking ballroom dance lessons after we retired since neither of us ever learned when we were young! Now, we don't remember what we have learned...guess we should have started when we were younger!

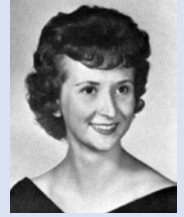

In recent years, our lives have entered a new phase as our aging parents have needed more care. We lost our dads a few years before our moms needed more attention. Dale's mom (96) recently passed and my mother (93) is now living with us. We were blessed to have had our parents with us for so very long.

We still enjoy living on our quiet 5 acres, which seem to be growing and growing as we struggle to keep up with all the yard work. However, we love our flowers, shrubs, and garden, so at least for now, we'll try to "keep on keepin' on" for a while longer, God willing!

Life has been good to us! God has always provided for our needs, given us good health, a loving family, and deep friendships, and satisfying careers. I believe that small town Pocomoke provided a good start for my life. Thank you all for the memories which helped shape my future!

I began working in 1993 at a Nursing home in Snow Hill, as an Activity Coordinator. The owners then promoted me to Administrator of a domiciliary facility they were purchasing in Salisbury, MD. I worked for them until Worcester County Aging Commission hired me to start Adult Medical Day Care in Snow Hill MD. The Health Department and Aging Commission joined to begin this project. I worked there 14 years.

After my retirement Frank and I spent time with our grandchildren and we were very active in our church. Both of our children graduated from college, Doug in engineering from North Carolina State University, and Vanessa from Mount St. Mary's College in Emmitsburg, MD. Vanessa has since received her Master's. My granddaughter Sarah recently graduated from Towson University and is working two jobs around Baltimore, in marketing. Working while raising a family took up most of my time. In performance of my job responsibilities, I traveled throughout the U.S. After 38 years, I retired from government service in January 2006.

I’ve made several visits to Alaska, as one of my daughters lives there. In addition, I have visited Austria, Italy, England, Ireland, taken a cruise to the islands, and more. I am fortunate to have some wonderful friends with whom I travel, both locally and not so locally, which fills the time when I am not working at my part-time job at Salisbury University. In December, I will be going to Disney World with all the family.

It’s all good!

Richard Barry Spinak

"Barry"

Spouse name – Sharon Kotovsky Spinak

Education after High School – B.E.S., Chemical Engineering, Johns Hopkins University (1967);
M.S., Chem.Eng. (1969), University of Minnesota;
M.D., Medical College of Virginia (1976)

Primary Occupation – Physician (retired)

Children: David, 44 (Naomi); Joshua, 42 (Paktis); Abby, 38 (Michael)

Grandchildren – Iris, 12; Jacob, 11; Mirit, 9; Lilah, 3

My life since PHS graduation – Sharon and I married in 1971 just as I was finishing my service in the Commissioned Corps of the U.S. Public Health Service, and we immediately embarked on a 13,000-mile road & camping trip in a Dodge van (with peace symbol curtains!) – up to Alaska and down to the Grand Canyon before ending in Minnesota to resume my graduate studies. But I soon recognized I had become more interested in medicine. While sending out med school applications, I worked for Computer Science Corporation at Wallops Island for a year, living in in Franklin City in an old house my father and I fixed up. After medical school and post-graduate training in family medicine, I worked for four years in Princess Anne at the Rural Health Initiative site established for medically underserved areas, and then for a year in Calais, ME. I changed specialty to emergency medicine, working in that discipline for the next 15 years, first in upstate New York and later in Seaford, DE. In 1997, I began working in occupational medicine for NASA, primarily at Wallops Island but frequently spending time at other NASA sites when needed.

Our son, David, began his medical practice in Washington in 2005, and in 2009, with his family growing and our other, then-single children living in Europe and Cambridge, MA, we moved to Bainbridge Island to be near the grandchildren, three of whom live less than 2 miles from us and are frequent visitors. I had retired the year before our last move but, to pay for the move and the downsized but more expensive new home, I worked part-time in the occupational medicine facility at the Puget Sound Naval Shipyard until I retired for good in 2016.

I enjoy photography, and I have been actively involved with genealogy for over 25 years. Sharon and I travel often; we have been to Hawaii, Israel, Mexico, Morocco, many European locations, throughout Canada, cruises in the Caribbean and to Alaska, and frequent trips to family events across the United States. The month after this year's reunion, we leave for a cruise from Norway to Spain, with stops in Iceland, going, and London, returning. But, for me, a highlight of our travels is always when we have an opportunity to go through Pocomoke City, usually at least once yearly. Much has changed, but the memories are comforting.

Merrill Lee (Walters) Truman “(Merrillee)”

Spouse name – Tom Truman

Education after High School –BS in Accounting, University of NC Charlotte

Primary Occupation – Wife, Mother, Accountant (retired)

Children – Tommy (Lizzie) & Laura (Jamin)

Grandchildren – Virginia Ann Truman (15), William Harrison Truman (2)

My life since PHS graduation – 55 years in several paragraphs – is that even possible? College after graduation – finally finding what I wanted to major in and taking a break for marriage and children. Going back to school and getting a degree. Marriage now totals 51 years. We’ve lived in three states – and in the Charlotte area since 1973. After years of being wife, mom, volunteer, etc., I went back to work and spent 20+ years as an accountant for a small private company.

Tom and I enjoy all kinds of sports – watching and participating. I have been bowling on the same ladies bowling league for 40 years and several years ago added a senior league. I tell people that my love for bowling began the only day I skipped school – the day the bowling alley opened in Pocomoke!

I enjoy playing cards and games and getting together with family and friends. I’ve seen a lot of the US, Canada and Mexico, but really prefer just being home or taking short trips to the mountains and beach.

I find it interesting to have grown old on the outside, but inside still feel the same – hope that never changes because I don’t think I’m ready to be a little old lady!
