

FEMALE ACADEMY.—We understand that Miss LORD, formerly principal of the female seminary at Benicia, is desirous of establishing a school in our village for misses and children. The encomiums heretofore bestowed upon her as a most worthy lady and excellent preceptress, is a satisfactory guarantee that she is well qualified for the delicate responsibilities she proposes to assume. Our citizens should bestir themselves to secure the services of this lady, as we understand she will not tarry long with us, unless speedy action is had in the matter.
