

A Message to the Housewives of BARRE—MONTPELIER—WATERBURY

When an individual or concern can offer to a Community an article or service that is definitely beneficial to the health and well being of that community it is not only good business to advertise that fact, it is a solemn duty.

It is our honest belief that we have in Winnisquam Farms Pasteurized Milk a product worthy of your consideration for many reasons.

First and foremost it is a properly pasteurized milk and pasteurization spells protection from milk borne diseases.

Second—It is scientifically tested daily in our own laboratory by our chemist. We believe we are the only producer and retail distributor of milk in Barre and Montpelier who maintains its own laboratory, offering this important safeguard to your family's health.

Third—The milk is rich and creamy, richer than Grade A requirements.

Fourth—Bottles are washed and sterilized by automatic machinery being subject to three cleansing processes the last of which is live steam.

Fifth—Bottles are automatically filled and capped by machinery.

Sixth—It costs no more per quart than ordinary milk.

Seventh—Delivery service is courteous and dependable.

May we give you more detailed information about
WINNISQUAM FARMS MILK?

Order a trial quart today

Raw or pasteurized as you prefer
