

MINE SALE AND DEVELOPMENT.—The *Sonora Democrat* of November 2d says: W. G. Long, owner of the Golden Gate Mine has sold one-half of his claim to a company of Benicia men. On Monday a tunnel to be run fifteen hundred feet, was commenced with preparations for extensive mining. From the character and richness of the rock taken out by Mr. Long while prospecting his mine there is every reason for believing it will prove a very valuable one. The new company will shortly put up a ten-stamp mill.
