

the state's reduced revenue.

The Montpelier Home for the Aged, the Springfield hospital and the Kurn Hattin Homes in Westminster are to benefit by the will of the late Harry A. Slade of Montpelier. The first two institutions are bequeathed \$5,000 each and all three are made residuary legatees, in equal shares, of a trust fund Mr. Slade's will provides for. The income of this trust fund is to be for the use of relatives during their life and at their death the whole fund is to be given to the institutions. The sum of \$1,000 is bequeathed to the Universalist Society of Springfield and \$1,000 to Fred E. Everett, a clerk with Mr. Slade for 30 years. The will specifies that Everett be given first chance to buy the drug business in Montpelier.
