SAMOYED PEDIGREES

VOLUME 3

1974~1981

Published by the Samoyed Association
and produced by Design Control Ltd.

FOREWORD

The Samoyed Association is heavily indebted to our archivist, Mr. W. E. Lloyd, M.A., for his tireless research and compilation of the three volumes of Samoyed Champions. The first volume, published in 1960, covered the period 1901 – 1959, giving the pedigrees of 119 dogs. The second in 1974, with 78 more Champions. This, the third volume, adds a further 56 up to 1981, for which we must also thank Mrs. Margaret Probst for her invaluable help.

Surely a record unique in canine history and the envy of other breeds. Owners and breeders have, and will, find this record invaluable in tracing a family tree; also in planning matings to perpetuate the true Samoyed type.

Members of the Association have contributed in many ways to help finance these volumes, and are to be congratulated and thanked for their varied efforts.
