THE EBELL AND ITS WORK.

Dr. Adrian Ebell was a noted German scholar who saw the time had come in the world's history when a thinking woman was a necessity—a womanhood to meet and solve various questions which the stress of the age was presenting for solution more and more insistently. Realizing woman's limited opportunities for development along scientific lines he labored to establish an international academy with chapters all over the world. While traveling in America in 1876 he formed the first chapter, the Oakland Ebell. It is after this finely organized club that the Ebell of Los Angeles is modeled, consisting of a central organization with departments for study and advancement in all lines of general culture.

PRESIDENT'S ANNUAL REPORT.

In making a report of the second year's work under her administration, your president is hampered by the fact that she was not present at the closing meetings of the year and so does not know just what reports were given to you by the other officers; but she cannot close her work with Ebell without a parting review of what we have tried to do and what we have done in the last two years.

The law governing all human institutions is the law of change. Nothing is stationary and, if an institution does not progress, grow upward and onward, it must retrograde. That Ebell has obeyed this law of progress all our statistics will show. Two years ago we numbered 278; now we have 473 members. Today our treasury shows a balance of \$1,414.25 as compared with \$667.99, the balance of July 1902; and, besides, we own 50 shares of stock in our Building Association. Two years ago we only contemplated building a club house; now we own a valuable lot and, before another year passes, will see our club

PRESIDENT'S ANNUAL REPORT

home grown to fair proportions. Besides our advance in material possessions, those things that can be measured by dollars and cents, by feet and inches, we have progressed along more subtle lines, have amassed treasures in that spiritual garner house where "neither moth nor rust doth corrupt and where thieves do not break through and steal." We have grown in good fellowship and friendship and above all in that harmony which comes from appreciation of another's point of view, from the abnegation of self and the desire for the best good of all. This tenth year of club existence has shown better work than ever along all lines. The Majority of the officers were filling their second term of service, as were the greater number of the curators, so that they all had the benefit of experience as well as zeal in their work and that work has shown that experience is a most excellent teacher.

Ebell's first interest is her sections and of them we can say they have labored conscientiously and well. Not that they are beyond improvement, but they have done the best they could under existing conditions. The regret is often expressed that a greater proportion of our members do not take advantage of our section work, but, when we consider that the majority of them are women with homes and families, with all the duties owing to those homes, to society, to church and phil-

anthropology, we should be glad that so many of them do find time to gather together for Club work and self improvement.

The attendance upon Current Events Lectures surely justifies their continuance and their being open this year to the public has been a means of largely extending the Club's influence.

The members of the Travel Section have found that many interesting regions exist in our own country and, in spirit, they have traveled there most enthusiastically, under the leadership of their accomplished curators.

The large and flourishing Shakespeare Section proves that the great author they study is indeed, for all time, and all people, and that a desire to know him well is ever a bond of union to students and teacher.

Bible literature, the foundation of all literature, and current literature, its latest child, found many earnest students.

Each year we think the French Section could not do better and yet each year finds its members further on in their ability to speak French easily and to act French plays with true dramatic spirit.

The Music Section has continued its work along its accustomed lines and, this year, has made us acquainted with the fact that Los Angeles is not without musical composers of her own. The Section has

also introduced to Ebell many of the City's most admirable musicians.

Of the new Sections we can say "well done," with the hope that the future work along those lines will be even more successful.

The Club does not realize and certainly did not appreciate the efforts of the Curator of the Economics Section in bringing before that section so many able speakers on the vital question of the day.

The value of the work in Forensics can hardly be over-estimated in its endeavor to correct the greatest defect in us as club women, in ability to talk easily on an extemporaneous proposition.

The Physical Culture Section has aimed to produce, not only sound bodies, but sane minds in those bodies, by giving us a knowledge of the laws which govern all physical development, as well as the exercise which enables us to apply those laws.

These "Fountains of Knowledge" have been open to all and many have tasted of them.

The Club is greatly indebted to the zealous and untiring efforts of the Program Committee. Never before have such good programs been given us and we are proud to say that those programs, furnished us by our own Ebell members have been among the most interesting and profitable of them all. We need

only mention such names as Bishop Vincent, Rev. Robert J. Burdette,, Bishop Johnson, Rev. Lawrence Ridgeley, President Edwards, Mr. Arthur Farwell, Prof. B. R. Baumgardt, Dr. Martin and Madame de Blumenthal, to remind the Club of our past intellectual feasts.

Besides the lectures, we have had those most delightful musical programs arranged for us by Mrs. Vosburg and Mrs. Ogilvie.

Last, but by no means least, in importance and in the pleasure they gave, we will ever remember our Social Days; our Charter Day Reception, with its most enjoyable musicale given us by the Treble Clef Club; our Children's Christmas Party, with its absurdly amusing "Mary Jane" and the charming Lobster Quadrille; our Colonial Tea, with its beautiful music, its quaint old costumes and its spirit of true patriotism; and our Annual Luncheon.

In our club life we have many pleasant surprises and discoveries of hitherto unknown talents, but of our toast mistress of this year and of those who responded to the toasts, we expected much and thought we could not be surprised, but behold! the half had not been told and such treasures of wit and wisdom were poured out for us that we could not express the half of our admiration.

So it all passes; but another year will give us other and perhaps greater pleasures.

Here we must say a few words in appreciation of our committees who make these pleasant times possible. Our House Committee, the Courtesy Committee, and the Decorating Committee—theirs are the willing hands that DO. We have only to tell them what we would like and with no further concern it is ours. In presenting to the Club Dr. Alfred Martin, in his most delightful and instructive series of lectures on Florentine painters, the Program Committee continued a branch of work which opened with the lectures of Dr. Kin. It is a phase of our work which we hope will grow and be of great benefit, not only to our own members, but to the strangers within our gates.

We have to report most gratifying progress in the work of the Ebell Building Association. This Association has subscribed upon its books nearly \$25,000. It owns a valuable lot on Hope Street and it has plans completed for our Club House and all that remains is to induce the members of Ebell to subscribe the remaining \$15,000 necessary to pay for the building. For this they depend on the love and loyalty of the Ebell and we feel they will not ask in vain.

In the furtherance of the civic work of the city, we have aided all movements for the betterment of social

conditions by our sympathy and financial support, especially in the donation of \$200.00 to the cause of the Juvenile Court.

Death has been busy among us this year and taken from us some of our most valued members: Mrs. John Bley, whom to know was an inspiration to all things higher and better; Mrs. J. N. Russell, who was so interested in our work during the short time she was with us; in Miss Mary Asbury Kent we have lost a friend staunch and true, to whom the interests of the Club were dear; Mrs. Horace A. Brown, the assistant curator of the Travel Section, whose whole life was spent in aiding the development of the young in knowledge and character; Mrs. O. V. Sessions, the most efficient chairman of our Traveling Library work; and last our dear Mrs. T. D. Stimson who was a charter member of the Ebell and who has never failed in ten years of faithful membership to help the Club at all times with her wise counsel, warm sympathy and generous financial support. In the loss of these, our beloved co-workers, it would seem that death does indeed "love a shining mark;" but we know that what is our loss is their gain and that they will be prepared to take up the larger life of the "Great Beyond."

So numerous have been the weddings among our young members this year, we might have felt worried

In closing this brief account of our year's work and in taking official leave of the Club, your president wishes again to express to you her heartfelt appreciation of all the kindness that has been shown her, her thanks for the perfect loyalty and untiring support that have been given her by all the officers and members of the Club. She began her work with fear and trembling; she leaves it with happiness, gratitude and regret.

Mrs. Sumner P. Hunt, President.
