

Music.

We solicit the attention of all desirous of purchasing any articles of the kind, to the advertisement of Mr. G. H. Nichols in our advertising department. We have had some opportunity of knowing the quality of the instruments manufactured by Mr. Nichols, and we cordially recommend them. For a sweet, full, smooth tone they are unsurpassed—their finish is neat, and the materials so far as we can judge, of first rate quality. We advise those who wish a good instrument to give him a call.
