## Chamber of Mines and Oil

ESTABLISHED 1906

Los Angeles, Cal.

224 SOUTH SPRING STREET

# MEMORANDUM FROM THE OFFICE OF THE CHAMBER OF MINES AND OIL

In attempting to secure information in regard to mining or oil companies, the following is suggested:

CALIFORNIA.—Where companies are incorporated under the laws of California, write the State Corporation Commission, Sacramento, California, for information shown on their records concerning the company, particularly names and addresses of companies or individuals filing corporation returns. Then communicate direct with individuals mentioned. ✓

ARIZONA.—Where companies are incorporated under the laws of Arizona, write Corporation Commission, Phoenix, Arizona, for information suggested above.

NEVADA.—Where companies are incorporated under the laws of Nevada, write Secretary of State, Carson City, Nevada; also State Bullion License and Tax Collector, Carson City, Nevada, for any information their records may disclose.

OTHER STATES.—Where companies are incorporated under the laws of any other state we suggest writing to the Secretary of State of the state in which the company is incorporated; also to the Secretary of State of the state in which the company is operating or presumed to be operating, for any information he may have on record, but ask particularly for the name and address of the individual filing the corporation returns, and then communicate with him.

FEDERAL GOVERNMENT.—The Internal Revenue Bureau, Washington, D. C., receives annual returns from all existing corporations in the United States. This department will furnish only the name and address of the officer of the corporation filing the return.

Always send stamp for reply, except to Internal Revenue Bureau at Washington.

---

## MINING AND OIL BULLETIN

Published monthly by the Chamber of Mines and Oil—Real mining and oil news—Honest advertising—Good suggestions as to how to safeguard proposed mining or petroleum investments.

Subscription price \$1.50 per annum. Subscribe for the **Bulletin** and become more familiar with the industries in which you are interested.

# Chamber of Mines and Oil

A SOUTHWESTERN ORGANIZATION

ESTABLISHED 1906

224 SOUTH SPRING STREET

LOS ANGELES, CALIFORNIA

---

A NON-PROFIT-MAKING CIVIC ORGANIZATION  
REPRESENTING THE COLLECTIVE BUSINESS INTERESTS OF  
THE MINING AND OIL INDUSTRIES OF THE WEST

---

## PERMANENT SERVICE FEATURES

**INFORMATION BUREAU**—Metallic and non-metallic products,—their uses and production statistics.  
Specific details as to districts, producing and developing companies.

**MAPS**—Complete series of U. S. Geological Survey topographic sheets and geologic folios, covering Arizona, Nevada, New Mexico and California.

Largest public reference collection of general maps.

All up-to-date Federal, State and private maps of the oil fields.

**MAILING LISTS**—Following mailing lists available for free use of members,—envelopes addressed without charge.

**Mining Companies**—Leading producing and developing mining companies of Arizona, Nevada, California and New Mexico.

**Oil Companies**—All producing and developing oil companies of California. Most complete list available, giving both field and office headquarters.

**Refining Companies**—All petroleum refineries; topping plants and gasoline-from-gas plants.

**LIBRARY AND READING ROOM**—Its constant use is expressive of its value to this community.

**Technical Library**—Nucleus established and growing steadily. Consult it when needed.

**Newspapers** from mining districts and oil fields, and the leading technical mining and oil journals, furnished us through the courtesy of editors and publishers, on file for reference.

**Bulletins**, professional papers, and water supply papers, published by the U. S. Geological Survey; Bureau of Mines' bulletins and technical papers; and all southwestern State publications concerning the mining and oil industries.

**MINING EXHIBIT**—The second largest collection of ores and minerals in the West—growing every day.

Specimens of rare ores, earths and minerals, for comparative study; type specimens of rocks and rock-forming minerals; collections from producing and developing properties of the Southwest, and the famous **Clawson Collection of Bisbee copper ores**—a cabinet of unusual beauty.

**MINING AND OIL BULLETIN**—Our official magazine, published monthly, with the object of bringing into closer business relations the mining and oil industries and the manufacturing and commercial interests of the Southwest in general and of Los Angeles in particular. Reliable reading matter and honest advertising.

Free to members of the Chamber. Subscription price \$1.50 per annum. Send it to those interested in the mining or oil industries.

**MEMBERSHIP**—Our membership includes the leading banks and bankers, corporations and business houses, mining and oil men, and mining and oil companies. Membership fee \$5.00; dues \$1.00 per month, payable quarterly.
