SAMOYED PEDIGREES

VOLUME 2

1959-1973

Published by the Samoyed Association of Great Britain and printed by
Warwick Savage Ltd., Burslem, Stoke-on-Trent. 10776

FOREWORD

The first volume of The Samoyed Association's Pedigree Book was published in 1960 and contained the pedigrees of all British Samoyed Champions who had gained their titles up to the 31st December, 1959. The first was CH. OLAF OUSSA, a dog born in 1901, and the last was number 119, a dog born in 1956. The effective time span of the first volume, therefore, is fifty-five years. This second volume is appearing only fourteen years after its companion and contains another 78 Champions. The numerical increase is obvious, and the general enlargement of the Samoyed fancy is reflected in the fact that annual breed registrations at the Kennel Club have more than doubled during the period covered by this second volume.

This enlargement is not necessarily an improvement, for the discerning breeder knows how easily the irresistibly appealing true Samoyed 'type' can be lost through indiscriminate matings. It is to provide the means for preserving this precious feature that these volumes are published—for whilst it is inevitable that the standard of Champions is not entirely uniform, nevertheless the availability of uninterrupted pedigrees facilitates the detailed investigation of lines which produce particular characteristics. Thus, used in conjunction with the descriptive analysis of the Breed Standard and all other aspects of the breed which appear in our book. 'The Samoyed', this volume and its predecessor provide a truly vast amount of information for owners and breeders.

The production of this volume, like the first, has been in the very capable hands of Mr. W. E. Lloyd, M.A., and The Samoyed Association acknowledges his work with very grateful thanks. A sincere tribute is also due to all those members and friends of the Association who continue to work so hard over the years to finance the publication of these volumes—and of our book—by organising and attending rallies, shows and social events. If, by making these pedigrees readily available, the quality and inherent naturalness of our lovely breed can be maintained, the Association and its loyal workers will be well recompensed.

GEOFF W. GROUNDS,

April, 1974. President.

(114) CH. SNOWKING OF CARWOOD — Completion of Pedigree.

- Snow Echo of the Arctic
  - Ch. Loga of the Arctic (31)
  - Mitzi of the Arctic
