America's Top Show Dogs for 1969 . . .

Congratulations!

Your dog is one of the top-winning dogs of 1969 according to POPULAR DOGS' famous Phillips System!

CNEJINKA

A TOP PRODUCING DAM FOR 1969

We hope you'll want to feature a photograph and appropriate write-up of your dog along with the other Phillips System winners in our special July Phillips System Issue to announce this great achievement.

Again this year, Mrs. Irene Phillips Khatoonian has compiled the list of Top Sires and Dams in each breed which will also be presented in our spectacular July issue.

The order form is on the reverse side and a stamped return envelope is enclosed for your convenience.

DEADLINE: JUNE 1st

Join the ranks of proud owners whose dogs qualify as the really big winners of the 1969 dog show season!

KENNEL REVIEW

The exhibitors magazine since 1898

September 24, 1970

Mr. & Mrs. Harold McLaughlin
Star Route, Box 1108
Morrison, Col. 80465

Dear Mr. & Mrs. McLaughlin:

As hard as it may be to believe, it looks as though the 1970 Kennel Review Annual will be even larger than the 500 pages of last year's edition! This issue has certainly become THE dog breeder's bluebook throughout the world.

Without a doubt, our "Gallery of Outstanding Producers" is one of the most important features of this great issue as it is here the lifeline of purebred dogs will be found. Without our great producers, the sport would rapidly cease to exist.

I would like to take this opportunity to personally invite you to include CHAMPION CNEJINKA in this special section. Details are contained in the enclosed. I do hope you will strongly consider this elite Gallery.

Very sincerely,

DICK BEAUCHAMP
Publisher

CH. CNEJINKA

By Gerald W. Mears

The most outstanding thing about Ch. Cnejinka, foundation bitch of Silveracres Samoyeds, was her puppies. She produced only 15 puppies during her twelve years at Silveracres, but nine are champions. Four others have m jor points, the remaining two have never been shown. Fourteen have OFA numbers. The fifteenth has been xrayed clear of H.D. Jinka was OFA SA-9. With just 15 puppies Jinka was named TOP PRODUCING SAMOYED BITCH for two years in a row by both Kennel Review and the Phillips System.

Jinka was shown only nine times before being crowned a champion. She won a five point major at Colorado Springs in 1963 while in whelp. A year later she took five more points at the same show, again in whelp. A four point show and a three point show were captured inbetween the two big ones.

Jinka retired from the show ring after her one and only time out as a special. Imagine her humiliation! She was beaten by one of her daughters. (Gigi, who was never finished, went on to Best of Breed and a Group 3 that day.)

What made Jinka such an outstanding Mother and Show Champion? Doris McLaughlin says, "She was a primitive bitch." The natural instincts of the wild animal were very active in Jinka. She hunted with intensity. She would kill mice and rabbits in the same manner that wild wolves kill these small animals for food. Most domestic dogs play with their prey before killing it. Wild animals and Jinka killed quickly and seriously.

Jinka was the only Samoyed at Silveracres that weaned her own puppies. When she decided the puppies were ready for more solid food than milk she would regurgitate her own food. The puppies would then eat the partially digested food. This is exactly the way wild animals start teaching their young to eat.

As young wild animals begin to mature, the mother teaches them to hunt. Jinka tried to do the same thing. One morning Jinka and one of her puppies were missing from their pen. An hour's frantic search found Mother and Son out on a training exercise. The pup was learning to hunt. The puppy did not come up to his mother's standards as a hunter, but he did okay otherwise. He grew up to be Ch. Silveracres Rogue Krabri Vok.

Jinka was the leader of the pack at Silveracres. She could whip any dog on the place. She was accepted by the other dogs as the leader, the teacher, and the mother of everyone. She and the other dogs would wander the then unpopulated hills around Silveracres. Jinka once taught the other dogs to kill skunks. The entire group of dogs once surrounded a pair of skunks. Jinka allowed the skunks to demonstrate their unusual abilities for the group before she moved in and quickly ended their performance and their lives.

Doris also gained a little experience from the incident. She had to bathe thirteen dogs. Only twelve were present at the killing. The thirteenth went down to play with the dead animals when she heard about the fun all the others were having.

Jinka was a good mother, of course. She would even adopt puppies belonging to other Silveracres bitches. Jinka and her daughter Mona Lisa always had puppies at the same time. The puppies had to be marked for identification at birth. Each of the two mothers would gather all the pups into her own whelping box whenever the opportunity presented itself. The two adults did not fight. They just liked to take care of puppies. Silveracres females still welcome company for dinner.

Jinka was half of a pretty good pair of Samoyeds. She was bred five times to Ch. Nachalnik of Drayalene (Chief). This combination produced the first litter of any breed to be all OFA certified. There were: Ch. Silveracres Dondinov OFA SA-49, Ch. Silveracres Charm OFA SA-15, Silveracres Mona Lisa OFA SA-6, Silveracres Arctic Storm OFA SA-13 and Silveracres Polar Bear OFA SA-7. The next litter was a single puppy, but he is now known as Ch. Silveracres Ivan OFA SA-91. The third litter was three puppies; all are champions. Ch. Silveracres Rogue Krabri Vok OFA SA-81, Ch. Silveracres Kantishna OFA SA-248, and Silveracres Belaya Chalinka OFA SA-225

Many of Jinka's offspring are the proud parents of champions now. Jinka is the great granddam of several champions as well.

Ch. Cnejinka was the issue of Ch. Omak II of Whitecliff and Belkina of Kanin, C.D. She was whelped January 19, 1958. She took command of Silveracres Samoyed Kennels on February 6, 1963. She died May 30, 1971. The Samoyed is a better dog because of her.

McLaughlin
MORRISON, COLO.

NEW CHAMPION!

Spring 80

  - Frosty Boy of Samoyland
  - Siskiyou

The most outstanding thing about "Jinka," the foundation bitch of Silveracres, was her puppies. She produced only 15 puppies during her 12 years at Silveracres, but 10 are AKC champions. She did produce one other litter before coming to Silveracres, but we could never learn anything about that litter and what happened to it. Of her 10 AKC champions, six were group-placing dogs. All 15 of Jinka's get received their OFA normal certification.

Jinka was a very primitive bitch. The natural instincts of the wild animal were very active in Jinka. She weaned her puppies just as the wild animals do - when the puppies were ready for solid food she would regurgitate her own food. Jinka, also, always taught her puppies to hunt at every opportunity.

Jinka was always the leader of the pack at Silveracres. No one ever doubted that.

SQ

In Recognition of attaining the status of Top Producer

KENNEL REVIEW

hereby awards this Silver Certificate

to
