Hi Fellow Dog Drivers,

I am writing to ask for your help and support.

I am working to get sled dog racing as one of the demonstration sports in the 1976 winter olympics. It would be sled dog racing being held on an amateur basis that will keep the sport competitive, but much more will reclassify it as non-professional so that youngsters will have a different outlook on raising, breeding, building and training a sled dog team for "high" competition, not only with his own countrymen, but with many different countries.

Older drivers have lost this opportunity because of the races entered that were money races, but these drivers can keep the sport alive for the young who prefer to compete in non-professional sports. This means that the amateur sport of sled dog racing will be recognized by NAA, will achieve a growing competitive pride in sled dog racing and will have high competition from all over the world.

I "need" a letter from your club as promptly as possible stating the following:

That you have sled dog teams that would compete in the 1976 Colorado winter olympics race

and/or

you will support the race in whatever way you can; even if you have no teams to enter, your support is needed by giving publicity in your area and/or your support by simply displaying your interest in keeping this sport alive non-professionally.

As this is still in the talking stages, it is necessary to be sure of no premature publicity.
